The concept of "funds of knowledge" is based on a simple premise: people are competent and have knowledge, and their life experiences have given them that knowledge. The claim in this book is that first-hand research experiences with families allow one to document this competence and knowledge, and that such engagement provides many possibilities for positive pedagogical actions. Drawing from both Vygotskian and neo-sociocultural perspectives in designing a methodology that views the everyday practices of language and action as constructing knowledge, the funds of knowledge approach facilitates a systematic and powerful way to represent communities in terms of the resources they possess and how to harness them for classroom teaching. This book accomplishes three objectives: It gives readers the basic methodology and techniques followed in the contributors' funds of knowledge research; it extends the boundaries of what these researchers have done; and it explores the applications to classroom practice that can result from teachers knowing the communities in which they work. In a time when national educational discourses focus on system reform and wholesale replicability across school sites, this book offers a counter-perspective stating that instruction must be linked to students' lives, and that details of effective pedagogy should be linked to local histories and community contexts. This approach should not be confused with parent participation programs, although that is often a fortuitous consequence of the work described. It is also not an attempt to teach parents "how to do school" although that could certainly be an outcome if the parents so desired. Instead, the funds of knowledge approach attempts to accomplish something that may be even more challenging: to alter the perceptions of working-class or poor communities by viewing their households primarily in terms of their strengths and resources, their defining pedagogical characteristics. Funds of Knowledge: Theorizing Practices in Households, Communities, and Classrooms is a critically important volume for all teachers and teachers-to-be, and for researchers and graduate students of language, culture, and education. Covers childcare centres, vouchers, subsidies, out-of-school care, parental leave and flexible working. An award-winning author/illustrator team offers a fresh look at the times and transitions all toddlers face daily, giving young children the tools to handle routines with confidence and cooperation. Being dropped off at childcare or cared for by a baby-sitter means saying good-bye to Mom or Dad—and for many toddlers, bye-bye is a big deal. This gentle book helps ease the transition with simple rituals: hugs and kisses, a big wave, a deep breath, and the confidence to seek comfort with the new caregiver or other children. Toddlers learn that good-bye isn't forever, it's just for a while. Part of the Toddler Tools series, Bye-Bye Time can be shared before (or during) the desired "time," or whenever toddlers need encouragement with routines. Includes tips for parents and caregivers. Making conscientious choices about technology in our families is more than just using internet filters and determining screen time limits for our children. It's about developing wisdom, character, and courage in the way we use digital media rather than accepting technology's promises of ease, instant gratification, and the world's knowledge at our fingertips. And it's definitely not just about the kids. Drawing on in-depth original research from the Barna Group, Andy Crouch shows readers that the choices we make about technology have consequences we may never have considered. He takes readers beyond the typical questions of what, where, and when and instead challenges them to answer provocative questions like, Who do we want to be as a family? and How does our use of a particular technology move us closer or farther away from that goal? Anyone who has felt their family relationships suffer or their time slip away amid technology's distractions will find in this book a path forward to reclaiming their real life in a world of devices. Modern worship leaders are restless. They have inherited a model of leadership that equates leading worship with being a rock star. But leading worship is more than a performance, it's about shaping souls and making disciples. Every worship leader is really a pastor. The Worship Pastor is a practical and biblical introduction to this essential pastoral role. Filled with engaging, illustrative stories it is organized to address questions of theory and practice, striving to balance conversational accessibility with informed instruction. Part One presents a series of evocative "vignettes"--intriguing and descriptive titles and metaphors of who a Worship Pastor is and what he or she does. It shows the Worship Pastor as Church-Lover, Disciple Maker, Corporate Mystic, and Doxological Philosopher. Part Two covers specific roles related to ministry within the worship service itself--the Worship Pastor as Theological Dietician, Caregiver, Mortician, Emotional Shepherd, War General, Prophetic Guardian, Missional Historian, and Liturgical Architect. Part Three looks at ministry beyond the worship

service--the Worship Pastor as Visionary Teacher, Evangelist, Artist Chaplain, and Team Leader. While some worship leaders are eager to embrace their pastoral role, many are lost and confused or lack the resources of time or money to figure out what this role looks like. Pastor Zac Hicks gives us a clear guide to leading worship, one that takes the pastoral call seriously.
