Discovery is a critical part of trial practice, and an effective, well-planned discovery can make the difference between winning or losing a case. Civil Discovery and Depositions provides both substantive and strategic guidance on discovery rules, procedures, and tactics including the scope of discovery, privileges, interrogatories, document production, and depositions, the most costly discovery procedure of all. Using proven tactics and techniques, it tells you what to ask, how to ask

and how much to disclose in order to get the most out of the discovery process. Revision 24 of Handling Federal Discovery addresses the seismic shift in federal discovery caused by the once-in-a-generation COVID-19 pandemic. Courts and practitioners alike have had to quickly adopt new technologies, and adapt to shifting circumstances as technology continues to change discovery practices. Some would argue these changes were long overdue. For example, this Revision addresses the new paradigm in remote depositions which, once a rare occurrence, has now become part of what many courts call “the new norm.” See Task 61. Revision 24 also again adds nearly 100 new (and recently decided) cases, replacing older cases that no longer reflect modern federal discovery practice, and further highlights the impact of the pandemic on different aspects of federal discovery. Practitioners can continue to find a dedicated focus on evolving jurisprudence as well as an updated practical guide on how to anticipate and successfully navigate federal discovery in the post-pandemic world. Some key developments covered include:
