Through the story of a group of souls from another world preparing to enter physical existence on Planet Earth, a business consultant and popular speaker presents nine meditations designed to bring success, strength, and spirituality. Distributed Janus is an adaptation of the Janus-Army training system that was designed to link geographically distant brigade and battalion battle staffs in a single coordinated command post exercise emphasizing battle staff synchronization. A brigade suite of equipment, distributed among brigade headquarters and the six subordinate battalions, comprises, at each site, one or two Hewlett-Packard 715/50 workstations, one Silicon Graphics Indigo Extreme workstation, twenty Sun Classic workstations and a printer, all connected to an ethernet. The ethernets are connected to each other by ordinary telephone lines and modems. This configuration permits brigade- wide exercises, exercises at a single site, and exercises using a subset of sites. To permit these modes of operation, two classes of software have been written. The first--collectively referred to as "agent," provides a user interface tailored to distributed Janus's modes of operation and facilitates operation over local-area and wide-area networks. The second class of software constitutes changes to Janus itself. These changes emphasize combat service support so that the forward support battalion and engineer battalion staffs can be more effectively engaged during an exercise, if desired. We, Christian believers, have to be careful in this day and time. The signs of Prophecy fulfillment are growing daily. Not to mention, the fact that we are not guaranteed a specific amount of time here on Earth or in Heaven. WHAT? That is right; there is no place in the Bible that the word guaranty is used. There are places we are promised eternal life in Heaven, but there are also places that promise eternal damnation. There are boundaries that must be recognized. That is what this book is all about, Meeting some of the restrictions such as, 1). How we use our tongue. 2). How well we understand God's Word. 3). How we use God's Word. 4). How well we walk our Christian path. 5). How well we listen to our Heart. This book addresses these and other problems directly from a scriptural point of view. The Hebrew text was checked on certain subjects. Some will disagree with my findings. In this writing, you will find no doctoral views, no religious views, and just scriptural views. Just God's Word! There are some comments that may seem contradictory to what some may believe. That is the purpose of this book. To get the truth of God's Word straight. There are many people in this world that are either afraid to read the Bible or do not

understand it. How important is The Bible? Important I would say. Let me explain it like an old man explained it to me, He came to me out of nowhere one day and it did not take him long to figure out that I was not all that smart, rather kind of a simple fellow. He could see I had something bothering me, and unbelievably he knew exactly what it was. He literally told me what was bothering me word for word. I had never met this man before! He went on to explain what I needed to do to resolve my problems. He told me; "all you have to do is read the book"! At first, I did not understand what he was talking about and then he explained. "Read your Bible, you don't have to be afraid of it, all it is; is just the Operators Manual for your Mind, Body, and Soul (Heart). It is just like the manual you get with a new mower or washing machine. It tells you what to do to make it (you) last longer, operate better, and do the best job it or you can do." Well, I took his advice and he was right. Every part of our existence is referenced in the Bible. It tells us; what and how to eat, it tells us how to behave towards others, it tells us how to talk, to listen, to believe, to work, to discipline our children, treat our family, it even tell us how much we should being paid by our employer's. I could go on forever. It is all in there! I know many people and the first thing they do when they buy something new throws all the papers in the box away. They do not bother reading any of it, and the next thing you know they're trying to take it back or cussing it. Well, I have some good news and some bad news. God has a refund policy. It is in the Bible! You better read it or He may not take you back. The good news is if you read it and do what it says. Everything will be all right. You see we have an eternal lifetime warranty! If you follow the instructions in this manual, not only do get a Life Time Warranty but an Eternal Guaranty. Over 800 total pages ... All Manuals published by the U.S. Army Contains the following publications: 1) T-72 Checks Manual - 25 pages (many color illustrations) 2) Maintenance - Guide Book of the T-72M1 Tank (Hull Manual) 3) T-72 Turret Manual The book—companion to a PBS series—that proves humans are causing global warming and offers a path to the future. Since the discovery of fire, humans have been energy users and always will be. And this is a good thing—our mastery of energy is what separates us from the rest of the animal kingdom and has allowed us to be the dominant species on the planet. However, this mastery comes with a price: we are changing our environment in a profoundly negative way by heating it up. Using one engaging story after another, coupled with accessible scientific facts, world authority Richard B. Alley explores the fascinating history of energy use by humans over the centuries, gives a doubt-destroying proof that already-high levels of carbon dioxide are causing damaging global warming, and surveys the alternative energy options that are available to exploit right now. These new energy sources might well be the engines for economic growth in the twenty-first century.
