“We can’t define consciousness because consciousness does not exist. Humans fancy that there’s something special about the way we perceive the world, and yet we live in loops as tight and as closed as the hosts do, seldom questioning our choices, content, for the most part, to be told what to do next.” —Dr. Robert Ford, Westworld Have you ever questioned the nature of your reality? HBO’s Westworld, a high-concept cerebral television series which explores the emergence of artificial consciousness at a futuristic amusement park, raises numerous questions about

the nature of consciousness and its bearing on the divide between authentic and artificial life. Are our choices our own? What is the relationship between the mind and the body? Why do violent delights have violent ends? Could machines ever have the moral edge over man? Does consciousness create humanity, or humanity consciousness? In *Westworld and Philosophy*, philosophers, filmmakers, scientists, activists, and ethicists ask the questions you're not supposed to ask and suggest the answers you're not supposed to know. There's a deeper level to this game, and this book charts a course through the maze of the mind, examining how we think about humans, hosts, and the world around us on a journey toward self-actualization. Essays explore different facets of the show's philosophical puzzles, including the nature of autonomy as well as the pursuit of liberation and free thought, while levying a critical eye at the human example as *Westworld's* hosts ascend to their apotheosis in a world scarred and defined by violent acts. The perfect companion for *Westworld* fans who want to exit the park and bend their minds around the philosophy behind the scenes, *Westworld and Philosophy* will enrich the experience of the show for its viewers and shed new light on its enigmatic twists and turns.

The photographs in *Shooting Soldiers: Civil War Medical Photographs* were taken by photographer and surgeon Reed B. Bontecou at Harewood US Army Hospital, Washington DC. These selected images, from Dr. Burns' collection of over 1100 Bontecou photographs taken as documentation of injuries suffered during the conflict, are the seminal source of images of wounded warriors of the American Civil War. The faces of these wounded men stare back at us through time. Dr. Bontecou's photographs have appeared in numerous documentaries, books, and films, including *Masterpiece Theatre*, *Death & The American Civil War*, and Ken Burns' *Civil War*. They were also used to create accurate wound in the PBS Series *Mercy Street*. Since 1983, the images recognized as major works of art, have been exhibited in

museums around the world, including Paris, Stockholm, Tokyo and Berlin. They've been shown in the United States in over a dozen museums including twice at The Metropolitan Museum of Art and featured in the exhibition Photography and the American Civil War. The resilience and power of human body and spirit are on display in this visual record of the casualties of war and of the physician's ability to help and heal. From USCCB Publishing, this revision of the General Instruction of the Roman Missal (GIRM) seeks to promote more conscious, active, and full participation of the faithful in the mystery of the Eucharist. While the Missale Romanum contains the rite and prayers for Mass, the GIRM provides specific detail about each element of the Order of Mass as well as other information related to the Mass. This compelling "important and timely" (Drew Faust, Harvard Magazine) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some

of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has come to be. To begin: the story of Kahless the Unforgettable, from the death of his coward brother Morath to his victory at Three Turn Bridge. Witness history unfolding in this can't-miss issue! From the riddling song of a bawdy onion that moves between kitchen and bedroom to the thrilling account of Beowulf's battle with a treasure-hoarding dragon, from the heart-rending lament of a lone castaway to the embodied speech of the cross upon which Christ was crucified, from the anxiety of Eve, who carries "a sumptuous secret in her hands / And a tempting truth hidden in her heart," to the trust of Noah who builds "a sea-floater, a wave-walking / Ocean-home with rooms for all creatures," the world of the Anglo-Saxon poets is a place of harshness, beauty, and wonder. Now for the first time, the entire Old English poetic corpus—including poems and fragments discovered only within the past fifty years—is rendered into modern strong-stress, alliterative verse in a masterful translation by Craig Williamson. Accompanied by an introduction by noted medievalist Tom Shippey on the literary scope and vision of these timeless poems and Williamson's own introductions to the individual works and his essay on translating Old English poetry, the texts transport us back to the medieval scriptorium or ancient mead-hall, to share a herdsman's recounting of the story of the world's creation or a people's sorrow at the death of a beloved king, to be present at the clash of battle or to puzzle over the sacred and profane answers to riddles posed over a thousand years ago. This is poetry as stunning in its vitality as it is true to its sources. Were Williamson's idiom not so modern, we might think that the Anglo-Saxon poets had taken up the lyre again and begun to sing once more. Commemorating a crisis: the first monograph on Eric Rhein, poetical chronicler of the AIDS epidemic in photos,

drawings and assemblages This is the first book on the work of American artist Eric Rhein (born 1961), whose career has spanned four decades. This unique monograph-memoir features intimate photographs, taken between 1989 and 2012. The self-portraits and images of friends and lovers correspond to the period spanning Rhein's HIV diagnosis, his subsequent near death and his experience of a renewed sense of vitality. New York Times critic Holland Cotter wrote of Rhein's work: "the combination of art and craft, delicacy and resiliency, feminine and masculine, is exquisitely wrought and is, as it should be, seductive but disturbing." As a personal response to the AIDS crisis, Rhein's compelling portraits highlight tenderness and care as life-saving instincts. Included are related bodies of work: delicate assemblages and wire drawings, often serving as memorials for fallen friends. Rhein's photography, wire drawings, sculpture and watercolors honor love, touch, connection to nature, and familial history. Rhein mines collective and personal narratives, formulating pieces that are at once poetic and documentarian. Mark Doty and Paul Michael Brown contribute essays. We all have a responsibility to care for culture. Artist Makoto Fujimura issues a call to cultural stewardship, in which we feed our culture's soul with beauty, creativity, and generosity. This is a book for artists and all "creative catalysts" who understand how much the culture we all share affects human thriving today and shapes the generations to come. The book, "" Antiquities of the Jews; Book - III "" , has been considered important throughout the human history, and so that this work is never forgotten we have made efforts in its preservation by republishing this book in a modern format for present and future generations. This whole book has been reformatted, retyped and designed. These books are not made of scanned copies and hence the text is clear and readable. A collaborative creation unlike any other, the Names Project Foundation's AIDS Memorial Quilt has played an invaluable role in shattering the silence and stigma that surrounded the epidemic

in the first years of its existence. Designed by Cleve Jones, the AIDS Quilt is the largest ongoing community arts project in the world. Since its conception in 1987, the Quilt has transformed the cultural and political responses to AIDS in the U.S. Representative of both marginalized and mainstream peoples, the Quilt contains crucial material and symbolic implications for mourning the dead, and the treatment and prevention of AIDS. However, the project has raised numerous questions concerning memory, activism, identity, ownership, and nationalism, as well as issues of sexuality, race, class, and gender. As thought-provoking as the Quilt itself, this diverse collection of essays by ten prominent rhetorical scholars provides a rich experience of the AIDS Quilt, incorporating a variety of perspectives, critiques, and interpretations. A complete treatment of Aeneid XI, with a thorough introduction to key characters, context, and metre, and a detailed line-by-line commentary which will aid readers' understanding of Virgil's language and syntax. Indispensable for students and instructors reading this important book, which includes the funeral of Pallas and the death of Camilla. In her first collection of poems, Kansas native Amy Fleury captures images of dragging clotheslines, baked lawns, and sweet potato babies, inserting them with an earnest dignity into her stories of midwestern life. Beautiful Trouble explores the subtleties of landscape, place, families, girlhood, womanhood, and everyday existence on the prairie. Fleury writes of the Midwest with authenticity, speaks of romance with delicate allure, and recalls the heartbreak of childhood without self-pity. In meditations on resilience and life's contradictions, Fleury engages her characters fully and paints their souls and sensations evenly in language both rare and beautiful. She is a poet in love with sound and its power to summon majesty from quotidian scenes. Her poems are brief and striking, depending on exquisite word choice and balance to achieve a simple order on the page. "No soldier could ask for a sweeter resting place than on the field of glory

where he fell. The land he died to save vies with the one which gave him birth in paying tribute to his memory, and the kindly hands which so often come to spread flowers upon his earthly coverlet express in their gentle task a personal affection." --

General John J. Pershing To remember and honor the memory of the American soldiers who fought and died in foreign wars during the past hundred years, the American Battle Monuments Commission (ABMC) was established. Since the agency was founded in 1923, its sole purpose has been to commemorate the soldiers' service and the causes for which their lives were given. The twenty-five overseas cemeteries honoring 139,000 combat dead and the memorials honoring the 60,314 fallen soldiers with no known graves are among the most beautiful and meticulously maintained shrines in the world. In the first comprehensive study of the ABMC, Thomas H. Conner traces how the agency came to be created by Congress in the aftermath of World War I, how the cemeteries and monuments the agency built were designed and their locations chosen, and how the commemorative sites have become important "outposts of remembrance" on foreign soil. *War and Remembrance* powerfully demonstrates that these monuments -- living sites that embody the role Americans played in the defense of freedom far from their own shores -- assist in understanding the interconnections of memory and history and serve as an inspiration to later generations. Age of Science. When young Joseph Banks stepped onto a Tahitian beach in 1769, he hoped to discover Paradise. Inspired by the scientific ferment sweeping through Britain, the botanist had sailed with Captain Cook in search of new worlds. Other voyages of discovery—astronomical, chemical, poetical, philosophical—swiftly follow in Richard Holmes's thrilling evocation of the second scientific revolution. Through the lives of William Herschel and his sister Caroline, who forever changed the public conception of the solar system; of Humphry Davy, whose near-suicidal gas experiments revolutionized chemistry; and of the great Romantic writers, from Mary Shelley to Coleridge and Keats, who were inspired by the scientific breakthroughs of their day, Holmes brings to life the era in which we first realized both the awe-inspiring and the frightening possibilities of science—an era whose consequences are with us still. **BONUS MATERIAL:** This ebook edition includes an excerpt from Richard Holmes's *Falling Upwards*. Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? **Between the World and Me** is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, **Between the World and Me** clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Sleeping Beauty III: Memorial Photography, The Children includes over 125 post mortem photographs from photography's earliest era through the present. The historic images are classic representations of American and European memorial cultural traditions and the modern are contemporary practices of bereavement and memorialization. It is used as a reference for bereavement organizations, photographers, hospital staff, and parents engaged in renewing the practice of memorial photography. A photographic history of respiratory disease, from

the collection of renowned physician and historian Stanley B. Burns. Beyond their esthetic and utilitarian importance, urban trees seem to fill a deeper human need. Perhaps they are reminders of the inexorable cycles of the natural world. Perhaps they serve as eddies and rills of slowness and sureness within the frantic rush of our urban environment. For more than two decades, photographer David Paul Bayles has been making images of trees in cities and suburbs--places of tension, as he puts it, between "what we build and what we grow." This beautifully designed and produced volume showcases his extraordinary vision of urban trees and their often precarious, sometimes triumphant place in the human landscape. Initially drawn to his subject by "the balance and harmony and beauty between the manmade structure and the tree," Bayles has also found and photographed plenty of imbalance and human folly along the way. His images are laconic, almost deadpan, yet at the same time infused with irony, humor, and compassion. They avoid the easy trap of politicization, allowing and encouraging each of us to see the relationship between humankind and trees--in all of its complexity--for ourselves. This much is certain: Those who delve into the pages of this remarkable book will never again look at the trees around them in quite the same way. Over 3 million copies sold! A moving tribute to the little-known history behind the first Memorial Day, illustrated by Coretta Scott King Award winner Floyd Cooper Today is a special day. Eli knows it's important if he's allowed to miss one second of school, his "hard-earned right." Inspired by true events and told through the eyes of a young boy, this is the deeply moving story about what is regarded as the first Memorial Day on May 1, 1865. Eli dresses up in his best clothes, Mama gathers the mayflowers, Papa straightens his hat, and together they join the crowds filling the streets of Charleston, South Carolina, with bouquets, crosses, and wreaths. Abolitionists, missionaries, teachers, military officers, and a sea of faces Black, Brown, and White, they march as one and sing for all those who gave their lives fighting for freedom during the Civil War. With poignant prose and celebratory, powerful illustrations, *A Day for Rememberin'* shines light on the little-known history of this important holiday and reminds us never to forget the people who put their lives on the line for their country. The book is illustrated by award-winning illustrator Floyd Cooper and includes archival photos in the back matter, as well as an author's note, bibliography, timeline, and index. A profound, important book, a moving personal detective story and an uncovering of secret pasts, set in Europe's center, the city of bright colors—Lviv, Ukraine, dividing east from west, north from south, in what had been the Austro-Hungarian Empire. A book that explores the development of the world-changing legal concepts of "genocide" and "crimes against humanity" that came about as a result of the unprecedented atrocities of Hitler's Third Reich. It is also a spellbinding family memoir, as the author traces the mysterious story of his grandfather as he maneuvered through Europe in the face of Nazi atrocities. This is "a

monumental achievement ... told with love, anger and precision” (John le Carré, acclaimed internationally bestselling author). East West Street looks at the personal and intellectual evolution of the two men who simultaneously originated the ideas of “genocide” and “crimes against humanity,” both of whom, not knowing the other, studied at the same university with the same professors, in “the Paris of Ukraine,” a major cultural center of Europe, a city variously called Lemberg, Lwów, Lvov, or Lviv. Phillippe Sands changes the way we look at the world, at our understanding of history and how civilization has tried to cope with mass murder “Brilliantly researched, utterly gripping history: the first full account of a remarkable group of Jewish refugees—a top-secret band of brothers—who waged war on Hitler.”—Alex Kershaw, New York Times best-selling author of *The Longest Winter* and *The Liberator* The incredible World War II saga of the German-Jewish commandos who fought in Britain’s most secretive special-forces unit—but whose story has gone untold until now June 1942. The shadow of the Third Reich has fallen across the European continent. In desperation, Winston Churchill and his chief of staff form an unusual plan: a new commando unit made up of Jewish refugees who have escaped to Britain. The resulting volunteers are a motley group of intellectuals, artists, and athletes, most from Germany and Austria. Many have been interned as enemy aliens, and have lost their families, their homes—their whole worlds. They will stop at nothing to defeat the Nazis. Trained in counterintelligence and advanced combat, this top secret unit becomes known as X Troop. Some simply call them a suicide squad. Drawing on extensive original research, including interviews with the last surviving members, Leah Garrett follows this unique band of brothers from Germany to England and back again, with stops at British internment camps, the beaches of Normandy, the battlefields of Italy and Holland, and the hellscape of Terezin concentration camp—the scene of one of the most dramatic, untold rescues of the war. For the first

time, X Troop tells the astonishing story of these secret shock troops and their devastating blows against the Nazis. “Garrett’s detective work is stunning, and her storytelling is masterful. This is an original account of Jewish rescue, resistance, and revenge.”—Wendy Lower, author of *The Ravine* and National Book Award finalist *Hitler’s Furies*
