Meditation for Fidgety Skeptics Jun 13 2022 THE NEW YORK TIMES BESTSELLER FROM THE AUTHOR OF 10% HAPPIER Too busy to meditate? Can't turn off your brain? Curious about mindfulness but more comfortable in the gym? This book is for you. You'll also get access to guided audio meditations on the 10% Happier app, to jumpstart your practice from day one. ABC News anchor Dan Harris used to think that meditation was for people who collect crystals, play Ultimate Frisbee, and use the word "namaste" without irony. After he had a panic attack on live television, he went on a strange and circuitous journey that ultimately led him to become one of meditation's most vocal public proponents. Harris found that

meditation made him more focused and less yanked around by his emotions. According to his wife, it also made him less annoying. Science suggests that the practice can lower your blood pressure, mitigate depression and anxiety, and literally rewire key parts of the brain. So what's holding you back? In *Meditation for Fidgety Skeptics*, Harris and Jeff Warren, a masterful teacher and "Meditation MacGyver," embark on a gonzo cross-country quest to tackle the myths, misconceptions, and self-deceptions that keep people from meditating. It is filled with game-changing and deeply practical meditation instructions—all of which are also available (for free) on the 10% Happier app. This book is a trip worth taking.

Praise for *Meditation for Fidgety Skeptics* "If you're intrigued by meditation but don't know how to begin—or you've benefited from meditation in the past but need help to get started again—Dan Harris has written the book for you. Well researched, practical, and crammed with expert advice, it's also an irreverent, hilarious page-turner."—Gretchen Rubin, author of *The Happiness Project*

"The ABC News anchor, a 'defender of worrying' who once had an anxiety attack on air, offers a hilarious and stirring account of his two-steps-forward-one-step-back campaign to sort 'useless rumination' from 'constructive anguish' via mindfulness, along with invaluable suggestions for following in his footsteps."—O: The Oprah Magazine

Sea Prayer Aug 15 2022 **Please note that this will work best on a color device and will appear in a horizontal format** The #1 New York Times-bestselling author of The Kite Runner, A Thousand Splendid Suns, and And the Mountains Echoed responds to the heartbreak of the current refugee crisis with this deeply moving, beautifully illustrated short work of fiction for people of all ages, all over the world. "Intensely moving. . .Powerfully evocative of the plight in which displaced populations find themselves."- Kirkus, STARRED Review "Hosseini's story, aimed at readers of all ages, does not dwell on nightmarish fates; instead, its emotional power flows from the love of a father for his son."- Publishers Weekly, STARRED BOX Review A short, powerful, illustrated book

written by beloved novelist Khaled Hosseini in response to the current refugee crisis, *Sea Prayer* is composed in the form of a letter, from a father to his son, on the eve of their journey. Watching over his sleeping son, the father reflects on the dangerous sea-crossing that lies before them. It is also a vivid portrait of their life in Homs, Syria, before the war, and of that city's swift transformation from a home into a deadly war zone. Impelled to write this story by the haunting image of young Alan Kurdi, the three-year-old Syrian boy whose body washed upon the beach in Turkey in September 2015, Hosseini hopes to pay tribute to the millions of families, like Kurdi's, who have been splintered and forced from home by war and persecution, and he will donate author proceeds from this book to the UNHCR (the UN Refugee Agency) and The Khaled Hosseini Foundation to help fund lifesaving relief efforts to help refugees around the globe. Khaled Hosseini is one of the most widely read writers in the world, with more than fifty-five million copies of his novels sold worldwide in more than seventy countries. Hosseini is also a Goodwill Envoy to the UNHCR, and the founder of The Khaled Hosseini Foundation, a nonprofit that provides humanitarian assistance to the people of Afghanistan.

Lean Product and Process Development, 2nd Edition Dec 07 2021 "The P-51 Mustang—perhaps the finest piston engine fighter ever built—was designed and put into flight in just a few months. Specifications were finalized on

March 15, 1940; the airfoil prototype was complete on September 9; and the aircraft made its maiden flight on October 26. Now that is a lean development process!" —Allen Ward and Durward Sobek, commenting on the development of the P-51 Mustang and its exemplary use of trade-off curves. Shingo Research and Professional Publication Award recipient, 2008

Despite attempts to interpret and apply lean product development techniques, companies still struggle with design quality problems, long lead times, and high development costs. To be successful, lean product development must go beyond techniques, technologies, conventional concurrent engineering methods, standardized engineering work, and heavyweight project managers. Allen Ward showed the way. In a truly groundbreaking first edition of *Lean Product and Process Development*, Ward delivered -- with passion and penetrating insights that cannot be found elsewhere -- a comprehensive view of lean principles for developing and sustaining product and process development. In the second edition, Durward Sobek, professor of Mechanical and Industrial Engineering at Montana State University—and one of Ward's premier students—edits and reorganizes the original text to make it more accessible and actionable. This new edition builds on the first one by: Adding five in-depth and inspiring case studies. Including insightful new examples and illustrations. Updating concepts and tools based on recent developments in product development. Expanding the discussion around the critical concept of set-based concurrent engineering. Adding a more detailed table of contents and an index to make the book more accessible and user-friendly. *The True Purpose of Product*

Development Ward's core thesis is that the very aim of the product development process is to create profitable operational value streams, and that the key to doing so predictably, efficiently, and effectively is to create useable knowledge. Creating useable knowledge requires learning, so Ward also creates a basic learning model for development. But Ward not only describes the technical tools needed to make lean product and process development actually work. He also delineates the management system, management behaviors, and mental models needed. In this breakthrough text, Ward: Asks fundamental questions about the purpose and "value added" in product development so you gain a crystal clear understanding of essential issues. Shows you how to find the most common forms of "knowledge waste" that plagues product development. Identifies four "cornerstones" of lean product development gleaned from the practices of successful companies like Toyota and its partners, and explains how they differ from conventional practices. Gives you specific, practical recommendations for establishing your own lean development processes. Melds observations of effective teamwork from his military background, engineering fundamentals from his education and personal experience, design methodology from his research, and theories about management and learning from his study of history and experiences with customers. Changes your thinking forever about product development.
