*Introduced in 1951, the Fender Precision Bass completely transformed the sound of popular music by the early '60s. This is the first book to show you how and why. This richly illustrated history reveals the true colors of the Fender electric bass - as a powerful agent of change in popular music and popular culture. It tells the story of technological and artistic evolution, of basses and players--and of their profound influence on the world around them. Celebrating the instrument's 50th anniversary, this book salutes the revolutionary impact of the bass in the hands of James Jamerson, Jack Bruce, Paul McCartney, Carol Kaye, John Entwistle, Jaco Pastorius, Sting, and other bass visionaries and virtuosos past and present. This book is chock-full of great photos and details on buying and maintaining the legendary Fender Stratocaster, with Terry Burrows leading the way. Presents brief entries covering the history, significant artists, styles and influence of rhythm and blues, rap, and hip-hop music. The weekly source of African American political and entertainment news. The life and times of the quintessential disco band. The greatest albums of all time . . . and how they happened. Organised chronologically and spanning seven decades, The MOJO Collection presents an authoritative and engaging guide to the history of the pop album via hundreds of long-playing masterpieces, from the much-loved to the little known. From The Beatles to The Verve, from Duke Ellington to King Tubby and from Peggy Lee to Sly Stone, hundreds of albums are covered in detail with chart histories, full track and personnel listings and further listening suggestions. There's also exhaustive coverage of the soundtrack and hit collections that every home should have. Like all collections, there are records you listen to constantly, albums you've forgotten, albums you*

hardly play, albums you love guiltily and albums you thought you were alone in treasuring, proving *The MOJO Collection* to be an essential purchase for those who love and live music. (Music Sales America). Follow in the footsteps of bass masters such as Mark King, Flea and Jaco Pastorius with this in-depth tutorial. Complete with two CDs of original tracks based on the styles of the world's top bassists, this guide begins with the very basics before dissecting advanced techniques such as slapping, popping and more. Unlike most bass instruction books, this book takes an individual star bassist and looks closely at their unique approach. Other artists covered include Duck Dunn, Stu Hamm, John Entwistle and John Paul Jones. *Samling af artikler fra tidsskriftet Bass player, omhandlende vejledninger i spilleteknik, udstyr, og artikler om kendte el-basguitarister siden 1960'erne, både inden for jazz og rock* Here is a fascinating, all-encompassing journey through the life and career of one of America's most influential, and literate, songwriters. Beginning with Simon's earliest days as an aspiring teenage idol and Tin Pan Alley songsmith, *Paul Simon FAQ* takes readers through Simon's sometimes tempestuous relationship with singing partner Art Garfunkel, with whom he established the most popular musical duo in rock history. The book goes behind the scenes of Simon's groundbreaking work at the forefront of world music and follows him to his emotional 2018 final concert before his retirement-from performing live. In addition, *Paul Simon FAQ* features chapters dedicated not only to Simon's music but also his stage, screen, and television work, his devotion to charity, and more. Influences such as Bob Dylan, the Everly Brothers, and the Child Ballads are examined, while his songwriting is documented not only through his own recordings but also those of the myriad other artists who have covered his compositions. Fact-filled sidebars serve up a wealth of statistics and lists. In short, *Paul Simon FAQ* is the ultimate guide to the consummate performer. Provides instruction and tips on performing, recording, equipment, theory, and techniques of playing the bass guitar. *Rock on Record* shows students how to listen to and enjoy the rich repertory of rock records made between the 1950s-1980s. Lifelong fans and interested newcomers will love this stunning biography of Duran Duran by the bestselling author of *Gold Dust Woman* and *Hammer of the Gods*. In *Please Please Tell Me Now*, bestselling rock biographer Stephen Davis tells the story of Duran Duran, the quintessential band of the 1980s. Their pretty boy looks made them the stars of fledgling MTV, but it was their brilliant musicianship that led to a string of number one hits. By the end of the decade, they had sold 60 million albums; today, they've sold over 100 million albums—and counting. Davis traces their roots to the austere 1970s British malaise that spawned both the Sex Pistols and Duran Duran—two seemingly opposite music extremes. Handsome, British, and young, it was Duran Duran that headlined *Live Aid*, not Bob Dylan or Led Zeppelin. The

band moved in the most glamorous circles: Nick Rhodes became close with Andy Warhol, Simon LeBon with Princess Diana, and John Taylor dated quintessential British bad girl Amanda De Cadanet. With timeless hits like "Hungry Like the Wolf," "Girls on Film," "Rio," "Save a Prayer," and the bestselling James Bond theme in the series' history, "A View to Kill," Duran Duran has cemented its legacy in the pop pantheon—and with a new album and a worldwide tour on the way, they show no signs of slowing down anytime soon. Featuring exclusive interviews with the band and never-before-published photos from personal archives, *Please Please Tell Me Now* offers a definitive account of one of the last untold sagas in rock and roll history—a treat for diehard fans, new admirers, and music lovers of any age.

*Ultimate Slap Bass* covers every aspect of the slap technique from the absolute basics through to advanced techniques such as double thumbing, open string hammer-ons and how to combine slapping with other techniques in a musical way. A long-overdue paean to the predominant musical form of the 70s and a thoughtful exploration of the culture that spawned it *Disco* may be the most universally derided musical form to come about in the past forty years. Yet, like its pop cultural peers punk and hip hop, it was born of a period of profound social and economic upheaval. In *Turn the Beat Around*, critic and journalist Peter Shapiro traces the history of disco music and culture. From the outset, disco was essentially a shotgun marriage between a newly out and proud gay sexuality and the first generation of post-civil rights African Americans, all to the serenade of the recently developed synthesizer. Shapiro maps out these converging influences, as well as disco's cultural antecedents in Europe, looks at the history of DJing, explores the mainstream disco craze at its apex, and details the long shadow cast by disco's performers and devotees on today's musical landscape. One part cultural study, one part urban history, and one part glitter-pop confection, *Turn the Beat Around* is the most comprehensive study of the Me Generation to date. For the aspiring musician, knowing what to listen to is just as important as knowing what to play. Bass player and writer Ryan Madora provides the reader with exactly that—a guide to listening and learning from the greats. Shining the spotlight on players who are too often confined to the background, this book highlights the session aces, band members, and career musicians whose bass lines have permeated popular culture. Madora discusses the nuances of bass playing and the stylistic choices behind classic records, top-forty hits, and funky deep cuts. An invaluable resource for professionals and hobbyists alike, *Bass Players To Know* features players who have contributed to the evolution of the instrument, including Ray Brown, Jack Bruce, Cliff Burton, Duck Dunn, Louis Johnson, Edgar Meyer, Willie Weeks, and many others. (Book). This indispensable handbook helps players of all levels produce better, more creative, and more varied bass

lines. Divided into two sections *Playing Your Bass* and *Knowing Your Bass* it covers everything from tuning, reading music, scales and chords, and advanced techniques to tips on buying and upgrading a budget bass and troubleshooting. Along with a list of suggested listening and a reference guide, this book provides an unrivaled digest of bass information that might otherwise take an entire career to amass. In its 114th year, *Billboard* remains the world's premier weekly music publication and a diverse digital, events, brand, content and data licensing platform. *Billboard* publishes the most trusted charts and offers unrivaled reporting about the latest music, video, gaming, media, digital and mobile entertainment issues and trends. *Dub* is the avant-garde verso of reggae, created by manipulating and reshaping recordings using studio strategies and techniques. While *dub* was one of the first forms of popular music to turn the idea of song inside out, it is far from being fully explored. Tracing the evolution of *dub*, *Remixology* travels from Kingston, Jamaica, across the globe, following *dub's* influence on the development of the MC, the birth of sound system culture, and the postwar Jamaican diaspora. Starting in 1970s Kingston, Paul Sullivan examines the origins of *dub* as a genre, approach, and attitude. He stops off in London, Berlin, Toronto, Bristol, and New York, exploring those places where *dub* had the most impact and investigates its effect on postpunk, *dub-techno*, jungle, and the *dubstep*. Along the way, Sullivan speaks with a host of international musicians, DJs, and luminaries of the *dub* world, from DJ Spooky, Adrian Sherwood, Channel, and Roy to *Shut Up and Dance* and *Roots Manuva*. Wide-ranging and lucid, *Remixology* sheds new light on the *dub-born* notions of remix and reinterpretation that set the stage for the music of the twenty-first century. Following his 2016 smash hit *Anatomy of a Song*, acclaimed music journalist Marc Myers collects fifty-five new oral histories of iconic songs from his popular *Wall Street Journal* column *Songs that sell the most copies become hits, but some of those hits become something more—iconic recordings that not only inspire a generation but also change the direction of music*. In *Anatomy of 55 More Songs*, based on his column for the *Wall Street Journal*, music journalist and historian Marc Myers tells the story behind fifty-five rock, pop, R&B, country, and soul-gospel hits through intimate interviews with the artists who wrote and recorded them. Part oral history, part musical analysis, *Anatomy of 55 More Songs* ranges from Creedence Clearwater Revival's "Bad Moon Rising" to Dionne Warwick's "Walk On By," The Beach Boys' "Good Vibrations," and Black Sabbath's "Paranoid." Bernie Taupin recalls how he wrote the lyrics to Elton John's "Rocket Man;" Joan Jett remembers channeling her rage against how she had been unfairly labeled and treated as a female rocker into "Bad Reputation;" and Ozzy Osbourne, Elvis Costello, Bob Weir, Sheryl Crow, Alice Cooper, Roberta Flack, John Mellencamp, Keith Richards, Carly Simon, and

many others reveal the emotions and technique behind their major works. Through an absorbing chronological, song-by-song analysis of the most memorable post-war hits, *Anatomy of 55 More Songs* provides a sweeping look at the evolution of pop music between 1964 and today. This book will change how you listen to music and evaluate the artists who create it. "A beginner's guide to bass guitar"--Cover. CD also available - see MM97 I135897. ESG were one of the first bands to sign to British indie label Factory Records, working with famed producer Martin Hannett on their early EPs. The band's signature guitar sound from iconic single 'UFO' has been sampled in hundreds of hip hop records, and everyone from Karen O to Kathleen Hanna lists the South Bronx group as a direct influence. So why do the Scroggins sisters appear as nothing more than a footnote in the 1980s music scene? Through interviews with founding member Renee Scroggins, alongside cult-figures from 1980s New York and North England, this book follows the story of a group of sisters who made it out of the New York projects and into the heart of the dancefloor. *Come Away With ESG* repositions ESG in their rightful place as punk pioneers and explains how their primal beats have paved the way for modern dance music today. (Book). *The Bass Book* offers a complete illustrated history of bass guitars from Fender's first in the 1950s through the models of the next 40 years that formed the foundation for modern music. The bass guitar is undoubtedly one of the most significant instruments of this century, yet this book is the first to study its history. Features original interviews with bass makers past and present, dozens of unusual, specially commissioned color photos, and a reference section that provides a wealth of information on every major manufacturer. The double bass - the preferred bass instrument in popular music during the 1960s - was challenged and subsequently superseded by the advent of a new electric bass instrument. From the mid-1960s and throughout the 1970s, a melismatic and inconsistent approach towards the bass role ensued, which contributed to a major change in how the electric bass was used in performance and perceived in the sonic landscape of mainstream popular music. Investigating the performance practice of the new, melodic role of the electric bass as it appeared (and disappeared) in the 1960s and 1970s, the book turns to the number one songs of the American Billboard Hot 100 charts between 1951 and 1982 as a prime source. Through interviews with players from this era, numerous transcriptions - elaborations of twenty bass related features - are presented. These are juxtaposed with a critical study of four key players, who provide the case-studies for examining the performance practice of the melodic electric bass. This highly original book will be of interest not only to bass players, but also to popular musicologists looking for a way to instigate methodological and theoretical discussions on how to develop popular music

analysis. Humans have always made music and this authoritative and lavishly illustrated guide is your companion to its fascinating history across the globe. Music - that mysterious alchemy of harmonies, lyrics, and rhythm - is a constant in our lives. Discover how music has evolved with human society, accompanying our leisure, religious rituals, and popular festivities. Watch its development during prehistory and before musical notation, when melodies were memorized or improvised. Enjoy galleries of historical instruments such as dulcimers, shawms, psalteries, and tabor pipes. The universal language of music is expressed in an astonishing number of styles today, and Music presents its evolution around the globe, including the classical European tradition of JS Bach, the passionate sounds of Spain's flamenco, and the sonic power of electronica and heavy rock. With spectacular timelines of key events and profiles of musicians from Amadeus Mozart to David Bowie, Music is an unrivaled and comprehensive reference. Whether you are into the Blues, Brahms, or Bhangra, it is essential reading and guaranteed to hit the right note. From Elvis and the Beatles to Ray Charles and The Ramones, includes bios, historical context, extensive playlists, and rocking activities for the whole family! Album by album and track by track, this first-of-its-kind catalog of David Bowie's entire 50-year and 27-album career tells the story of one of rock's all-time greatest artists. A lovingly thorough dissection of every album and every track ever released by David Bowie over the span of his nearly 50 year career, David Bowie All the Songs follows the musician from his self-titled debut album released in 1967 all the way through Blackstar, his final album. Delving deep into Bowie's past and featuring new commentary and archival interviews with a wide range of models, actors, musicians, producers, and recording executives who all worked with and knew the so-called "Thin White Duke", David Bowie All the Songs charts the musician's course from a young upstart in 1960s London to a musical behemoth who collaborated with everyone from Queen Latifah and Bing Crosby, to Mick Jagger and Arcade Fire. This one-of-a-kind book draws upon years of research in order to recount how each song was written, composed, and recorded, down to the instruments used and the people who played them. Featuring hundreds of vivid photographs that celebrate one of music's most visually arresting performers, David Bowie All the Songs is a must-have book for any true fan of classic rock. The weekly source of African American political and entertainment news. Guy Pratt's life as bass player to the stars. The book behind the successful comedy show. Guy Pratt came of age just as playing bass became cool, with the likes of Paul Simonon and Bruce Foxton. Having dallied with Funkapolitan, Pratt suddenly found himself on Top of the Pops and supporting David Bowie with smooth Australian outfit Icehouse. At a ludicrously young age Guy Pratt became a sought after bass player to the

stars, finding himself crawling from studio to bar, from hotel to stadium portacabin with Robert Palmer, Womack & Womack, Bernard Edwards, Bryan Ferry and David Crosby, etc. The eighties were in their prime, and with a number of Crolla-suited appearances in windswept videos behind him, he was invited to join Pink Floyd for a series of stadium of extravaganzas to make Bono & co look fairly modest. Pratt has recorded with Madonna, and spent time in the studio with Michael Jackson. He was in The Smiths for a week, has travelled through customs in a wheelchair after a flight with Jimmy Page, and has lived to tell all. MY BASS AND OTHER ANIMALS emerges from the successful stand-up tour of the same name. It charts his journey from a Mod band in Southend to playing with Roxy Music at Live 8. The Eighties were about big ideas writ large - new money, new style, gender fluidity, gay pride, attritional politics, the 'special relationship', nuclear fear, AIDS, cocaine, ecstasy, tabloid royalty, the rise of urban pop, and ultimately geopolitical chaos. Using a big narrative approach, Dylan Jones' history of the decade in pop frames the decade through some of its most important and popular hits, choosing records which either epitomised their time, or ushered in a new cultural shift. So we move seamlessly from Rapper's Delight and the genre defining moment of hip hop into The Specials' spectral, Ghost Town; from ABC and the apotheosis of New Pop (The Look of Love) to Madonna's breakthrough moment with Like a Virgin, and so on. In the '80s each year brought a new twist as technology shifted and genres snowballed, MTV reigned supreme and the story of pop became globalised. It was a decade of excess in all areas, especially ambition, but it was in the transcendent moments of pop perfection that the '80s found its true art-form. Subjective and idiosyncratic, SHINY AND NEW takes us from downtown New York to post-industrial Manchester, in the first widescreen attempt to weave together the stories, the songs and events that re-shaped music and society. Love music? Love illustration? Want to know more about some of the best musicians ever to record - from Bowie and the Beastie Boys to The Smiths and St. Vincent? Then A Guide to Music's Cult Artists is for you. How many composers, songwriters and lyricists wrote music in the twentieth century?? Who were they?? This first edition identifies more than 14,000 people who did so, and all are listed in this eBook alphabetically along with a hyperlink to their Wikipedia biographical data. Performers of blues, folk, jazz, rock & roll and R&B are included by default. PLEASE NOTE: THE HYPERLINKS IN THIS BOOK ONLY FUNCTION ON GOOGLE PLAY aka THE 'FLOWING' VERSION. The hyperlinks in this book DO NOT CURRENTLY FUNCTION on the GOOGLE BOOKS 'FIXED' version. "First published by the Penguin Group, London, as Number one in Heaven: the heroes who died for rock 'n' roll. Guitar- og el-basguitarskole. (Guitar Riffs). Sometimes you don't want to read the whole novel; you just want know the gist. The same can be said for

songs. Most classic guitar songs contain unforgettable riffs that signature hook that everyone wants to know. It's the first thing you think of when you hear the title of the song. Of course, the notes are only half the story. It won't sound right without the proper tone, so it helps to know a good bit about the equipment used as well. Background information on the artist is always helpful as well. That's where Cliffnotes to Guitar Songs comes in. In this book, you'll not only learn the signature riffs of 150 guitar classics, you'll also learn invaluable information for each, including: equipment and tone info; biographical information on the artist; song and album facts; theoretical analysis; performance tips; and more. From hard rock, metal, and punk to folk and old time rock 'n' roll, there's something here for everyone. Best of all, you'll be cranking out dozens of timeless riffs in no time! Learn nearly 150 riffs, including: All Day and All of the Night \* Aqualung \* Back in Black \* Barracuda \* Beat It \* Born to Be Wild \* Brown Eyed Girl \* Cheap Sunglasses \* Come As You Are \* Crazy Train \* Dust in the Wind \* Every Breath You Take \* Eye of the Tiger \* Free Ride \* Iris \* Iron Man \* La Grange \* Layla \* Monkey Wrench \* Peter Gunn \* Pride and Joy \* Smells like Teen Spirit \* Smoke on the Water \* Sunshine of Your Love \* Walk This Way \* Welcome to the Jungle \* You Really Got Me \* and more! Get ready to master the bass guitar faster than you can say "amplifier." A staple of almost every genre of music out there, the bass guitar is a fundamental (and fun!) instrument that can now be easily learned by musicians of any experience level with Bass Guitar Exercises For Dummies.
