*Handbook of International Economics Jun 26 2020 This reference accords recognition to the recent revolution in macroeconomics wrought by imperfect competition. Grossman and Rogoff (Princeton U.) present chapters by two dozen contributors on two prime areas of research interest: international trade theory and policy (e.g. strategic trade patterns and policies, the relationship between trade and technological progress), and open economy macroeconomics and international finance (covering such topics as exchange rates, foreign lending, and policy coordination). The volume commences with Krugman's overview of the positive theory of international trade, and concludes with analyses of sovereign debt. Annotation copyrighted by Book News, Inc., Portland, OR.*

*New Mechanisms of Participation in Extractive Governance Jun 07 2021 The scholarly debate on deliberative democracy often suggests that participatory processes will contribute to make environmental governance not only more legitimate and effective, but also lead to the empowerment of marginalized social groups. Critical studies, however, analyse how technologies of governance make use of participation to*

*draw boundaries that separate technical knowledge from political concerns, direct the focus towards procedural aspects and contractual obligations, and reinforce hegemonic understandings of development and of local people's relationships to their environment. This book focuses on the dynamics and use of participatory mechanisms related to the rapid expansion of the extractive industries worldwide and the ways it increasingly affects sensitive natural environments populated by indigenous and other marginalized populations. Nine empirically grounded case studies analyse a range of participatory practices ranging from state-led and corporation-led processes like prior consultation and Free Prior and Informed Consent (FPIC), compensation practices, participatory planning exercises and the participation in environmental impact assessments (EIAs), to community-led consultations, community-based FPIC and EIA processes and struggles for community-based governance of natural resource uses. The book provides new insights through a combination of different theoretical strands, which help to scrutinize the limits to deliberation and empowerment on the one hand, and on the other hand to understand the political resistance potential that alternative uses of participatory mechanisms can generate. The chapters originally published as a special issue of Third World Quarterly.*

*installment of B. Traven's legendary Jungle Novels, a series of six books detailing the oppression and subsequent uprising of the Mexican Revolution. The story follows Don Gabriel, a bureaucratic official in an isolated government outpost in a remote village. He comes to oversees the enslavement of Indians and ships them off to forced labor on the mahogany plantations owned by foreign investors. The impassionate but illiterate Indians and the corrupt political officials collide in a riveting conclusion in this first volume of the critically acclaimed but overlooked work from the late pseudonymous writer who has come "... to be recognized as one of the narrative masters of the twentieth century." (The New York Times)"*

*Critique of Criminal Reason Jul 28 2020 Most honourable Procurator Stiffeniis, You talents have been brought to Our attention by a gentleman of eminence, who believes that you alone are capable of resolving a situation which holds Our beloved Königsberg in a grip of terror. All Our faith and consideration are due to the notable personage who suggested your name, and that same faith and consideration now resides in you. We have no reason to doubt that you will accept this Royal Commission, and act accordingly with all haste. The fate of the city lies in your hands. --King Frederick Wilhelm III It has been years since Immanuel Kant's landmark philosophical work, Critique of Pure Reason, brought him fame throughout Europe and*

*made him Königsberg's best-known citizen. Now, rumors have begun to surface of a new work by this aging but still acute mind. Yet unlike his earlier work, this book will not examine the mind of the average man, but the mind of the serial killer. Hanno Stiffeniis, a young magistrate, has been called to Königsberg to assist in the investigation of an enigmatic string of murders. Is it part of a plot formed by Napoleon's spies to undermine the Prussian king or the work of a solitary, unknown killer? The case would seem unsolvable, were it not for the assistance and unmatched intellect of his mentor, Immanuel Kant. Together Stiffeniis and the elderly, eccentric philosopher must track down the killer who has the city of Königsberg by the throat. Hugely atmospheric, entertaining, and intelligent, Critique of Criminal Reason marks the outstanding debut of a new name in historical fiction.*

*Finding Faith in Foreign Policy Feb 03 2021 Since the end of the Cold War, religion has become an ever more explicit and systematic focus of US foreign policy across multiple domains. US foreign policymakers, for instance, have been increasingly tasked with monitoring religious freedom and promoting it globally, delivering humanitarian and development aid abroad by drawing on faith-based organizations, fighting global terrorism by seeking to reform Muslim societies and Islamic theologies, and advancing American interests and values more broadly worldwide by engaging with religious actors and*

*dynamics. Simply put, religion has become a major subject and object of American foreign policy in ways that were unimaginable just a few decades ago. In Finding Faith in Foreign Policy, Gregorio Bettiza explains the causes and consequences of this shift by developing an original theoretical framework and drawing upon extensive empirical research and interviews. He argues that American foreign policy and religious forces have become ever more inextricably entangled in an age witnessing a global resurgence of religion and the emergence of a postsecular world society. He further shows how the boundaries between faith and state have been redefined through processes of desecularization in the context of American foreign policy, leading the most powerful state in the international system to intervene and reshape in increasingly sustained ways sacred and secular landscapes around the globe. Drawing from a rich evidentiary base spanning twenty-five years, Finding Faith in Foreign Policy details how a wave of religious enthusiasm has transformed not just American foreign policy, but the entire international system.*

*Just Harvest* Aug 21 2022 When a class-action lawsuit against the US government results in a billion dollar settlement for the aggrieved parties, you'd expect the story to be headline news . . .to be posted on social media everywhere . . . to be adapted to film or even to a popular legal procedural series on TV . . . So why then have so many people never heard of *Pigford vs. Glickman*? Or the follow-up lawsuit, *Pigford II*? Or the *Black Farmers Case*, as the pair of these legal actions is often called? Could it be that the heart-wrenching story of Black farmers in America, and the monumental legal case that brought long-sought justice to them, is rarely told because it reflects so poorly on the US and its treatment of those whose ancestors helped make the nation an agricultural giant in the first place? Whatever the reason, the time to tell the full story has come and the person to share the gripping details is Greg Francis, one of the lead counsels in the historic case that finally helped Black farmers achieve equity. In *Just Harvest*, Francis narrates the dramatic twists and turns of the legal battle fought and won, and

*evidences the many years of ingrained discrimination and racism that preceded it. Awareness of this story makes us all witnesses to the history still unfolding— and while parts of what is recounted herein will enrage you, the hope is that this book will also inspire, inform, and motivate you to join the continuing fight for the rights of all Black farmers now and in the future.*
