When I Fell From the Sky May 02 2021 On Christmas Eve 1971, the packed LANSA flight 508 from Lima to Pucallpa was struck by lightning and went down in dense jungle hundreds of miles from civilization. Of its 93 passengers, only one survived. Juliane Koepcke, the seventeen-year-old child of famous German zoologists. She'd been thrown from the plane two miles above the forest canopy, but had sustained only a broken collarbone and a cut on her leg. With incredible courage, instinct and ingenuity, she survived three weeks in the "green hell" of the Amazon - using the skills she'd learned in assisting her parents on their research trips into the jungle - before coming across a loggers hut, and, with it, safety. Now she tells her fascinating story for the first time, and in doing so tells us about her 'Gerald Durrell' childhood - with a menagerie of wild, exotic and sometimes dangerous pets - about how she learned to survive at her parents ecological station deep in the rainforest and about her present-day commitment to this wildlife as a biologist and dedicated environmentalist.

The Misogynist Oct 27 2020 Jomier has reached the age of retirement, his children are grown up and his wife, after having an affair, has left him. Embittered and humiliated, he lives alone in London, mourning the disintegration of his marriage as he broods about the past and the present. When he falls for Judith, things begin to improve. Yet he still cannot escape his old habits and it is only when his daughter falls ill that he begins to reassess his feelings towards those he loves and his ability to forgive. Darkly humorous, ruthlessly satirical and surprisingly moving, *The Misogynist* is a perceptive exploration of the ways in which we can unintentionally let past disappointments affect our present, and how difficult it can be to move forward.

The Place where the World Ends Jun 03 2021

Ablaze May 22 2020 A riveting account of the chilling precursors and deadly aftermath of the 1986 Soviet nuclear disaster from the bestselling author of *Alive*. This highly readable and deeply researched exposé draws upon unclassified data from the former Soviet Union and a wealth of firsthand interviews to give a complex and human account of one of the worst nuclear catastrophes in history. Starting in 1942, when a young Russian physicist named Georgi Flerov warned Stalin that the Americans were building an atomic bomb, author Piers Paul Read recounts the birth and growth of atomic energy in the USSR—and the construction of the V. I. Lenin Nuclear Power Station at Chernobyl. Embedded in this story are the KGB cover-ups, power grabs, safety oversights, and risky decisions that set the stage for the explosion of the station's fourth reactor on April 26, 1986. According to Soviet authorities, only thirty-one people lost their lives due to the Chernobyl disaster, but its consequences were far too big for even the Kremlin to sweep under the rug—though the authorities certainly tried. Radiation burns and nuclear debris could not be concealed, and the cloud of radioactive material spewing from the damaged reactor was monitored throughout Europe. In the areas most immediately affected, there was a leap in the incidence of thyroid cancer. Moment by moment, Read takes us through the chaos and horror of the meltdown, and voice by voice, he records the stories that reveal the lasting repercussions of that day. Set in a regime where demotion was considered a fate worse than death and silence had the power to kill, *Ablaze* tackles the social and technological chain reactions that wreaked havoc not only on the USSR's power supply but on the strength and stability of the nation. It is a must-read for anyone interested in Soviet-era history or the promises and perils of nuclear power.

Scarpia Feb 28 2021 It is the late 18th century and Sicilian nobleman Vitello Scarpia finds himself penniless and in disgrace on the streets of Rome. After leaving his home in pursuit of a military career, his fiery passion has seen him expelled from the Spanish royal guard and left to seek his fortune in Italy; a fortune inseparably bound to the Pope, whose rule is put in question by the French Revolution. Scarpia enrolls in the papal army and is soon taken up by a countess eager to have a handsome young officer at her side. She introduces Scarpia into Roman society, and he is both enthralled and agitated by its mix of religiosity, sophistication, decadence, and intrigue. Then, on a mission to Venice, he meets the gifted, beautiful singer Floria Tosca. And as the armies of revolutionary France advance into Italy, and war and revolution engulf the whole peninsula, these two lives become entwined. Steeped in factual detail and exploring the lives--part historical, part fictional--of figures from Puccini's famous opera, Scarpia shines a light into dusty corridors of history and dark corners of the human soul.

I Had to Survive Sep 18 2022 On 12 October 1972, a Uruguayan Air Force plane carrying members of the 'Old Christians' rugby team (and many of their friends and family members) crashed into the Andes mountains. I Had to Survive offers a gripping and heartrending recollection of the harrowing brink-of-death experience that propelled survivor Roberto Canessa to become one of the world's leading paediatric cardiologists. Canessa, a second-year medical student at the time, tended to his wounded teammates amidst the devastating carnage of the wreck and played a key role in safeguarding his fellow survivors, eventually trekking with a companion across the hostile mountain range for help. This fine line between life and death became the catalyst for the rest of his life. This uplifting tale of hope and determination, solidarity and ingenuity gives vivid insight into a world famous story. Canessa also draws a unique and fascinating parallel between his work as a doctor performing arduous heart surgeries on infants and unborn babies and the difficult life-changing decisions he was forced to make in the Andes. With grace and humanity, Canessa prompts us to ask ourselves: what do you do when all the odds are stacked against you?

Mortal Rituals Feb 11 2022 A psychology professor examines what the survivors of the airplane crash hailed “The Miracle of the Andes” can show us about human evolution. On December 21, 1972, sixteen young survivors of Uruguayan Air Force Flight 571 were rescued after spending ten weeks stranded at the crash site of their plane, high in the remote Andes Mountains. The incident made international headlines and spawned several best-selling books, fueled partly by the fact that the young men had resorted to cannibalism to survive. Matt Rossano examines this story from an evolutionary perspective, weaving together findings and ideas from anthropology, psychology, religion, and cognitive science. During their ordeal, these young men broke “civilized” taboos to fend off starvation and abandoned “civilized” modes of thinking to maintain social unity and individual sanity. Through the power of ritual, the survivors were able to endure severe emotional and physical hardship. Rossano ties their story to our story, seeing in the mortal rituals of this struggle for survival a reflection of what it means to be human. “[Rossano’s] narrative describes a “microcosm of human evolution,” and I think this book will grab the interest of many readers?students as well as the general public?as it teaches essential facts about the way Homo sapiens evolved.”—David Hicks, Stony Brook University and Clare College, Cambridge University “[Rossano] masterfully weaves a moving contemporary drama with a compelling account of the evolutionary history of ritual and religion. An impressive accomplishment and a truly captivating read from start to finish.”—Richard Sosis, University of Connecticut, cofounder and coeditor of Religion, Brain, & Behavior

Now comes the unflinching and emotional true story by one of the men who found his way home"--Page 4 of cover

The Art of Survival Dec 17 2019

Alive! Dec 09 2021 Relates the true story of survivors of a plane crash in the Andes.

Lost in Shangri-La Oct 15 2019 On May 13, 1945, twenty-four American servicemen and WACs boarded a transport plane for a sightseeing trip over “Shangri-La,” a beautiful and mysterious valley deep within the jungle-covered mountains of Dutch New Guinea. Unlike the peaceful Tibetan monks of James Hilton’s bestselling novel Lost Horizon, this Shangri-La was home to spear-carrying tribesmen, warriors rumored to be cannibals. But the pleasure tour became an unforgettable battle for survival when the plane crashed. Miraculously, three passengers pulled through. Margaret Hastings, barefoot and burned, had no choice but to wear her dead best friend’s shoes. John McCollom, grieving the death of his twin brother also aboard the plane, masked his grief with stoicism. Kenneth Decker, too, was severely burned and suffered a gaping head wound. Emotionally devastated, badly injured, and vulnerable to the hidden dangers of the jungle, the trio faced certain death unless they left the crash site. Caught between man-eating headhunters and enemy Japanese, the wounded passengers endured a harrowing hike down the mountainside—a journey into the unknown that would lead them straight into a primitive tribe of superstitious natives who had never before seen a white man—or woman. Drawn from interviews, declassified U.S. Army documents, personal photos and mementos, a survivor’s diary, a rescuer’s journal, and original film footage, Lost in Shangri-La recounts this incredible true-life adventure for the first time. Mitchell Zuckoff reveals how the determined trio—dehydrated, sick, and in pain—traversed the dense jungle to find help; how a brave band of paratroopers risked their own lives to save the survivors; and how a cowboy colonel attempted a previously untested rescue mission to get them out. By trekking into the New Guinea jungle, visiting remote villages, and rediscovering the crash site, Zuckoff also captures the contemporary natives’ remembrances of the long-ago day when strange creatures fell from the sky. A riveting work of narrative nonfiction that vividly brings to life an odyssey at times terrifying, enlightening, and comic, Lost in Shangri-La is a thrill ride from beginning to end.

Alice in Exile Aug 25 2020 By critically acclaimed author Piers Paul Read, *Alice in Exile* is an exquisite historical novel featuring Alice Fry--a free-thinking and independent-minded woman in a world ruled by men--and the two men who love her. It is 1913 when Alice, the daughter of a radical publisher, meets Edward Cobb, the eligible young son of a baronet who has recently quit the army to pursue his political ambitions. Edward's family could accept his liaison with a girl they consider "fast," but when he proposes, they are appalled. When Alice's father becomes involved in a scandal, it becomes clear that Edward must choose between Alice and his political career. He breaks off the engagement, unaware that his lover is expecting his child. Desperate, Alice accepts the offer of a rich and charming (if somewhat predatory) Baron Rettenberg, returning to Russia with him to serve as a governess for his children, while Edward marries suitably, but unhappily. Two of the greatest cataclysms of the twentieth century--the Russian Revolution and World War I--serve as backdrops to Alice's story as she raises her young son, yearns for Edward, and begins to fall passionately for the Baron. *Alice in Exile* is Piers Paul Read's triumphant return to the fiction for which he is widely hailed--romantic, dramatic, and rich with historical detail and fascinating characters that make Alice's story an enchanting and unforgettable read.

On the Third Day Jan 18 2020 Archaeologists in Jerusalem make a revolutionary discovery in this "beautifully written" thriller from a #1 New York Times--bestselling author (Ruth Rendell). John Lambert, Catholic priest and professor of biblical archaeology, returns to London from an archaeological dig in Israel—and not long after, he's found dead, hanged in his room. It's only the first shocking discovery for his assistant, Andrew Nash, a young friar. The second is the reason for the spiritual disillusionment that led his mentor to such a desperate act: irrefutable evidence of the skeletal remains of Jesus Christ excavated under the Temple Mount in Jerusalem's Old City. The find could shake the core doctrine of the Catholic Church and destroy the very foundation of the Christian faith. But it also poses a grave threat to Nash and his associate, Israeli archaeologist Michael Dagan—because they're not the only ones scrambling to piece together the clues to this ancient mystery. In their shadow are the KGB, the Israeli Secret Service, and an ambitious American cardinal. But are they collaborators in a diabolical hoax or coconspirators in a cover-up of the most damning discovery in history? The answer "chills the blood and makes the hair stand on end . . . confirming Read as one of our strongest novelists" (The Independent). "It's hard to imagine a more provocative thesis," said the New York Times of this forerunner to the biblical conspiracy thrillers of Dan Brown and Kate Mosse. *On the Third Day* is "an enthralling read—touch[ing] upon a number of current theological controversies" (Kirkus Reviews).

438 Days Jan 30 2021 "The miraculous account of the man who survived alone and adrift at sea longer than anyone in recorded history--as told to journalist Jonathan Franklin in dozens of exclusive interviews"--

Running the Amazon Sep 25 2020 The voyage began in the lunar terrain of the Peruvian Andes, where coca leaf is the only remedy against altitude sickness. It continued down rapids so fierce they could swallow a raft in a split second. It ended six months and 4,200 miles later, where the Amazon runs gently into the Atlantic. Joe Kane's personal account of the first expedition to travel the entirety of the world's longest river is a riveting adventure in the tradition of Joseph Conrad, filled with death-defying encounters: with narco-traffickers and Sendero Luminoso guerrillas and nature at its most unforgiving. Not least of all, *Running the Amazon* shows a polyglot group of urbanized travelers confronting their wilder selves -- their fear and egotism, selflessness and courage.

Alive Jan 22 2023 The #1 New York Times bestseller and the true story behind the film: A rugby team resorts to the unthinkable after a plane crash in the Andes. Spirits were high when the Fairchild F-227 took off from Mendoza, Argentina, and headed for Santiago, Chile. On board were forty-five people, including an amateur rugby team from Uruguay and their friends and family. The skies were clear that Friday, October 13, 1972, and at 3:30 p.m., the Fairchild's pilot reported their altitude at 15,000 feet. But one minute later, the Santiago control tower lost all contact with the aircraft. For eight days, Chileans, Uruguayans, and Argentinians searched for it, but snowfall in the Andes had been heavy, and the odds of locating any wreckage were slim. Ten weeks later, a Chilean peasant in a remote valley noticed two haggard men desperately gesticulating to him from across a river. He threw them a pen and paper, and the note they tossed back read: "I come from a plane that fell in the mountains . . ." Sixteen of the original forty-five passengers on the F-227 survived its horrific crash. In the remote glacial wilderness, they camped in the plane's fuselage, where they faced freezing temperatures, life-threatening injuries, an avalanche, and imminent starvation. As their meager food supplies ran out, and after they heard on a patched-together radio that the search parties had been called off, it seemed like all hope was lost. To save their own lives, these men and women not only had to keep their faith, they had to make an impossible decision: Should they eat the flesh of their dead friends? A remarkable story of endurance and determination, friendship and the human spirit, *Alive* is the dramatic bestselling account of one of the most harrowing quests for survival in modern times.

Into the Mountains Jun 15 2022 TRUE STORIES. On December 22nd 1972, the world discovered that sixteen of the forty-five passengers of the Uruguayan Air Force Flight 571 that crashed in the Andes seventy days earlier were still alive. Pedro Algorta has never spoken of his experience but he breaks his silence of over 40 years and gives a first-hand account of one of the most incredible stories of human survival and team spirit. Pedro delves into how he personally lived those seventy days in the cordillera, the day-to-day struggle to survive, and how with difficulty, a lot of hard work and strong team spirit the group created a survival machine in the mountains. Each one of us has our own mountain - our own story - and understanding it helps us make sense of our path in life and to see the way ahead. We are all capable of surviving our Andes.

Miracle in the Andes Feb 23 2023 NEW YORK TIMES BESTSELLER • A harrowing, moving memoir of the 1972 plane crash that left its survivors stranded on a glacier in the Andes—and one man's quest to lead them all home—now in a special edition for 2022, commemorating the fiftieth anniversary of the crash, featuring a new introduction by the author "In straightforward, staggeringly honest prose, Nando Parrado tells us what it took—and what it actually felt like—to survive high in the Andes for seventy-two days after having been given up for dead."—Jon Krakauer, author of *Into the Wild* "In the first hours there was nothing, no fear or sadness, just a black and perfect silence." Nando Parrado was unconscious for three days before he woke to discover that the plane carrying his rugby team to Chile had crashed deep in the Andes, killing many of his teammates, his mother,

and his sister. Stranded with the few remaining survivors on a lifeless glacier and thinking constantly of his father's grief, Parrado resolved that he could not simply wait to die. So Parrado, an ordinary young man with no particular disposition for leadership or heroism, led an expedition up the treacherous slopes of a snowcapped mountain and across forty-five miles of frozen wilderness in an attempt to save his friends' lives as well as his own. Decades after the disaster, Parrado tells his story with remarkable candor and depth of feeling. *Miracle in the Andes*, a first-person account of the crash and its aftermath, is more than a riveting tale of true-life adventure; it is a revealing look at life at the edge of death and a meditation on the limitless redemptive power of love.

Memories of the Andes Apr 13 2022 When Coche Inciarte boarded Uruguayan Air Force Flight 571 on Friday 13th October 1972, he planned to sit next to his best friend Gastón Costemalle at the back of the plane. But another boy got there just ahead of him, and Coche found a seat further forward. Ninety minutes later, Gastón was gone - sucked out of the back of the plane along with several others when the plane struck a peak in the Andes. Miraculously, twenty-nine passengers - members and friends of the Old Christians rugby club - survived the initial impact. Stranded in the mountains for seventy-two days, Coche and his companions endured one of history's most extraordinary struggles for survival. Several died of their injuries and eight were killed in an avalanche that trapped the remaining boys in the broken fuselage for three days. Developing gangrene in one leg, Coche was rendered largely immobile. Unable to contribute to the more physical tasks, he made it his mission to raise the spirits of his fellow survivors through humour, love, and support. Coche survived the Andes, but only just; and in this uplifting and thought-provoking memoir - written in memory of his friend Gastón - he brings alive his time on the mountain and reflects on the profound effect that it has had on his life, and on what it means to be human.
