Booke of the Hidden Dec 21 2022 In this urban fantasy series debut, the discovery of a mysterious book in her tea shop immerses a woman in a world of demons, witches, and murder. To get a fresh start away from a bad relationship, Kylie Strange moves across the country to open a shop in the seemingly quiet town of Moody Bog in rural Maine. During renovations on Strange Herbs & Teas, she discovers a peculiar and ancient codex, The Booke of the Hidden, bricked into the wall. Every small town has its legends and unusual histories, and this artifact sends Kylie right into the center of Moody Bog's biggest secret. While puzzling over the tome's oddly blank pages, Kylie gets an unexpected

visitor—Erasmus Dark, an inscrutable stranger who claims to be a demon, knows she has the book, and warns her that she has opened a portal to the netherworld. Kylie brushes off this nonsense, until a series of bizarre murders put her, the newcomer, at the center. With the help of the demon and a coven of witches she befriends while dodging the handsome but sharp-eyed sheriff, Kylie hunts for a killer—that might not be human. “Westerson creates an utterly believable history of witches, demons, and magic for her claustrophobic New England village including a heroine with enough spark, smarts, and stubbornness to keep both the bad guys and the deliciously dangerous love-interest on their toes.”—Kat Richardson, author of the Greywalker series “Readers sad about the ending of Charlaine Harris’s *Midnight, Texas* trilogy will find some consolation in *Moody Bog*.”—Publishers Weekly

Hidden: Animals in the Anthropocene Feb 17 2020 A collection of stunning images from some of the world's leading photographers of animals in the human environment. HIDDEN: Animals in the Anthropocene is an unflinching book of photography about our conflict with non-human animals around the globe. Through the lenses of thirty award-winning photojournalists, HIDDEN shines a light on the invisible animals in our lives: those with whom we have a close relationship and yet fail to see. The animals we eat and wear; the

animals we use for research, work, and for entertainment; the animals we sacrifice in the name of tradition and religion. HIDDEN is a historical document, a memorial, and an indictment of what is and should never again be. Showcased by award-winning designer David Griffin, HIDDEN represents the work of thirty photojournalists who have documented--and continue to document--animal stories. Their exhaustive and in-depth work has resulted in some of the most compelling and historic images of animals ever seen. Among them are (in alphabetical order): Aaron Gekoski, Aitor Garmendia, Amy Jones, Andrew Skowron, Britta Jaschinski, Daniel Beltrá, Djurattsalliansen, Francesco Pistilli, Jan van Ijken, Joan de la Malla, JoAnne McArthur, Jose Valle, Kelly Guerin, Kristo Muurimaa, Konrad Lozinski, Louise Jorgensen, Luis Tato, Murdo MacLeod, Paul Hilton, Sabine Grootendorst, Selene Magnolia, Stefano Belacchi, Tamara Kenneally, and Timo Stammberger. "The photojournalists featured in Hidden have entered some of the darkest, most unsettling places in the world. The images they have captured are a searing reminder of our unpardonable behavior towards animals and will serve as beacons of change for years to come."--Joaquin Phoenix, actor "I am, quite simply, in awe of these photographers. In a way,

they are like war photographers, except witness to a war that so many people choose to suppress that exists. This takes enormous inner strength and bloody-minded determination, because they cannot save any of the animals that they photograph; they can only hope that their photos will help illuminate the mass extermination that unfolds every second of every day across the planet. To me, they are heroes. Not just for one day, but over and over and over again."--Nick Brandt, photographer

Hidden Jan 18 2020 "The book is a collection of rare black and white images of Roma families in California during the early 1990s. Since their exodus from India more than a thousand years ago, the Roma - an ethnic group formerly known as "Gypsies" - have migrated to all continents of the globe. A large wave of Roma came to the United States from Europe at the turn of the twentieth century. The country is home to roughly 50,000 Roma people today, many of them in California. Yet, they remain hidden to the majority of us. Roma: Life with California's Roma Families is a collection of rare black and white images of Romani Americans living in California during the early 1990s.

Photojournalist Cristina Salvador Klenz documented the lives of these families over a period of years, capturing their celebrations, social relationships, struggles, and rituals-the latter of which have survived centuries of discrimination and persecution. The photographs include people from

the Kalderash and Machvaya nations, whose ancestors immigrated to the United States after being released from slavery in Eastern Europe. Other nations represented include more recent Romani immigrants who had also settled in Eastern Europe but arrived in California after extended stays in Chile and Colombia. An additional group, called the Ludar, has spent decades living in a modern-day camp in Southern California. Although many Romani-American tribes have little social contact with each other, all have been brought together in this set of photographs in hope that readers gain a greater understanding of this vibrant, resilient, and misunderstood people. Theirs is a culture that has been hidden for far too long"--

The Hidden Life of Trees Dec 09 2021 In *The Hidden Life of Trees*, Peter Wohlleben shares his deep love of woods and forests and explains the amazing processes of life, death, and regeneration he has observed in the woodland and the amazing scientific mechanisms behind these wonders, of which we are blissfully unaware. Much like human families, tree parents live together with their children, communicate with them, and support them as they grow, sharing nutrients with those who are sick or struggling and creating an ecosystem that mitigates the impact of extremes of heat and cold for the whole group. As a result of such interactions, trees in a family or community are protected and can live to be very old. In contrast, solitary trees, like street kids, have a tough time of it and in most cases die much earlier than those in a group. Drawing on groundbreaking new discoveries, Wohlleben presents the science behind the secret and previously unknown life of trees and their communication abilities; he describes how these discoveries have informed his own practices in the forest around him. As he says, a happy forest is a healthy forest, and he believes that eco-friendly practices not only are economically sustainable but also benefit the health of our planet and the mental

and physical health of all who live on Earth.

The Book of Hidden Things Feb 23 2023 From "one of the most significant figures of the last generation of fantasy", comes Francesco Dimitri's debut novel in English, an enthralling and seductive fantasy following four old friends and the secrets they keep. Four old school friends have a pact: to meet up every year in the small town in Puglia they grew up in. Art, the charismatic leader of the group and creator of the pact, insists that the agreement must remain unshakable and enduring. But this year, he never shows up. A visit to his house increases the friends' worry; Art is farming marijuana. In Southern Italy doing that kind of thing can be very dangerous. They can't go to the Carabinieri so must make enquiries of their own. This is how they come across the rumours about Art; bizarre and unbelievable rumours that he miraculously cured the local mafia boss's daughter of terminal leukaemia. And among the chaos of his house, they find a document written by Art, The Book of Hidden Things, that promises to reveal dark secrets and wonders beyond anything previously known. Francesco Dimitri's first novel written in English, following his career as one of the most significant fantasy writers in Italy, will entrance fans of Elena Ferrante, Neil Gaiman and Donna Tartt. Set in the beguiling and seductive landscape of

Southern Italy, this story is about friendship and landscape, love and betrayal; above all it is about the nature of mystery itself.

Field Notes from a Hidden City Mar 12 2022 Field  
Notes From a Hidden City is set against the  
background of the austere, grey and beautiful  
northeast Scottish city of Aberdeen. In it, Esther  
Woolfson examines the elements—geographic,  
atmospheric and environmental—which bring diverse  
life forms to live in close proximity in cities. Using  
the circumstances of her own life, house, garden  
and city, she writes of the animals who live among  
us: the birds—gulls, starlings, pigeons, sparrows and  
others—the rats and squirrels, the cetaceans, the  
spiders and the insects. In beautiful, absorbing  
prose, Woolfson describes the seasons, the streets  
and the quiet places of her city over the course of a  
year, which begins with the exceptional cold and  
snow of 2010. Influenced by her own long  
experience of corvids, she considers prevailing  
attitudes towards the natural world, urban and  
non-urban wildlife, the values we place on the lives  
of individual species and the ways in which man and

creature live together in cities.

No one listened. Laughed at and chastised for their unusual beliefs, style, and passions, they did possess skills and brilliance beyond belief and either calculated, predicted or saw the future; and however it was done, it was accurate and remains undisputed.
