Education for Peace Sep 06 2021 This book deals with the everlasting problem of war and peace. In it, the author argues that mankind must be predisposed for peace by the right kind of education and he discusses how to devise methods of education which will prevent war.

Communication and Peace Feb 17 2020 This book analyses the use of communication in resolving conflicts, with a focus on de-escalation and processes of peacebuilding and peace formation. From the employment of hate radio in the Rwanda genocide, to the current conflict between Russia and the Ukraine following events in the Crimea, communication and the media are widely recognized as powerful tools in conflicts and war.

Although there has been significant academic attention on the relationship between the media, conflict and war, academic efforts to understand this relationship have tended to focus primarily on the links between communication and conflict, rather than on communication and peace. In order to make sense of peace it is essential to look at communication in its many facets, mediated or not. This is true within many of the diverse strands that make up the field of communication and peace, but it is also true in the sense that a holistic and interdisciplinary approach is missing from the literature. This book addresses this widely acknowledged lacuna by providing an interdisciplinary perspective on the field, bringing together relevant, but so far largely

isolated, streams of research. In doing so, it aims to provide a platform for further reflection of the meaning of, and requirements for, peace in our contemporary world with a focus on de-escalation, conflict transformation, reconciliation and processes of peacebuilding - as opposed to conflict escalation or crisis intervention. This volume will be of much interest to students of peace and conflict studies, peacebuilding, media and communication studies, security studies and IR in general.

Death of a Soldier Sep 18 2022 Twenty-three year old Stephen Restorick was killed by a sniper's bullet on 12th February 1997 as he manned a checkpoint in South Armagh. This book, published to mark the third anniversary of his death, tells the story of Stephen's mother, Rita, whose intense grief for her son became the impetus to work for peace in Northern Ireland.

Sex in Peace Operations Dec 09 2021 Gabrielle Simm's critical re-evaluation of sex between international personnel and local people examines the zero tolerance policy on sexual exploitation and abuse and its international legal framework. Whereas most preceding studies of the issue have focused exclusively on military peacekeepers, Sex in Peace Operations also covers the private military contractors and humanitarian NGO workers who play increasingly important roles in peace operations. Informed by socio-legal studies, Simm uses three case studies (Bosnia, West Africa and the Democratic Republic of the Congo) to illustrate the extent of the problem and demonstrate that the problems of impunity for sexual crimes are not just a failure of political will but the result of the structural weaknesses of

international law in addressing non-state actors. Combining the insights of feminist critique with a regulatory approach to international law, her conclusions will interest scholars of international law, peace and conflict studies, gender and sexuality, and development.

Life After Life Mar 20 2020 In *Life After Life* Raymond Moody investigates more than one hundred case studies of people who experienced "clinical death" and were subsequently revived. First published in 1975, this classic exploration of life after death started a revolution in popular attitudes about the afterlife and established Dr. Moody as the world's leading authority in the field of near-death experiences. *Life after Life* forever changed the way we understand both death -- and life -- selling millions of copies to a world hungry for a greater understanding of this mysterious phenomenon. The extraordinary stories presented here provide evidence that there is life after physical death, as Moody recounts the testimonies of those who have been to the "other side" and back -- all bearing striking similarities of an overwhelming positive nature. These moving and inspiring accounts give us a glimpse of the peace and unconditional love that await us all.

A Just Peace Ethic Primer Jan 10 2022 The just peace movement offers a critical shift in focus and imagination. Recognizing that all life is sacred and seeking peace through violence is unsustainable, the just peace approach turns our attention to rehumanization, participatory processes, nonviolent resistance, restorative justice, reconciliation, racial justice, and creative strategies of active nonviolence to build sustainable peace, transform conflict, and end cycles of violence. A Just Peace Ethic Primer illuminates a moral framework behind this praxis and proves its versatility in global contexts. With essays by a diverse group of scholars, A Just Peace Ethic Primer outlines the ethical, theological, and activist underpinnings of a just peace ethic. These essays also demonstrate and revise the norms of a just peace ethic through conflict cases involving US immigration, racial and environmental justice, and the death penalty, as well as gang violence in El Salvador, civil war in South Sudan, ISIS in Iraq, gender-based violence in the Democratic Republic of Congo, women-led activism in the Philippines, and ethnic violence in Kenya. A Just Peace Ethic Primer exemplifies the ecumenical, interfaith, and multicultural aspects of a nonviolent approach to preventing and transforming violent conflict. Scholars, advocates, and activists working in politics, history, international law, philosophy, theology, and conflict resolution will find this resource vital for providing a fruitful framework and implementing a

creative vision of sustainable peace.

*My Peace I Give You Jul 24 2020 Dawn Eden, internationally known speaker and author of the bestselling *The Thrill of the Chaste*, shows how the lives of the saints have given her hope and aided her journey of spiritual healing after childhood sexual abuse. One in four American women and one in six American men report having been sexually abused during childhood and *My Peace I Give You: Healing Sexual Wounds with the Help of the Saints* provides a much-needed resource for spiritual healing from the isolating effects of these wounds. Eden uses her own story as a backdrop to introduce numerous holy people— like Laura Vicuña, Thomas Aquinas and Bernard of Clairvaux—who suffered sexual abuse or sexual inappropriateness, as well as saints such as Ignatius of Loyola who suffered other forms of mistreatment and abandonment. Readers seeking wholeness will discover saints with wounds like their own, whose stories bear witness to the transforming power of grace. Eden explores*

different dimensions of divine love—sheltering, compassionate, purifying, etc.—to help those sexually wounded in childhood understand their identity in the abiding love of Christ.

Top Five Regrets of the Dying Apr 20 2020 Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, The Top Five Regrets of the Dying, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and

how we can positively address these issues while we still have the time. The Top Five Regrets of the Dying gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

8 Billion and Counting: How Sex, Death, and Migration Shape Our World Feb 23 2023 A provocative description of the power of population change to create the conditions for societal transformation. As the world nears 8 billion people, the countries that have led the global order since World War II are becoming the most aged societies in human history. At the same time, the world's poorest and

least powerful countries are suffocating under an imbalance of population and resources. In 8 Billion and Counting, political demographer Jennifer D. Sciubba argues that the story of the twenty-first century is less a story about exponential population growth, as the previous century was, than it is a story about differential growth—marked by a stark divide between the world’s richest and poorest countries. Drawing from decades of research, policy experience, and teaching, Sciubba employs stories and statistics to explain how demographic trends, like age structure and ethnic composition, are crucial signposts for future violence and peace, repression and democracy, poverty and prosperity. Although we have a diverse global population, demographic trends often follow predictable patterns that can help professionals across the corporate, nonprofit, government, and military sectors understand the global strategic environment. Through the lenses of national security, global health, and economics, Sciubba demonstrates the pitfalls of taking population numbers at face value and extrapolating from there. Instead, she argues, we must look at the forces in a society that amplify demographic trends and the forces that dilute them, particularly political institutions, or the rules of the game. She shows that the most important skills in demographic analysis are naming and being aware of your preferences, rethinking assumptions, and asking the right questions. Provocative and engrossing, 8 Billion and Counting is required reading for business leaders, policy makers, and anyone eager to anticipate political, economic, and social risks and opportunities. A deeper understanding of fertility, mortality, and migration promises to point toward the investments we need to

make today to shape the future we want tomorrow.

Sex and World Peace Jun 15 2022 Backed up by a detailed analysis, tables and color maps, the authors argue that violence against women adversely affects all levels of society, and ultimately the security of a nation, and offer ways to heal the wounds of violence against women on both a micro and macro level.

Sex, Death, and the End of the World May 14 2022 Ghosts, aliens, vampires, zombies, God and the Devil, robots, detectives, the Arabian Nights, and the afterlife: Thirteen mostly lighthearted tales subvert expectations to introduce unusual characters faced with the unexpected. We discover that devastating power can inhere in sex organs, that the end of the world might get a bit crowded, that blood is thicker than interstellar space, and that some ghosts have heroic histories. And several acerbic dialogues unpack a classic Jewish joke. Under the quirky fun, however, lurk transgressive messages of peace, justice, and freedom. All of us think about sex, many of us think about death (willingly or not), and some of us have thought about the end of the world. But probably not like this! Infused with fantasy and touches of science fiction, these surprising takes on a trio of universal themes will awaken the imagination to new impossibilities.

Encyclopedia of Violence, Peace, and Conflict Jul 16 2022 The 2nd edition of Encyclopedia of Violence, Peace and Conflict provides timely and useful information about antagonism and reconciliation in all contexts of public and personal life. Building on the highly-regarded 1st edition (1999), and publishing at a time of seemingly inexorably increasing conflict and violent behaviour the world over, the Encyclopedia is an essential reference for

students and scholars working in the field of peace and conflict resolution studies, and for those seeking to explore alternatives to violence and share visions and strategies for social justice and social change. Covering topics as diverse as Arms Control, Peace Movements, Child Abuse, Folklore, Terrorism and Political Assassinations, the Encyclopedia comprehensively addresses an extensive information area in 225 multidisciplinary, cross-referenced and authoritatively authored articles. In his Preface to the 1st edition, Editor-in-Chief Lester Kurtz wrote: "The problem of violence poses such a monumental challenge at the end of the 20th century that it is surprising we have addressed it so inadequately. We have not made much progress in learning how to cooperate with one another more effectively or how to conduct our conflicts more peacefully. Instead, we have increased the lethality of our combat through revolutions in weapons technology and military training. The Encyclopedia of Violence, Peace, and Conflict is designed to help us to take stock of our knowledge concerning these crucial phenomena." Ten years on, the need for an authoritative and cross-disciplinary approach to the great issues of violence and peace seems greater than ever. More than 200 authoritative multidisciplinary articles in a 3-volume set Many brand-new articles alongside revised and updated content from the First Edition Article outline and glossary of key terms at the beginning of each article Entries arranged alphabetically for easy access Articles written by more than 200 eminent contributors from around the world

The Overcoming of History in War and Peace Nov 08

2021 The Overcoming of History in "War and Peace" marks a radical departure from the critical tradition dominated by Sir Isaiah Berlin's view that the novel is deeply divided against itself, a majestically flawed contest of brilliant art and clumsy thought. To the contrary, Jeff Love argues that the apparently divided nature of the text, its multi-leveled negotiation between different kinds of representation, expresses the rich variety of the novel's very deliberate striving to capture the fluidity of change and becoming in the fixed forms of language. The inevitable failure of this striving, revealing the irreducible conflict between infinite desire and finite capacity, is at once the source of new beginnings and the repetition of old ones, a wellspring of continually renewed promises to achieve a synoptic vision of the whole that the novel cannot fulfill. This repetitive struggle between essentially comic and tragic conceptions of human action, far from being a pervasive flaw in the texture of the novel, in fact constitutes its dynamic center and principal trope as well as the productive origin of the unusual features that distinguish it as an uncommonly bold narrative experiment.

I'd Rather Teach Peace Oct 19 2022 "In 1982 Washington Post columnist Colman McCarthy was invited to teach a course on writing at an impoverished public school in Washington D.C. He responded, "I'd rather teach peace." Since then, he has had more than 5,000 students in his classes on nonviolence, pacifism, and conflict management." "I'd Rather Teach Peace is the story of one man's passion for peace education, as seen during one semester in six schools where risk-taking students found themselves challenged and inspired by an unconventional course and by a man who believes that if we don't teach our children peace someone else will teach them violence."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Sex and World Peace Jan 22 2023 Sex and World Peace unsettles a variety of assumptions in political and security discourse, demonstrating that the security of women is a vital factor in the security of the state and its incidence of conflict and war. The authors compare micro-level gender violence and macro-level state peacefulness in global settings, supporting their findings with detailed analyses and color maps. Harnessing an immense amount of data, they call attention to discrepancies between national laws protecting women and the enforcement of those laws, and they note the adverse effects on state security of abnormal sex ratios favoring males, the practice of polygamy, and inequitable realities in family law, among other gendered aggressions. The authors find that the treatment of women informs human interaction at all levels of society. Their research challenges conventional definitions of security and democracy and shows that the treatment of gender, played out on the world stage, informs the true clash of civilizations. In terms of resolving these injustices, the authors examine top-down and bottom-up approaches to healing wounds of violence against women, as well as ways to rectify inequalities in family law and the lack of parity in decision-making councils. Emphasizing the importance of an R2PW, or state responsibility to protect women, they mount a solid campaign against women's systemic insecurity, which effectively unravels the security of all.

Taboo Topics Oct 27 2020 Why is it so hard to investigate

taboo topics? A myriad of forces shape and fashion human action, reaction, thought, and feeling, and these are not always well understood. Norman L. Farberow argues that culture itself provides structure for its members, developing in a well-defined way the rules to which they will conform. Such rules find expression not only in written laws and regulations but include, and most often stem from, unwritten folkways, customs, and especially taboos, the subject of this book. The researchers reporting in this volume take no position on the nature of a taboo itself, but concentrate on the difficulty in investigating taboos. As members of society and human beings, they do make judgments and personal investments. Thus, when taboos continue or develop without useful society-enriching functions or facilitate self-destructive activities, they raise questions about why they persist. Such topics include many areas of social life, such as sex, death, and peace; others more academic, such as parapsychology, graphology, religion, and hypnosis. Peace and the public are included in the discussion because they are emotion-laden areas and powerful and important factors in a shrinking world and expanding universe. Peace, especially, has begun to be looked upon with suspicion perhaps a real commentary on our times. This probing collection will be sure to interest sociologists, anthropologists, and all other social scientists.

Making Peace Aug 17 2022 Making Peace provides a fresh context for understanding gender relations in

interwar Britain, seeing in the emergence of a powerful ideology of motherhood and a reemphasis on separate spheres for men and women a corollary to the political and economic restructuring designed to reestablish social order after World War I. The war had often been explained and justified to the British public by means of images that portrayed women as hostile or frightening—or as victims of sexual assault, as in the Belgian atrocity stories. These sexualized interpretations of war then shaped postwar understandings of gender, as psychiatrists, psychologists, and sexologists drew on metaphors of war to talk about relationships between men and women, likening any conflict between the sexes to the terrible chaos of the war years. Drawing on materials from posters to popular songs, from government reports to journalistic accounts, from memoirs and novels to diaries and letters, Making Peace is a penetrating analysis of how gendered and sexualized depictions of wartime experiences compelled many Britons to seek in traditional gender arrangements the key to postwar order and security. In the interwar period, many feminists compromised their earlier positions in an effort to contribute to postwar recovery, and justified their demands—for birth control and family endowment, for example—in conservative terms that ultimately hampered their movement. Susan Kingsley Kent is Associate Professor of History at the University of Colorado at Boulder. She is also the author of Sex and Suffrage in Britain, 1860-1914 (Princeton). World Peace, Mass Culture, and National Policies Oct 15 2019 The author offers an analysis of forms of U.S. mass culture that support, parallel, or critique official national, regional, and intergovernmental peace policy, prevention, and peacemaking. Major popular culture forms such as film, television, news media, peace parks and public memorials, and peace and justice movements are considered as public discourses influencing and reflecting public understanding of peace and war themes. The discussion includes events following September 11, 2001. World Peace, Mass Culture, and National Policy takes a critical and analytical approach to Washington foreign policy; unilateralist methods; and corporatism as global hegemony. It includes a wide discussion of these issues based on cultural institutions and ideologies of mass culture in the U.S. The work critiques the notion that corporate capitalism and the consumer affluence of the U.S. alone can bring other societies to democratic practice.

The Oxford Handbook of Women, Peace, and Security Mar 12 2022 Passed in 2000, the United Nations Security Council Resolution 1325 and subsequent seven Resolutions make up the Women, Peace, and Security (WPS) agenda. This agenda is a significant international normative and policy framework addressing the gender-

specific impacts of conflict on women and girls, including protection against sexual and gender-based violence, promotion of women's participation in peace and security processes, and support for women's roles as peace builders in the prevention of conflict and rebuilding of societies after conflict. Implementation within and across states and international organizations - and within peace and security operations - has been slow despite significant transnational advocacy in support of the WPS agenda. The Oxford Handbook of Women, Peace, and Security brings together scholars, advocates, and policymakers to provide an overview of what we know concerning what works to promote women's participation in peace and security, what works to protect women and girls from sexual and gender-based violence and other human rights violations, and what works to prevent conflict drawing on women's experiences and knowledge of building peace from local to global levels. Just as importantly, it addresses the gaps in knowledge on and the future direction of scholarship on WPS. The handbook particularly aims to build on the findings from the 2015 Global Study of Resolution 1325, commissioned by the UN-Secretary General. Over the course of six sections, the handbook addresses the concepts and early history behind WPS; the theory and practice of WPS; international institutions involved with the WPS agenda; the implementation of WPS in conflict prevention, peace operations, peace building, arms control, human-rights protection, and protection of civilians; connections between WPS and other UN resolutions and agendas; and the ongoing and future challenges of WPS.

Peace Studies is the first textbook in the field to emphasize 21st-century topics and the latest empirical research, as well as the first to prominently apply a gender perspective to the topics of peace, war, and violence. The book covers traditional peace studies' concerns with interstate wars while offering an equal emphasis on intrastate wars, group- and gender-based violence, and on the many nonviolent movements which have shaped recent world history. Clear and accessible language invites students to become more frequent and effective peace promoters in their own everyday lives. Dozens of case studies and textboxes foreground contemporary topics such as climate change, cyber warfare, digital activism, drones and robots, the occupy movement, peace ecology, positive psychology, religion and violence, and terrorism"--
