**Fake Science** Sep 21 2022 If you listen to any political argument, you're eventually bound to hear something like: "The science is settled on this." Or: "Just look at the statistics!" We're actually living in the age of the low information voter, easily misled by all-too-convincing false statistics and studies. Dealing with themes of racism, identity politics, and the unprecedented partisan hackery exhibited by the mainstream media, it packs a punch that free thinkers on the left and the right will love to see land. Big-city reporter Alecia Troust writes a weekly column for The Gruffington Buzz. Her hopes of promotion and of becoming the face of the Buzz on national TV are dashed when her make-it-or-break-it article is lost along with her laptop. Instead of playing a victim to circumstance or admitting her bad luck to her editor, Alecia instead submits an even more compelling story. However, this new story—regarding homegrown terrorism and containing "evidence" of an execution on American soil—is a fabrication; fake news. Although she initially wins the admiration of her editor and national attention, Alecia's lie also draws the ire and interest of anarcho-communists, white supremacists, Jihadists, the mainstream media, as well as those who seek to profit from maintaining the fake news' veracity, including the FBI and the CIA. With the worst of the country desperate to exploit the story for political ends, Alecia realizes far more than journalistic integrity is at stake. She must get the truth out before her fake news catalyzes a national descent into paranoia, war, and authoritarianism. **Simplified Fake Book** Nov 18 2019 (Easy Fake Book). **After the Fact?** Jan 01 2021 Why do we no longer trust facts, experts and statistics? In this essential guide to the turbulent times in which we live, Marcus Gilroy-Ware investigates our era of post-truths and fake news and answers the question of where we can go from here. We are supposed to have more information at our disposal now than at any time in history. So why, in a world of rising sea levels, populist leaders, resurgent fascism and a global pandemic, do so many people believe bizarre and untrue things about the world we live in? In *After the Fact?*, Marcus Gilroy-Ware shows us what really created the conditions for mis- and disinformation, from fake news and conspiracy theories, to bullshit journalism and the resurgence of the far-right, and why liberal newspaper columnists and centrist politicians are unable to turn back this tide. Spanning politics, culture, psychology, journalism, and much more, *After the Fact?* is a timely wake-up call for those who believe we can simply go "back to normal", and instead argues that, if we are to put an end to "fake news" we must deal with the broader social crises that are responsible for it.

**Fake News, Bias, and Media Literacy** Sep 09 2021 Although news outlets are meant to be impartial, they have never been perfectly unbiased. **The Rhetoric of the Roman Fake** May 25 2020 Previous scholarship on classical pseudepigrapha has generally aimed at proving issues of attribution and dating of individual works, with little or no attention paid to the texts as literary artefacts. Instead, this book looks at Latin fakes as sophisticated products of a literary culture in which collaborative practices of supplementation, recasting and role-play were the absolute cornerstones of rhetorical education and literary practice. Texts such as the *Catalepton*, the *Consolatio ad Liviam* and the *Panegyricus Messallae* thus illuminate the strategies whereby Imperial audiences received and interrogated canonical texts and are here explored as key moments in the Imperial reception of Augustan authors such as Virgil, Ovid and Tibullus. The study of the rhetoric of these creative supplements irreverently mingling truth and fiction reveals much not only about the neighbouring concepts of fiction, authenticity and reality, but also about the tacit assumptions by which the latter are employed in literary criticism.

**Fake (Point)** Mar 03 2021 From acclaimed author Donna Cooner comes this gripping and timely story about identity, revenge, and the lies -- and truths -- we tell online.

**Unpacking Fake News** Apr 04 2021 Since the 2016 presidential election, the term fake news has become part of the national discourse. Although some have appropriated the term for political purposes, actual fake news represents an inherent threat to American democracy given the ease through which it is consumed and shared via social media. This book is one of the first of its kind to address the implications of fake news for the K-12 classroom. It explores what fake news is, why students are susceptible to believing it, and how they can learn to identify it. Leading civic education scholars use a psychoanalytic lens to unpack why fake news is effective and to show educators how they can teach their students to be critical consumers of the political media they encounter. The authors also link these ideas to the broader task of civic education and critical engagement in the democratic process. "Inside this book you will find descriptions of simple lessons practiced by experts that can help make students more critical news consumers." —From the Foreword by Rebecca Klein, HuffPost "One of the notable strengths of this book is its emphasis on concrete approaches to help students protect themselves and the larger democracy from the insidious influence of fake news." —Diana Hess, University of Wisconsin-Madison "This book is both an important contribution to social studies

education and a timely response to the demands of our current political moment.”

—John Rogers, Institute for Democracy, Education, and Access, UCLA

**THE FAKE AND EVIL GOD WE WORSHIP. THE SATANIC VERSES OF THE BIBLE** Jan 21 2020

**They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading**

**Attributions** Oct 18 2019 Abraham Lincoln never said, "You cannot fool all the people all the time." Thomas Jefferson never said, "That government is best which governs least." And Horace Greeley never said, "Go west, young man." In *They Never Said It*, Paul Boller, Jr., and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, "The best part of valor is discretion"), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, "My fellow immigrants"). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, are blatantly dishonest and falsify the historical record. And others are chillingly vicious, filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America, and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and yet thought-provoking book, *They Never Said It* sorts out a great deal of history and sets it right, going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals, atheists and evangelists, all have at times twisted and even invented the words of eminent figures to promote their own ends. It is the ultimate debunking reference, a perfect complement to handbooks of quotations.

**Authenticity and How We Fake It** Jul 07 2021 Consumers today are invested in reality-based media, such as reality television and social media, which in theory draw content from somewhere off-screen in our lived experience. This is seen as more "authentic" than the predominantly fictional media of the latter half of the 20th century. Yet much of reality TV and social media is known by both consumers and creators of content to be scripted or contrived. Addressing this problem deepens consumer engagement, as authenticity becomes a preoccupation driving the extension of a new

media ethic of truth and savvy. This dynamic is key to understanding consumers' changing attitudes about the media they value. Reality TV, Facebook and YouTube have created a paradigm shift in the media landscape.

Analyzing these three established platforms--all of which have a stake in the conversation about authenticity--this book sheds light on the complicated behaviors and choices of media consumers.

**Fake Heritage** Nov 23 2022 The first survey of the many redesigned and imitation historical landmarks and objects that dot the globe "John Darlington shows . . . it is not just written history that is malleable; it is also history on the ground, heritage in brick and stone, wood and metal."--Simon Jenkins, *Times Literary Supplement* What happens when the past--or, more specifically, a piece of cultural heritage--is fabricated? From 50 replica Eiffel Towers located around the world to Saddam Hussein's reconstructions of ancient cities, examples of forged heritage are widespread. Some are easy to dismiss as blatant frauds (the Piltown Man), while others adhere to honest copying or respectful homage (the Parthenon in Nashville, Tennessee). This compelling book examines copies of historic buildings, faux archaeological sites, and other false artifacts, using them to explore the ethics and consequences of reconstructing the past; it also tackles the issues involved with faithful, "above-board" recreations of ancient landmarks. John Darlington probes questions of historical authenticity, seeking the lessons that lurk when history is twisted to tell an untrue story. Amplified by stunning images, the narrative underscores how the issue of duplicating heritage is both intriguing and incredibly complex, especially in the twenty-first century--as communication and technology flourish, so too do our opportunities to be deceived.

**Democracy and Fake News** Oct 22 2022 This book explores the challenges that disinformation, fake news, and post-truth politics pose to democracy from a multidisciplinary perspective. The authors analyse and interpret how the use of technology and social media as well as the emergence of new political narratives has been progressively changing the information landscape, undermining some of the pillars of democracy. The volume sheds light on some topical questions connected to fake news, thereby contributing to a fuller understanding of its impact on democracy. In the Introduction, the editors offer some orientating definitions of post-truth politics, building a theoretical framework where various different aspects of fake news can be understood. The book is then divided into three parts: Part I helps to contextualise the phenomena investigated, offering definitions and discussing key concepts as well as aspects linked to the manipulation of information systems, especially considering its reverberation on democracy. Part II considers the phenomena of disinformation, fake news, and post-truth politics in the context of Russia, which emerges as a laboratory where the phases of creation and diffusion of fake news can be broken down and analysed; consequently, Part II also reflects on the ways

to counteract disinformation and fake news. Part III moves from case studies in Western and Central Europe to reflect on the methodological difficulty of investigating disinformation, as well as tackling the very delicate question of detection, combat, and prevention of fake news. This book will be of great interest to students and scholars of political science, law, political philosophy, journalism, media studies, and computer science, since it provides a multidisciplinary approach to the analysis of post-truth politics.
