Carlos is a lover of women. He loves them passionately, intensely, and deeply, and he tries to be sincere and tender. He is sensual and caring, generous in his affection and attention, and prone to fall ardently in love. His sensual adventures, filled with the pursuit of beauty and every possible hedonistic pleasure, take him to three different countries. In each country, he loses his heart on the perpetual quest for the elusive love of his life. He knows that each woman he romances is ready to be loved, and it's up to him to unlock the mystery of her inner heart if he desires access to more. But on his lust-fueled quest, he finds an unexpected surprise in an older woman. Has he finally found the one woman he could love forever in this sophisticated and beautiful woman he meets? Is she the woman of his dreams, his fantasies, his heart's desire? Only time will tell. The heart wants what the heart wants, and Carlos knows just how far he will go to see his most fervent dreams come true. In the virtual-reality computer game Killobyte, wheelchair-bound ex-cop Walter Tobin is a hero--and he can have the use of his legs restored. Diabetic Baal Curran is a beautiful princess--and she can forget the illness that drove away her boyfriend. But the game takes on a sinister reality when Walter and Baal are trapped in the system. "This life is a gift from God. He gave us life everlasting to fulfill our calling. No one has the authority to tell us on how to live our life. Live your life from your heart and pay attention to your intuition. Don't be afraid to make mistakes, fall on your face, or look foolish in front of people. We are here to be the best we can be with what we have. Don't give up on yourself so soon. As we mature into who we are becoming... The change will be everlasting. Give yourself permission to finish your goals. The main thing is to never give up on yourself. Once we do that, life gives up on us. I hope that my story will help you see your life differently. This path was not easy for me to walk and share my deepest secret with you. I am thankful that my journey was not in vain, as I now pass the baton to you so you can run and win your race. With my deepest gratitude and love for humanity I wish you abundant blessings. May you start your journey today to awaken to the brand new you Namaste." --Luis Soto Jr., Transformational Life Coach Stolen Treasure is a book almost 70 years in the writing! Written over the decades since 1946, this collection of observations, quotes, proverbs, witticisms and rules for living have guided the author since his youth growing up in India, through his time in the Indian Navy, and for the bulk of his life since moving to Ireland in 1960. Now in his mid-80s, the author presents a lifetime of humour and words of wisdom for a happy life in this book. A true treasure collection of one-line gems and snip-bits of life's experiences, the book presents an insight into the observations of life over the author's lifetime that so many of us experience but never document. At first, observations from an idealistic young man are presented. This is followed by wisdom learned in early adulthood and gathered as an Officer with the Indian Navy. The observations continue from a happy lifetime in Ireland with a large focus on what the author learned about life as a husband and father, as well as engineer and lecturer, to retiree. These have been collected over the years as the author has experienced them in life or overheard them in social occasions, and carefully recorded by hand. In the decades before the internet and social media, these were the original status updates that tell a story of how life and perception of what matters has changed over almost 70 years. An intriguing read for every person of all ages and all interests. Early in the 21st century, after the Great Recession, poet and young mother Maggie Roche is harassed by a lovely woman, Sriyanie, and a famous neuroscientist, David Elfield. She doesn't know it yet, but she is about to become history's first time traveler. When agents from the far future attempt to kill her, in baffled fury she slingshots herself into the 7th millennium. Instantly she's on the run from the Ull Lords and their virtual reality devotees. These superbeings are cyborged humans constructed to live forever, with the ambition to rule the universe. Maggie is having none of this. Encountering an earlier version of Sriyanie, her fated future role in the formation of the multiverse falls upon her shoulder like a thunderous lightningbolt. A Being at the end of time she calls the Something wages endless war with its foes, the Ull Lords. Torn from her beloved child and her own time, Maggie must choose whether to accept this alienating path into an alternative cosmic history fit for a poet and a free woman. Proud and rebellious, Gideon is banished from the Light. His own words define his punishment, transforming bloodlust into literal hunger. Living by his sword, he wanders the land of mortals, embittered and alone. Naomi works in secret, illuminating manuscripts for the Knights of St. John. Gideon is drawn to her beauty and fascinated by her innocence. She stirs the shattered remnants of his nobility, intensifying the conflict already raging within him. Gideon is unlike anyone Naomi has ever encountered before. His passionate kisses and intoxicating caresses leave her restless and wanting. Still, she senses the bleak loneliness he tries so hard to deny. Responding to his seduction with tenderness, she is determined to help him rediscover the beauty in life. The battle lines are drawn. Gideon must seek redemption or Fall. Naomi must lead her Rebel Angel back into the light before the forces of darkness have their way. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs A daring collection of original social commentary and poetry challenges readers to look beyond the conventional assumptions in order to insightfully explore humanity and how the future is created today. (Philosophy) These are more than dreams and visions: they're a calling. Six people. Five mind-numbing visions. Four ancient and mysterious artifacts. Two exotic locations. And one greedy man who will stop at nothing, not even murder, to achieve his goal. Rev. Adam Bridger and his wife, Dr. Rachel Tremaine are once again in the center of an adventure not of their making. And joining them are four total strangers who, along with Rachel, have seen visions that most mortals can't imagine. They have been called on a mission that will forever change the world--if they survive. Dick award, and one of the founding fathers of cyberpunk comes a novel about a very modern nightmare: the most destructive computer virus ever has been traced to your machine. Computer programmer Jerzy Rugby spends his days blissfully hacking away in cyberspace — aiding the GoMotion Corporation in its noble quest to create intelligent robots. Then an electronic ant gets into the machinery ... then more ants ... then millions and millions of the nasty viral pests appear out of nowhere to wreak havoc throughout the Net. And suddenly Jerzy Rugby is Public Enemy Number One, wanted for sabotage, computer crime, and treason — a patsy who must now get to the bottom of the virtual insectile plague.
