After fourteen years Imogen moves back to St Towers Estate. Liberated by her new found freedom from the legal industry, old memories begin to surface. She has not seen St Towers Estate since she was nine years old but nothing has changed, it is like time has stood still. Due to being overworked Imogen falls into a coma and projects into a sleep world where she discovers many long kept secrets about her family's heritage with the Dragon Realm and how she must take hold of her new responsibility. Ed Grisamore shows us the extraordinary in the ordinary; the remarkable courage and decency of plain folk; and the beauty in the broken. His stories are an affirmation that everything will be okay. He's a fine writer who has both a poet's touch and a journalist's sensibility. The highest compliment I can give him is this: his book made me homesick for my Middle Georgia roots. In 1959, two thirteen year old boys discover a secret that the town of Hole, Georgia, would rather remain buried. No one wants to talk about the decorated African American soldier lynched on a hot summer night in 1919. But the event cannot be ignored since several impressionable citizens of the town claim they have seen the "haint" of the murdered soldier dancing around the old live oak tree in the city park--always around midnight on Independence Day. The two boys decide they must discover whether the ghost is real or just the imagination of a guilt-ridden community. Darrel Cannon and his new friend, Bumpy Foster, set out to find the truth. They soon ally themselves with an old black stonecutter who seems to know much more than he is willing to tell. Their journey

through the humid summer leads to adventure and danger but also to enlightenment. In the aftermath of the flaming climax, Darrel Cannon discovers that the senseless violence of a bygone era can forever change a boy's world view. For those interested in the wild, rough country of the Hell Hole and Rubicon Country this is a short history of this area and its mines and trails. Included for the hunter, equestrian, fisherman, hiker, historian, prospector and adventurer this is a complete survey of the historic trails of the area with maps and useful information to help make the experience more enjoyable, interesting, productive and safe. When Annie meets Georgia Kate, a big bundle of cuteness, through a hole in the fence in her backyard, she shares more than her dolls, games, and tea cakes. She introduces her new little friend to the greatest Friend of all - One who fills "the big ole ugly hole" in her heart! Someone dumped a body in an open grave at the cemetery, and the undertaker isn't happy about it. But he isn't happy about the police trying to solve it, either. In fact, the undertaker tries to solve it himself. The undertaker's name is Yvgeny, and Yvgeny is an unlikeable and morally ambiguous Sherlock Holmes aficionado who lives with his mother in a mortuary in middle-Georgia. He wears Victorian era dress and speaks with a Polish accent. Don't let Yvgeny's career choice scare you away from the story- while some of Yvgeny's antics will make you cringe, there is nothing gory or violent. The story begins with Yvgeny preparing for a funeral. He gets annoyed when he discovers someone dumped a body into a grave he had dug for someone else. Always looking for a way to make an extra buck, he hauls the body back to his office to inspect. After filching a nice watch, he calls the police. Of course, Yvgeny doesn't like the police, and he eventually decides to solve the crime himself. With his love for Sherlock Holmes and inflated ego, he estimates his chances of

solving the crime are far higher than those of the detectives. Yvgeny teams up with a motley assortment of not always like-minded characters in this small Georgia town, trying to stay one step ahead as the detectives close in. The local talent includes the mentally deficient one-eyed owner of the army-navy surplus store and the local doctor/deputy coroner who is a recovering hippie with a Tom Selleck fetish. In the middle of everything, Yvgeny falls for the crude and vulgar granddaughter of an old man buried in his cemetery. She is turned off by his bizarre fashion and strange interests, but Yvgeny is persistent. Will he solve the crime? Will he get the girl? Read and find out!

Describes yardages, course ratings, greens fees, telephone numbers and rules for over 300 greens throughout Georgia. May 21, 1864[?]two weeks have elapsed since the Atlanta Campaign began. It has been an operation of surprise and maneuver, of exhaustion and hunger, and of ceaseless combat. Now, fifty miles closer to the crucial city of Atlanta, the two armies confront each other.

Have you ever wondered what left behind those prints and tracks on the seashore, or what made those marks or dug those holes in the dunes? *Life Traces of the Georgia Coast* is an up-close look at these traces of life and the animals and plants that made them. It tells about the how the tracemakers lived and how they interacted with their environments. This is a book about ichnology (the study of such traces), a wonderful way to learn about the behavior of organisms, living and long extinct. *Life Traces* presents an overview of the traces left by modern animals and plants in this biologically rich region; shows how life traces relate to the environments, natural history, and behaviors of their tracemakers; and applies that knowledge toward a better understanding of the fossilized traces that ancient life left in the geologic record. Augmented by numerous illustrations of traces made by both ancient and modern organisms, the book shows how ancient trace fossils directly relate to modern traces and tracemakers, among them, insects, grasses, crabs, shorebirds, alligators, and sea turtles. The result is an aesthetically appealing and scientifically accurate book that will serve as both a source book for scientists and for

anyone interested in the natural history of the Georgia coast.
