Front Office Aug 05 2021 Designed for all students of hotel management, this key text offers a modern approach to front office operations and management using realistic scenarios set in the hotel environment. In particular it reflects the importance of different features of the receptionist's work, the book is divided into three main sections: Procedural aspects,

Psychological aspects and Management aspects. The first part deals mainly with the clerical side, looking at check-in, advance booking and accounting procedures and vital security measures. A complete section is then devoted to the social skills that a receptionist needs to develop in order to deal effectively with people, and the authors show how these skills can be used to increase sales. In the final four chapters, the book discusses management issues which are often neglected in textbooks on front office. Front Office is ideal for BTEC/SCOTVEC students and NVQ levels 3 and 4, those taking professional exams of the HCIMA, and also for undergraduates studying hotel and catering management. Radically different in approach to other textbooks Examines the role of social and management skills, does not just concentrate on procedural aspects Looks at security issues such as theft and vice

The Blue Book Jan 22 2023 The Blue Book is an ultimate guide for financial and management accounting in the hotel industry, and it is like no other. Some academic books for the hospitality industry do exist; however, as the term "hospitality industry" refers to lodging, food & beverage, event planning, transportation, and recreation, the industry is already complex on its own. It explains why such books do not conveniently cater to a hotel's needs. Moreover, these books dedicate many pages to corporate financing, which has little or nothing to do with the property level. Although there are some ground rules within the hospitality industry, the hotel has its unique accounting procedures and techniques, and this is when this book plays a main role. With over twenty years of valuable experience with the best international hotel operators in six countries, the author shares the essential and practical knowledge and guidelines to build a strong Finance Division in hotels. Therefore, this book perfectly caters to all financial professionals, from the start of their careers to becoming finance leaders. The contents of this book are certainly comprehensive and thorough - highly relevant and easy to understand. This makes it suitable for financial professionals, stakeholders including division heads, general managers, auditors, owners, and owner's representatives. All will greatly benefit from it. The Blue Book includes the following twelve parts that provide the most essential needed information to understand the hotel finance functions and to build a strong finance division: Part One: Basic Accounting Part Two: Revenue Management Part Three: Cost Management Part Four: Labor Management Part Five: Other Expenses Guidelines Part Six: Financial Analysis Part Seven: Budgeting and Forecasting Part Eight: Cash Management Part Nine: Hotel Investments Part Ten: Hotel Management Software Part Eleven: Financial Functions and SOPs Part Twelve: Parent-Child Chart of Accounts This book uses the Uniform System of Accounts and GAAP as its main reference, ensuring that the information provided to the readers is the most updated and relevant version of the modern hotel

industry.

Hotel Front Office Management Jan 10 2022 The front office is the nerve center of a hotel property. Communications and accounting are two of the most important functions of a front desk operation. Front office/reception is the first place where guests/customers arrive and come in touch with the staff. Front office/reception is the mirror of a hotel. The function of the front office is to directly get in touch with customers. The front office can discover more information about the customer by asking them questions and give answer ask by guest/customer also helping the customers out. Broadly speaking, front office includes roles that affect the right side (revenues) of trading statement of the business. Effective communications--with guests, employees, and other departments of the hotel--are paramount in projecting a hospitable image. Answering guest inquiries about hotel services and other guests, marketing and sales department requests for information on guest room availability, and housekeeping department inquiries concerning guest reservations are but a few of the routine tasks performed almost constantly by a hotel front desk in its role as communications hub. Accounting procedures involving

charges to registered and nonregistered hotel guest accounts are also important in the hospitality field. Staff working in the front office can also deal with simple tasks, such as sorting emails and helping on printing and typing tasks. Front office staff needs to use different skills on technologies too, such as using the printers, fax machines and phone. The book *Hotel Front Office Management* addresses the demands for instructing future leaders of the hotel industry. Educators who are preparing professionals for roles as front office managers and general managers in hotels are required to meet the challenges of operations, technology, training, empowerment, and international applications.

Revenue Management May 22 2020 From the man the Wall Street Journal hailed as "the guru of Revenue Management" comes revolutionary ways to recover from the after effects of downsizing and refocus your business on growth. Whatever happened to growth? In *Revenue Management*, Robert G. Cross answers this question with his ground-breaking approach to revitalizing businesses: focusing on the revenue side of the ledger instead of the cost side. The antithesis of slash-and-burn methods that left companies with empty profits and dissatisfied stockholders, *Revenue Management* overturns conventional thinking on marketing strategies and offers the key to initiating and sustaining growth. Using case studies from a variety of industries, small businesses, and nonprofit organizations, Cross describes no-tech, low-tech, and high-tech methods that managers can use to increase revenue without increasing products or promotions; predict consumer behavior; tap into new markets; and deliver products and services to customers effectively and efficiently. His proven tactics will help any business dramatically improve its bottom line by meeting the challenge of matching supply with demand.
