This is an ambitious and brilliant book by one of Africa's leading diaspora intellectuals. A combination of a researcher's field notes, a travelogue and personal memoir, it is unusual in African writing. It is the first book by an African scholar to take us on such an amazing analytical and narrative journey in search of African diasporas around the world from Latin America to the Caribbean, Europe and Asia. It is filled with analytical insights, captivating stories, and intriguing observations on the complex histories and experiences of African diasporas, their triumphs and tragedies, perils and possibilities, and their enduring struggles for belonging, for their humanity. Its inimitable passions are leavened by engaging humor, its scholarly analyses by a novelist's eye for local context and color. The author seeks to address the perplexing question of what it means to be a person of African descent living outside of the African continent. He offers the reader fascinating and richly textured portraits and surveys of the diversity of diasporic lives as well as the abiding connections of the diaspora condition. What makes this book particularly gripping are the multilayered narratives, the braided stories and explorations of African diasporic lives across many contexts and places as well as the author's own life during the period of his travels from 2006 to 2009. Also skillfully interwoven are the author's daily encounters and observations, information and reflections from interviewees from all walks of life, and the larger structural contexts of diaspora struggles for enfranchisement and empowerment. For all the gruesome exclusions, vulnerabilities, and marginalities African diasporas have suffered in their various abodes, this is a remarkable tale of diasporic agency, a celebration of their lasting contributions to the construction of the modern world in all its manifestations. This book is part of the African World Series, edited by Toyin Falola, Jacob and Frances Sanger Mossiker Chair in the Humanities, University of Texas at Austin. "Paul Tiyambe Zeleza has been thinking about and living with pan-Africanism and Diaspora before its second wave of popularity and has done the experiential and intellectual work. In *In Search of African Diasporas: Testimonies and Encounters* takes us with him as he documents the existence of our various journeys and arrivals, and the ways we re-create and redefine an African world wherever we are. As we read this book, we are able to travel with Zeleza from Venezuela to Oman, across the Caribbean and throughout Europe, getting the flavors and colors of the African Diaspora in myriad locations." -- Carole Boyce Davies, Professor of English and Africana Studies, Cornell University, General Editor, *Encyclopedia of the African Diaspora* "For over a century, we have been flooded with Black American narratives of returning to Africa. Paul Tiyambe Zeleza, a distinguished African scholar, reverses the poles and seeks to discover the global diaspora--the descendants of slaves, migrant laborers, refugees, fortune seekers. Part memoir, part travelogue, part history, part critical interrogation, Zeleza has given us a brilliant compendium of richly detailed and astute insights into how contemporary black intellectuals and activists understand racism and blackness, and how the black world sees itself, its relationship to Africa, and the future. From Latin America to the Arab world, Europe to the sub-continent, Zeleza's fascinating journey takes place against a backdrop of globalization, growing divisions between rich and poor, ever greater displacement, heightened nationalism, and a genuine debate over the effectiveness of global black unity. Yet, as with Richard Wright's traveling observations a half-century earlier, Zeleza never avoids the hard questions or the difficult truths. A stunning achievement." -- Robin D. G. Kelley, Professor of American Studies and Ethnicity, University of Southern California "In *In Search of African Diasporas* offers a landmark contribution to the growing scholarly inquest into the African Diaspora. Based on years of travel, discussion and reading, Paul Tiyambe Zeleza presents a veritable tour-de-force, generating an utterly unique account that fuses his travelogue of a modern Diasporic odyssey with a penetrating analysis that both interprets the Diaspora's larger meaning, while also inhabiting its migratory flows.

Highly readable, perceptively written, geographically broad, and refreshingly critical, Zeleza's 21st century rendition of the timeless "travel diary" is sure to set the bar for those who are attempting to grapple with questions of identity, culture, and society in a fast-paced world of global change. Yet, anchored in history, this book is as much an artifact of the African Diaspora, as it is a current reflection on this persistently enduring modern phenomenon." -- Ben Vinson III, Herbert Baxter Adams Professor of Latin American History, Johns Hopkins University, Author of *Flight: A Tuskegee Airman in Mexico, and African Slavery in Latin America and the Caribbean* "A groundbreaking and powerful look at the African Diaspora in the world. Paul Tiyambe Zeleza's existentialist commentary on multiple African Diasporas reminds the reader of Richard Wright's *Black Power* in reverse: sincere, intimate and controversial. The novelistic descriptions of people and places also recalls some of the best travel narratives of Ryszard Kapuściński." -- Manthia Diawara, Professor of Comparative Literature and Africana Studies, New York University, author of *African Film: New Forms of Aesthetics and Politics* "Africa's memory and relationship with its diaspora is a troubled one, a mixture of ignorance, stereotype, sentimentality, alienation, admiration and distortions. All this is compounded by the fact that Africans have themselves not sought direct knowledge of its Diasporas. Paul Tiyambe Zeleza's book is an authoritative contribution to the initiation of Africa's own exploration of whatever happened to its descendants outside the continent and how they are faring today. It is a tour de force that combines the aesthetic sensibilities and descriptive force of a novelist and essayist that Zeleza is and the scholarly authority of a renowned African historian. The result is a fascinating encounter with Africa's Diaspora in the many places he visited. It is a gripping distillation of anecdote, personal reflections and analysis. Zeleza is an erudite traveler and thoroughly reliable guide whose account opens new vistas to the lives of Africa's dispersed descendants. The book is a must-read for anyone who seeks to understand the complex outcomes of the Presence Africaine in the world." -- Professor Thandika Mkandawire, former Director of the United Nations Research Institute for Social Development, Chair in African Development at the London School of Economics, University of London "...an engaging global history of African diasporas...A fine read for lower-level undergraduates first encountering diaspora studies...Summing Up: Highly recommended" -- CHOICE Magazine "...Zeleza writes with admirable clarity...in choosing to share the interactions of his fieldwork in this travel diary, Zeleza has produced a bold, challenging work..." -- *Studies in Travel Writing* A comprehensive study of African slavery in the colonies of Spain and Portugal in the New World. The Letter to Philemon is one of the most beautiful rhetorical letters written by Paul—and yet, at the same time, perhaps the most underread letter in the New Testament. Paul wrote this letter out of love, hoping to persuade the slave master Philemon to choose compassion rather than follow the typical Roman attitudes towards slaves; to treat Onesimus as a brother in Christ rather than as an inferior, subhuman chattel. This letter is not only theologically important but also important in a practical sense because it is more than mere words—it is a testimony. In order for readers to better appreciate the true depth of the meanings in the letter, this book is written in a rather creative way. Each chapter begins with a selected scene from the movie *Les Misérables*, to introduce the key theme of the chapter. Then the author will interpret the details of the text of the letter and the other relevant texts in the Pauline corpus. The final section of each chapter is a creative story, based on the text and historical context. The purpose of inventing these creative stories is to help readers better grasp the historical context and, most importantly, the rhetoric in the letter. 2019 Foreword INDIES Finalist American Founders reveals men and women of African descent as key protagonists in the story of American democracy. It chronicles how black people developed and defended New World settlements, undermined slavery, and championed freedom throughout the hemisphere from the sixteenth through the twentieth centuries. While conventional history tends to reduce the roles of African Americans to antebellum slavery and the civil rights movement, in reality African residents preceded the English by a century and arrived in the Americas in numbers that far exceeded European migrants up until 1820. Afro-Americans were omnipresent in the founding and advancement of the Americas, and recurrently outnumbered Europeans at many times and places, from colonial Peru to antebellum Virginia. African-descended people contributed to every facet of American history as explorers, conquistadores, settlers, soldiers, sailors, servants, slaves, rebels, leaders, lawyers, litigants, laborers, artisans, artists, activists, translators, teachers, doctors, nurses, inventors, investors, merchants, mathematicians, scientists, scholars, engineers, entrepreneurs, generals, cowboys, pirates, professors, politicians, priests, poets, and presidents. The multitude of events and mixed-race individuals included in the book underscores that black and white Americans share the same history, and in many cases, the same ancestry. American Founders is meant to celebrate this shared heritage and strengthen these bonds. "Though the pyramids of Egypt, the obelisks of Ethiopia and the stone walls of Zimbabwe are some of the remarkable historical structures in Africa, none of them quite capture the intricate connections between African and global history as the slave castles of Modern Ghana do. More than forty-five castles, forts and dungeons dotted the two hundred and fifty mile coastline of the Gold Coast (Modern Ghana) in the eighteenth and nineteenth centuries. Grim and foreboding in their appearance, these castles and dungeons

have become eternal coastal signposts of a disturbing past. They have long been remembered as the place where victims of the slave trade were imprisoned before their forced transportation to the New World. They personify the slave trade in all of its grim realities: estrangement, brutality and degradation. Here, in these "ships at permanent anchor," victims of the slave trade spent days and months in agony before their perilous and uncertain voyage to the New World. Ghana's slave forts and castles formed an integral part of the Middle Passage. Yet, they have received very scant scholarly attention. *House of Slaves* is a multi-layered historical study of the slave forts and castles of the Gold Coast that focuses on the people who worked in these slave castles. The book seeks to unravel the interplay between people and structures in the facilitation of the Atlantic Slave Trade on the West African coast. Life in the slave castles mirrored the conditions aboard slave ships on the Atlantic: starvation and disease. A better understanding of the West African dimension of the trans-Atlantic Slave trade; the creation of the early African diaspora in the Americas, the West Indies and Europe, and the "reconnections" between Africa and its global diaspora, since the 1990s, should begin from a textured analysis of the activity, memory and symbolism that these coastal ships at permanent anchor embody in African history and the history of the African Diaspora." -- Back cover.

Rachel May's rich new book explores the far reach of slavery, from New England to the Caribbean, the role it played in the growth of mercantile America, and the bonds between the agrarian south and the industrial north in the antebellum era—all through the discovery of a remarkable quilt. While studying objects in a textile collection, May opened a veritable treasure-trove: a carefully folded, unfinished quilt made of 1830s-era fabrics, its backing containing fragile, aged papers with the dates 1798, 1808, and 1813, the words "shuger," "rum," "casks," and "West Indies," repeated over and over, along with "friendship," "kindness," "government," and "incident." The quilt top sent her on a journey to piece together the story of Minerva, Eliza, Jane, and Juba—the enslaved women behind the quilt—and their owner, Susan Crouch. May brilliantly stitches together the often-silenced legacy of slavery by revealing the lives of these urban enslaved women and their world. Beautifully written and richly imagined, *An American Quilt* is a luminous historical examination and an appreciation of a craft that provides such a tactile connection to the past. Between 1815 and 1861 thousands of planters formed a unique emigrant group in American history. A slaveholding, landholding elite, southerners from Georgia and South Carolina uprooted themselves from their communities and headed for their society's borderlands with a frequency and intensity unsurpassed by any comparable class. A phenomenon of such singularity and significance preoccupied many of the South's leading citizens and generated a great deal of interest and discussion among movers and prospective movers, as well as among those who stayed behind. While many wondered what emigration could do for them as individuals or households, others engaged in a public debate as to what emigration said about them as a class and as a society. That multilayered debate surrounding the personal and social, spiritual and ideological meanings of emigration is at the very center of James David Miller's study. In exploring what planter mobility reveals about planter identity and culture, *South by Southwest* blends analysis of both public and private responses to emigration and in so doing illuminates the ways in which elite southerners themselves understood the connections between emigration as private conduct and as a public phenomenon. In bringing together these two spheres of inquiry, Miller examines the diverse geographical, cultural, and intellectual meanings that elite southerners gave to their private and public journeys and what those meanings reveal about their broader attitudes regarding the people and places of slaveholding society. Winner of: * The Black Caucus of the American Library Association Nonfiction Book Award * The Tampa Bay Historical Society's D. B. McKay Award * The Florida Historical Society's Rembert Patrick Award for Best Book in Florida History "A thoroughly researched and balanced account of the slave experience in Florida."--*Journal of American History* "The greater social and economic freedom born of Spanish influence and close relationships between rebellious blacks and Seminoles set the stage for the largest slave rebellion in U.S. history. A fascinating account of a variant experience of an

institution too often viewed from a single perspective."--Booklist "Rivers takes a very close look at slave society from various angles, as he evaluates not only slave life but the interaction of whites, blacks, and Indians. . . . Makes for a rich and multi-layered history."--Southern Historian "Shows how slavery differed dramatically in different regions of the state and how, in fact, it evolved over the years in those areas."--Tallahassee Democrat "Addresses how Florida's history and geography produced conditions unlike those elsewhere in the American South."--Journal of Southern History This work examines slave emancipation and opposition to it as a far-reaching, national event with profound social, political, and cultural consequences. The author analyzes multiple views of the African American child to demonstrate how Americans contested and defended slavery and its abolition. This book brings together leading scholars to examine slavery in American literature from the eighteenth century to the present day. This book is intended for researchers in the field of narrative from post-graduate level onwards. It analyzes the audio-recordings of the narratives of former slaves from the American South which are now publically available on the Library of Congress website: *Voices from the days of slavery*. More specifically, this book analyses the identity work of these former slaves and considers how these identities are related to master narratives. The novelty of this book is that through using such a temporally diverse and relatively large corpus, we show how master narratives change according to both the zeitgeist of the here-and-now of the interview world and the historical period that is related in the there-and-then of the story world. Moreover, focusing on the active achievement of master narratives as socially-situated co-constructed discursive accomplishments we analyze how different, inherently unstable and even contradictory versions of master narratives are enacted. Essay from the year 2009 in the subject English Language and Literature Studies - Literature, grade: 1,0, Bielefeld University (Anglistik: British and American Studies), course: "It's Moe, the White Slave" - Slave and Neo-Slave Narratives, language: English, abstract: "Incidents in the Life of a Slave Girl" (1861) by Harriet Jacobs is a multilayered slave narrative, it concerns many major subjects like the violent, regardless behaviour of white middle class women towards slaves in the U.S. South during the antebellum years as well as the peculiar institution and social cohesion within the family. But in this essay I will concentrate on gender and race conventions and the protagonist's struggle of gaining true womanhood. First I will examine what true womanhood is and how it developed. Ongoing I will also analyse these conventions in relation to Linda Brent, the protagonist of Harriet Jacobs' autobiographical narrative, and other characters having an influence on Linda. As a last point I will examine the author's intention to stress the ideal woman. "Examination of the ways twentieth-century novels deployed formal beginnings to challenge and destabilize the masculine and racialized authorities of traditional narrative beginnings, using six novels as case studies"-- Jennifer A. Glancy brings a multilayered approach to these and many other issues, offering a comprehensive reexamination of the evidence pertaining to slavery in early Christianity."--Jacket. "Slam-bang... superb... masterful... gripping... marvelous."—Washington Post How is tonight different from all other nights? For Jacob Rappaport, a Jewish soldier in the Union Army, it is a question his commanders have answered for him: on Passover, 1862, he is ordered to murder his own uncle, who is plotting to assassinate Abraham Lincoln. After this harrowing mission, Jacob is recruited to pursue another enemy agent—this time not to murder the spy, but to marry her. Based on real historical figures, this eagerly awaited novel from award-winning author Dara Horn delivers multilayered, page-turning storytelling at its best. For seven years Stephen Marc photographed the routes traveled by fugitive slaves in their search for freedom, documenting and interpreting his research along the way. In *Passage on the Underground Railroad*, Marc shares the results of these explorations through his thought-provoking, unconventional, and haunting digital images. Marc uses two types of photographic composites to reveal the history of the Underground Railroad (UGRR): multiple photographs that describe UGRR sites and metaphorical montages that address the larger horror of slavery. Each UGRR site has a story, so individual sites are portrayed inside and out, using several photographs in combination to create visual tours. The companion montages evocatively interpret the South's "peculiar institution" from which slaves were fleeing. These multilayered narratives weave together elements from the landscape of slavery--plantation structures, crop fields, waterways, tools of bondage and agriculture, merchant tokens and bank note currency, newspaper articles, and advertisements--along with UGRR site details, antislavery materials, and contemporary cultural references. In addition to the eighty-seven distinctive photographic creations and detailed captions, *Passage on the Underground Railroad* features an interview with Stephen Marc by Carla Williams, an essay by Keith Griffler, and a piece from Diane Miller discussing the historical significance of the UGRR and the role of the National Park Service's Network to Freedom sites, many of which are interpreted in this book. Alejandro de la Fuente and George Reid Andrews offer the first systematic, book-length survey of humanities and social science scholarship on the exciting field of Afro-Latin American studies. Organized by topic, these essays synthesize and present the current state of knowledge on a broad variety of topics, including Afro-Latin American music, religions, literature, art history, political thought, social movements, legal history, environmental history, and ideologies of racial inclusion. This volume connects the region's long

history of slavery to the major political, social, cultural, and economic developments of the last two centuries. Written by leading scholars in each of those topics, the volume provides an introduction to the field of Afro-Latin American studies that is not available from any other source and reflects the disciplinary and thematic richness of this emerging field. *House on Diamond Hill: A Cherokee Plantation Story From 1501*, when the first slaves arrived in Hispaniola, until the nineteenth century, some twelve million people were abducted from west Africa and shipped across thousands of miles of ocean - the infamous Middle Passage - to work in the colonies of the New World. Perhaps two million Africans died at sea. Why was slavery so widely condoned, during most of this period, by leading lawyers, religious leaders, politicians and philosophers? How was it that the educated classes of the western world were prepared for so long to accept and promote an institution that would later ages be condemned as barbaric? Exploring these and other questions - and the slave experience on the sugar, rice, coffee and cotton plantations - Kenneth Morgan discusses the rise of a distinctively Creole culture; slave revolts, including the successful revolution in Haiti (1791-1804); and the rise of abolitionism, when the ideas of Montesquieu, Wilberforce, Quakers and others led to the slave trade's systemic demise. At a time when the menace of human trafficking is of increasing concern worldwide, this timely book reflects on the deeper motivations of slavery as both ideology and merchant institution. Surveys the history of slavery in the ancient Mediterranean world, concentrating particularly on the societies of ancient Greece and Rome. In the early nineteenth century, Rochester, New York, and St. Catharines, Canada West, were the last stops on the Niagara branch of the Underground Railroad. Both cities handled substantial fugitive slave traffic and were logical destinations for the settlement of runaways because of their progressive stance on social issues including abolition of slavery, women's rights, and temperance. Moreover, these urban centers were home to sizable free Black communities as well as an array of individuals engaged in the abolitionist movement, such as Frederick Douglass, Harriet Tubman, Anthony Burns, and Hiram Wilson. *dann j. Broyld's Borderland Blacks* explores the status and struggles of transient Blacks within this dynamic zone, where the cultures and interests of the United States, Canada, Great Britain, and the African Diaspora overlapped. Blacks in the two cities shared newspapers, annual celebrations, religious organizations, and kinship and friendship ties. Too often, historians have focused on the one-way flow of fugitives on the Underground Railroad from America to Canada when in fact the situation on the ground was far more fluid, involving two-way movement and social collaborations. Black residents possessed transnational identities and strategically positioned themselves near the American-Canadian border where immigration and interaction occurred. *Borderland Blacks* reveals that physical separation via formalized national barriers did not sever concepts of psychological memory or restrict social ties. Broyld investigates how the times and terms of emancipation affected Blacks on each side of the border, including their use of political agency to pit the United States and British Canada against one another for the best possible outcomes. "Traces the history of abolition from the 1600s to the 1860s . . . a valuable addition to our understanding of the role of race and racism in America."—*Florida Courier* Received historical wisdom casts abolitionists as bourgeois, mostly white reformers burdened by racial paternalism and economic conservatism. Manisha Sinha overturns this image, broadening her scope beyond the antebellum period usually associated with abolitionism and recasting it as a radical social movement in which men and women, black and white, free and enslaved found common ground in causes ranging from feminism and utopian socialism to anti-imperialism and efforts to defend the rights of labor. Drawing on extensive archival research, including newly discovered letters and pamphlets, Sinha documents the influence of the Haitian Revolution and the centrality of slave resistance in shaping the ideology and tactics of abolition. This book is a comprehensive history of the abolition movement in a transnational context. It illustrates how the abolitionist vision ultimately linked the slave's cause to the struggle to redefine American democracy and human rights across the globe. "A full history of the men and women who truly made us free."—Ira Berlin, *The New York Times Book Review* "A stunning new history of abolitionism . . . [Sinha] plugs abolitionism back into the history of anticapitalist protest."—*The Atlantic* "Will deservedly take its place alongside the equally magisterial works of Ira Berlin on slavery and Eric Foner on the Reconstruction Era."—*The Wall Street Journal* "A powerfully unfamiliar look at the struggle to end slavery in the United States . . . as multifaceted as the movement it chronicles."—*The Boston Globe* *Colonialism, Slavery, Reparations and Trade: Remediating the 'Past'?* Addresses how reparations might be obtained for the legacy of the Trans Atlantic slave trade. This collection lends weight to the argument that liability is not extinguished on the death of the plaintiffs or perpetrators. Arguing that the impact of the slave trade is continuing and therefore contemporary, it maintains that this trans-generational debt remains, and must be addressed. Bringing together leading scholars, practitioners, diplomats, and activists, *Colonialism, Slavery, Reparations and Trade* provides a powerful and challenging exploration of the variety of available – legal, relief-type, economic-based and multi-level – strategies, and apparent barriers, to achieving reparations for slavery. 'Black but Human' is the first study to focus on the visual representations of African slaves and ex-slaves in Spain during the Hapsburg dynasty. *The Afro-Hispanic proverb*

'Black but Human' is the main thread of the six chapters and serves as a lens through which to explore the ways in which a certain visual representation of slavery both embodies and reproduces hegemonic visions of enslaved and liberated Africans, and at the same time provides material for critical and emancipatory practices by Afro-Hispanics themselves. The African presence in the Iberian Peninsula between the late fifteenth century and the end of the seventeenth century was as a result of the institutionalization of the local and transatlantic slave trades. In addition to the Moors, Berbers, and Turks born as slaves, there were approximately two million enslaved people in the kingdoms of Castile, Aragón, and Portugal. The 'Black but Human' topos that emerges from the African work songs and poems written by Afro-Hispanics encodes the multi-layered processes through which a black emancipatory subject emerges and a 'black nation' forges a collective resistance. It is visually articulated by Afro-Hispanic and Spanish artists in religious paintings and in the genres of self-portraiture and portraiture. This extraordinary imagery coexists with the stereotypical representations of African slaves and ex-slaves by Spanish sculptors, engravers, jewellers, and painters mainly in the religious visual form and by European draftsmen and miniaturists, in their landscape drawings, and sketches for costume books. Ishmael Reed's parody of slave narratives—the classical literature of the African American tradition—which redefined the neo-slave genre and launched a lucrative academic industry. Some parodies are as necessary as the books they answer. Such is the case with *Flight to Canada*, Ishmael Reed's scathing, offbeat response to conventional anti-slavery novels such as *Uncle Tom's Cabin*. Though *Flight to Canada* has been classified by some as a "post race" novel, the villains and the heroes are clear. Three slaves are on the run from the Swille plantation. Among them, the most hotly pursued is Raven Quickskill, a poet who seeks freedom in Canada, and ultimately hopes to return and liberate others. But this particular Civil War-era landscape is littered with modern elements, from Xerox copiers to airplanes, and freely reimagines historic figures as sacred as Abraham Lincoln. A comedy flashing with insight, *Flight to Canada* poses serious questions about history and the complex ways that race relations in America are shaped by the past. This ebook features an illustrated biography of Ishmael Reed including rare images of the author. *Beyond Slavery* traces the enduring impact and legacy of the African diaspora in Latin America and the Caribbean in the modern era. In a rich set of essays, the volume explores the multiple ways that Africans have affected political, economic, and cultural life throughout the region. The contributors engage readers interested in the African diaspora in a series of vigorous debates ranging from agency and resistance to transculturation, displacement, cross-national dialogue, and popular culture. Documenting the array of diverse voices of Afro-Latin Americans throughout the region, this interdisciplinary book brings to life both their histories and contemporary experiences. Routledge is an imprint of Taylor & Francis, an informal company. At the time when European powers colonized the Americas, the institution of slavery had almost disappeared from Europe itself. Having overcome an institution widely regarded as oppressive, why did they sponsor the construction of racial slavery in their new colonies? Robin Blackburn traces European doctrines of race and slavery from medieval times to the early modern epoch, and finds that the stigmatization of the ethno-religious Other was given a callous twist by a new culture of consumption, freed from an earlier moral economy. *The Making of New World Slavery* argues that independent commerce, geared to burgeoning consumer markets, was the driving force behind the rise of plantation slavery. The baroque state sought—successfully—to batten on this commerce, and—unsuccessfully—to regulate slavery and race. Successive chapters of the book consider the deployment of slaves in the colonial possessions of the Portuguese, the Spanish, the Dutch, the English and the French. Each are shown to have contributed something to the eventual consolidation of racial slavery and to the plantation revolution of the seventeenth and eighteenth centuries. It is shown that plantation slavery emerged from the impulses of civil society rather than from the strategies of the individual states. Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected. Finally he shows that the surge of Atlantic trade, premised on the killing toil of the plantations, made a decisive contribution to both the Industrial Revolution and the rise of the West. Slavery is not a

crime confined to the far reaches of history. It is an injustice that continues to entrap twenty-seven million people across the globe. Laura Murphy offers close to forty survivor narratives from Cambodia, Ghana, Lebanon, Macedonia, Mexico, Russia, Thailand, Ukraine, and the United States, detailing the horrors of a system that forces people to work without pay and against their will, under the threat of violence, with little or no means of escape. Representing a variety of circumstances in diverse contexts, these survivors are the Frederick Douglasses, Sojourner Truths, and Olaudah Equianos of our time, testifying to the widespread existence of a human rights tragedy and the urgent need to address it. Through storytelling and firsthand testimony, this anthology shapes a twenty-first-century narrative that many believe died with the end of slavery in the Americas. Organized around such issues as the need for work, the punishment of defiance, and the move toward activism, the collection isolates the causes, mechanisms, and responses to slavery that allow the phenomenon to endure. Enhancing scholarship in women's studies, sociology, criminology, law, social work, and literary studies, the text establishes a common trajectory of vulnerability, enslavement, captivity, escape, and recovery, creating an invaluable resource for activists, scholars, legislators, and service providers.

STUDII DE ANGLISTICĂ ȘI AMERICANISTICĂ ale studenților și masteranzilor din Facultatea de Limbi și Literaturi Străine (2010-2017) Radically rethinks the theoretical parameters through which we interpret both current and past ideas of captivity, adoption, and slavery among Native American societies in an interdisciplinary perspective. Highlights the importance of the interaction between perceptions, representations and lived experience associated with the facts of slavery. 'Black but Human' is the first study to focus on the visual representations of African slaves and ex-slaves in Spain during the Hapsburg dynasty. The Afro-Hispanic proverb 'Black but Human' is the main thread of the six chapters and serves as a lens through which to explore the ways in which a certain visual representation of slavery both embodies and reproduces hegemonic visions of enslaved and liberated Africans, and at the same time provides material for critical and emancipatory practices by Afro-Hispanics themselves. The African presence in the Iberian Peninsula between the late fifteenth century and the end of the seventeenth century was as a result of the institutionalization of the local and transatlantic slave trades. In addition to the Moors, Berbers and Turks born as slaves, there were approximately two million enslaved people in the kingdoms of Castile, Aragon and Portugal. The 'Black but Human' topos that emerges from the African work songs and poems written by Afro-Hispanics encodes the multi-layered processes through which a black emancipatory subject emerges and a 'black nation' forges a collective resistance. It is visually articulated by Afro-Hispanic and Spanish artists in religious paintings and in the genres of self-portraiture and portraiture. This extraordinary imagery coexists with the stereotypical representations of African slaves and ex-slaves by Spanish sculptors, engravers, jewellers, and painters mainly in the religious visual form and by European draftsmen and miniaturists, in their landscape drawings and sketches for costume books.

G. Edward White, a leading legal historian, presents *Law in American History*, a two-volume, comprehensive narrative history of American law from the colonial period to the present. In this first volume, White explores the key turning points in roughly the first half of the American legal system, from the development of order in the colonies, to the signing of the Constitution, to the dissolution of the Union just before the Civil War. Thought-provoking and artfully written, *Law in American History, Vol. 1* is an essential text for both students of law and general readers alike.

Brazilian-African Diaspora in Ghana is a fresh approach, challenging both pre-existing and established notions of the African Diaspora by engaging new regions, conceptualizations, and articulations that move the field forward. This book examines the untold story of freed slaves from Brazil who thrived socially, culturally, and economically despite the challenges they encountered after they settled in Ghana. Kwame Essien goes beyond the one-dimensional approach that only focuses on British abolitionists' funding of freed slaves' resettlements in Africa. The new interpretation of reverse migrations examines the paradox of freedom in discussing how emancipated Brazilian-Africans came under threat from British colonial officials who introduced stringent land ordinances that deprived the freed Brazilian-Africans from owning land, particularly "Brazilian land." Essien considers anew contention between the returnees and other entities that were simultaneously vying for control over social, political, commercial, and religious spaces in Accra and tackles the fluidity of memory and how it continues to shape Ghana's history. The ongoing search for lost connections with the support of the Brazilian government—inspiring multiple generations of Tabom (offspring of the returnees) to travel across the Atlantic and back, especially in the last decade—illustrates the unending nature of the transatlantic diaspora journey and its impacts. The last New World countries to abolish slavery were Cuba and Brazil, more than twenty years after slave emancipation in the United States. Why slavery was so resilient and how people in Latin America fought against it are the subjects of this compelling study. Beginning with the roots of African slavery in the fifteenth- and sixteenth-century Iberian empires, this work explores central issues, including the transatlantic slave trade, labor, Afro-Latin American cultures, racial identities in colonial slave societies, and the spread of antislavery ideas and social movements. A study of Latin America, this work, with its Atlantic-world framework, will also appeal to students of slavery and abolition in other Atlantic

empires and nation-states in the early modern and modern eras. This book details many aspects of Latin American culture as experienced by millions of people living in Central and South America. The author argues that despite early and considerable European influences on the region, indigenous Latin American traditions still characterize much of the social and artistic heritage of the Latin American countries. Several chapters provide detailed accounts of daily life, including descriptions of contemporary dress, mealtime traditions, transportation, and traditional ways of conducting business. Other chapters focus on the cultural significance of the popular music, art, and literature prevalent in each Latin American country. In 1812 a series of revolts known collectively as the Aponte Rebellion erupted across the island of Cuba, comprising one of the largest and most important slave insurrections in Caribbean history. Matt Childs provides the first in-depth analysis of the rebellion, situating it in local, colonial, imperial, and Atlantic World contexts. Childs explains how slaves and free people of color responded to the nineteenth-century "sugar boom" in the Spanish colony by planning a rebellion against racial slavery and plantation agriculture. Striking alliances among free people of color and slaves, blacks and mulattoes, Africans and Creoles, and rural and urban populations, rebels were prompted to act by a widespread belief in rumors promising that emancipation was near. Taking further inspiration from the 1791 Haitian Revolution, rebels sought to destroy slavery in Cuba and perhaps even end Spanish rule. By comparing his findings to studies of slave insurrections in Brazil, Haiti, the British Caribbean, and the United States, Childs places the rebellion within the wider story of Atlantic World revolution and political change. The book also features a biographical table, constructed by Childs, of the more than 350 people investigated for their involvement in the rebellion, 34 of whom were executed.
