Living in a time when it was scandalous even to show a bit of ankle, a small number of courageous women covered their bodies in tattoos and traveled the country, performing nearly nude on carnival stages. These gutsy women spun amazing stories for captivated audiences about abductions and forced tattooing at the hands of savages, but little has been shared of their real lives. Though they spawned a cultural movement—almost a quarter of Americans now have tattoos—these women have largely faded into history. The Tattooed Lady uncovers the true stories behind these women, bringing them out of the sideshow realm and into their working class realities. Combining thorough research with more than a hundred historical photos, this updated second edition explores tattoo origins, women's history, circus lore, and includes even more personal and professional details from modern tattooed ladies. A fascinating read, The Tattooed Lady pays tribute to a group of unique and amazing women whose legacy lives on. Rooted in the creative success of over 30 years of supermarket tabloid publishing, the Weekly World News has been the world's only reliable news source since 1979. Can two men from completely different worlds; and sides of the law; find common ground, or will all their desires only wreak Havoc? A schoolteacher escapes an abusive marriage and finds love on a blind date. Mary Jane's new man, sure that riding a Harley will restore her confidence, ends up following the white lines with her through fifteen years of marriage. Traveling together, they learn to be partners, both on and off the road, until Dwayne is diagnosed with cancer. After losing her husband, Mary Jane once again must learn to live on her own—but she'll never be the same again. An ethnography of the tattoo community, tracing the practice's transformation from a mostly male, working-class phenomenon to one adapted and propagated by a more middle-class movement in the period from the 1970s to the present. Vintage Tattoo Flash is a one-of-a-kind visual exploration of the history and evolution of tattooing in America. Aluscious, offset-printed, hardcover tome—a beautiful and serious addition to the understanding of one of the world's oldest and most popular art forms. Electric tattooing as we know it today was invented in New York City at the turn of the 19th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as "traditional tattooing" was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheets of designs posted in tattoo shops for customers to select from. Painted and repainted, stolen, traded, bought and sold, these sheets are passed between artists through one channel or another, often having multiple useful lives in a variety of shops scattered across time and geography. The utility of these original pieces of painted art has made it so that original examples can still be found in use or up for grabs if you know where to look. Vintage Tattoo Flash draws from the personal collection of Jonathan Shaw—renowned outlaw tattooist and author—and represents a selection of over 300 pieces of flash from one of the largest private collections in existence. Vintage Tattoo Flash spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown. Bikies consider themselves "the last free people in society", unconstrained by the regulations that rule ordinary citizens. Arthur Venno's account of bikie culture in Australia reveals the true picture of the brotherhoods, drawing on interviews and personal stories, along with his own research. Examining representations of the tattoo and tattooing in literature, television, and film from two periods of tattoo renaissance (1851-1914, and 1955 to present), this study makes an original contribution to understandings of crime and detective genre and the ways in which tattoos act as a mimetic device that marks and remarks these narratives in complex ways. Strategy decision making and action used to be off limits to all but the select few at the very top of an organization. It was a largely cerebral activity focused on grand long-term plans made at annual off-site retreats away from the daily challenges of the business. That is no longer the case. The current business environment does not wait for companies to slowly adjust in an annual meeting. The relentless pace of change renders today's long-term future tomorrow's history. Rapid innovations and ever-increasing complexities limit executives' ability to make decisions with perfect information. Does this mean strategy is no longer useful, or even feasible? No. Good strategists are needed now more than ever. But today's high-performing organizations think of strategy differently than in the past. These companies make strategy part of every manager's role; they strategize continuously and tackle strategic problems through individuals from all parts of the organization. Strategy in this new, fast-paced world is about diagnosing the diverse array of complex challenges confronting organizations, deciding on novel solutions to address those challenges, and delivering by taking action on those solutions. Including a novel organizational framework and never-before-published application examples, Strategy in 3D helps build these foundational skills and prepares the reader for success as a strategist in the 21st century. It's no wonder descriptions of riding often resemble the words of Asian mystics and Jedi knights: The ride causes your senses to open completely. You experience only the present, the now. Readers who prefer revving a Harley to meditating in a Zen garden know that biking is just as contemplative as chanting in the lotus position. Here, philosopher-bikers explore this seeming dichotomy, expounding on intriguing questions such as: Why are the motorcycle real stars of Easy Rider? What would Marx and Foucault say about Harley riders' tight leather garb? What's it like to live a dual life as a philosophy professor who wrenches his own 1965 Electra Glide? Would Jesus hang out in a biker bar or a coffeehouse? And more importantly, would He ride a Harley or a Honda? These witty, provocative essays give readers and riders a new appreciation of what it means to become one with the road. Tattoo is about how customer zealots are inspired. The book makes a compelling business case for companies of all sizes to create customer advocates (customers who go out and bring business to you). Using examples and interviews from Harley Davidson, Ritz Carlton, Starbucks, as well as several small businesses, Tattoo shows that fans are born from customer-focused, consistent actions by companies. It offers a blueprint for businesses to follow and shows that "customer advocacy" does not have to be expensive or complicated to be effective. The book gets its title from the surprising behavior of Harley Davidson motorcycle fans that tattoo their bodies with the Harley logo. Step-by-step, Tattoo explores how the company inspires its customers and employees with passion to create an experience that is so remarkable that they feel compelled to tell a story about their passion for the product. Tattoo makes the point that feeling special is a human experience--one that companies create. From the small business dry cleaners that sew a button on your clothes to the Ritz Carlton "experience," this book provides a wealth of examples and inspiration for the business owner or executive charged with growing the company. A book of vintage tattoo flash made by the tattoo supply company of tattooer Percy Waters. How did the Grateful Dead use its fanatical following to build a \$100 million brand that still thrives today? How did upstart Boston Beer Company--makers of Sam Adams--prevail over rival Anheuser-Busch without an advertising budget? And how did Iams create the premium pet food market and leap from \$16 million to \$600 million in sales in just fifteen years, while charging twice the price of competitor Ralston-Purina? The answer: radical marketing. In this fresh, provocative book, Sam Hill and Glenn Rifkin identify the marketing strategies that have enabled ten innovative companies to emerge as industry leaders. What do these organizations have in common? Each is in tune emotionally with its customer base, allowing them to glean superior marketing insight without spending millions of dollars. Each is more focused on the big picture--growth and expansion--rather than short-term profits. And, despite their current success, each started out with little more than a passion for their product. Engrossing, informative, and invaluable, Radical Marketing demonstrates how any company, large or small, can achieve unprecedented success through inventive and revolutionary tactics. Like other aspects of business, good advertising is the result of hard work and careful planning. Creating good advertising is an enormous challenge. Imaginative and refreshingly honest, Advertising and Integrated Brand Promotion, 3e continues the tradition of providing students with a solid understanding of advertising strategy. The table of contents is designed to follow the same process that advertising agencies follow. Around town, Cadeon Morris was known as trouble. He rode a Harley, owned a tattoo shop, and inked the local motorcycle club. He was who he was and explained himself to no one. Stella was the daughter of Mickey "Scars" Lore, President of the MC in the town of Reckless. She was used to the members of the MC threatening and scaring off any guy who showed interest in her. But at twenty-three, she wanted to experience life for herself, go wild, and do something she may regret later. It was time for Stella to get a little ink of her own, and Cadeon was going to be the man to give it to her. Getting it on with a bad boy sounded like a pretty good way to let loose, and it was only meant to be temporary. But it seemed Cadeon wasn't all about a one-night stand kind of fling. He wanted it all. He wanted Stella. Reader note: This was previously published under the same title. It has since been recovered, reedited, and revised. Material may be sensitive to some readers. Batman is at his most vulnerable following a massive dose of an experimental new Joker toxin. With the Dark Knight haunted by demons and visions, it's up to Harley Quinn to protect him while he recovers--because Punchline is on her way! DIV Anyone who rides a motorcycle lives, to some degree, in the margins of society. Where members of the herd drive Toyota Camrys and hipster hatchbacks, bikers opt for Harley-Davidsons, Triumphs, and Ducatis, putting themselves out there like raised middle fingers thrust at the ordinary citizens of the world. And just as a motorcyclist's ride is an affront to the sensibilities of the meek and the conventional, so too is the ink on his or her skin. Tattoos have long been an integral part of this culture, the result of the overwhelming number of ex-military men who formed the nucleus of the postwar outlaw motorcycle club scene. These soldiers, sailors, and marines returned from war with statements etched in ink upon their bodies, and they continued that tradition when they formed the clubs that came to define motorcycle culture. In 1000 Biker Tattoos, motorcycle photographer Sara Liberte celebrates this most personal of art forms by capturing the wild abandon of the motorcycle lifestyle as expressed through tattoo work. Featuring 1,000 photos of tattoos and the artwork used to create them, along with profiles of the most renowned tattoo artists in the biker community, this book provides an unprecedented window into the most intimate aspect of motorcycle culture. /div There's no one quite like my big sister

American tattoo master Sailor Jerry Collins of Hawaii is best known for his remarkable tattoo designs, blending the fluidity of Asian motifs into classic American tattoo imagery. Here is a sizeable portion of Sailor Jerry's stencils, spanning from the 1940s to the 1970s, and including pin-ups, roses, bluebirds, hearts and banners and Jerry's infamous military/political cartoons. The value of the stencils is included, with descriptions of stencils and their usage, and a glossary of tattoo terminology. "In this provocative work full of intriguing female characters from tattoo history, Margot Mifflin makes a persuasive case for the tattooed woman as an emblem of female self-expression." —Susan Faludi

Bodies of Subversion is the first history of women's tattoo art, providing a fascinating excursion to a subculture that dates back into the nineteenth-century and includes many never-before-seen photos of tattooed women from the last century. Author Margot Mifflin notes that women's interest in tattoos surged in the suffragist 20s and the feminist 70s. She chronicles: \* Breast cancer survivors of the 90s who tattoo their mastectomy scars as an alternative to reconstructive surgery or prosthetics. \* The parallel rise of tattooing and cosmetic surgery during the 80s when women tattooists became soul doctors to a nation afflicted with body anxieties. \* Maud Wagner, the first known woman tattooist, who in 1904 traded a date with her tattooist husband-to-be for an apprenticeship. \* Victorian society women who wore tattoos as custom couture, including Winston Churchill's mother, who wore a serpent on her wrist. \* Nineteenth-century sideshow attractions who created fantastic abduction tales in which they claimed to have been forcibly tattooed. "In Bodies of Subversion, Margot Mifflin insightfully chronicles the saga of skin as signage. Through compelling anecdotes and cleverly astute analysis, she shows and tells us new histories about women, tattoos, public pictures, and private parts. It's an indelible account of an indelible piece of cultural history." —Barbara Kruger, artist
