Legal Writing in Plain English Dec 06 2021 Admirably clear, concise, down-to-earth, and powerful-unfortunately, these adjectives rarely describe legal writing, whether in the form of briefs, opinions, contracts, or statutes. In Legal Writing in Plain English, Bryan A. Garner provides lawyers, judges,

paralegals, law students, and legal scholars sound advice and practical tools for improving their written work. The book encourages legal writers to challenge conventions and offers valuable insights into the writing process: how to organize ideas, create and refine prose, and improve editing skills. In essence, it teaches straight thinking—a skill inseparable from good writing. Replete with common sense and wit, the book draws on real-life writing samples that Garner has gathered through more than a decade of teaching in the field. Trenchant advice covers all types of legal materials, from analytical and persuasive writing to legal drafting. Meanwhile, Garner explores important aspects of document design. Basic, intermediate, and advanced exercises in each section reinforce the book's principles. (An answer key to basic exercises is included in the book; answers to intermediate and advanced exercises are provided in a separate Instructor's Manual, free of charge to instructors.) Appendixes include a comprehensive punctuation guide with advice and examples, and four model documents. Today more than ever before, legal professionals cannot afford to ignore the trend toward clear language shorn of jargon. Clients demand it, and courts reward it. Despite the age-old tradition of poor writing in law, *Legal Writing in Plain English* shows how legal writers can unshackle themselves. *Legal Writing in Plain English* includes: *Tips on generating thoughts, organizing them, and creating outlines. *Sound advice on expressing your ideas clearly and powerfully. *Dozens of real-life writing examples to illustrate writing problems and solutions. *Exercises to reinforce principles of good writing (also available on the Internet). *Helpful guidance on page layout. *A punctuation guide that shows the correct uses of every punctuation mark. *Model legal documents that demonstrate the power of plain English.

Mentor Texts Oct 24 2020 In their first edition of *Mentor Texts*, authors Lynne Dorfman and Rose Cappelli helped teachers across the country make the most of high-quality children's literature in their writing instruction. In *Mentor Texts: Teaching Writing Through Children's Literature, K-6, 2nd Edition* the authors continue to show teachers how to help students become confident, accomplished writers by using literature as their foundation. The second edition includes brand-new "Your Turn Lessons," built around the gradual release of responsibility model, offering suggestions for demonstrations and shared or guided writing. Reflection is emphasized as a necessary component to understanding why mentor authors chose certain strategies, literary devices, sentence structures, and words. Dorfman and Cappelli offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. The book is organized

around the characteristics of good writing--focus, content, organization, style, and conventions. The authors write in a friendly and conversational style, employing numerous anecdotes to help teachers visualize the process, and offer strategies that can be immediately implemented in the classroom. This practical resource demonstrates the power of learning to read like writers.

Writing With, Through, and Beyond the Text Nov 24 2020 Writing With, Through, and Beyond the Text: An Ecology of Language elaborates an understanding of writing, its influences on our interpretations of experience and identity, and its potential for enabling individuals to learn about and connect to the world beyond themselves. Rather than considering writing a process, the author describes it as a system, an ecology that engages the individual in a variety of socially constituted and interacting systems. The book examines the pedagogical and curricular implications of this approach to writing, considering what it means to write and teach writing in ways that understand and acknowledge the ecological character of writing. This is an illuminating text for a wide audience of faculty, professionals, and graduate students in English, writing, education, and women's studies/feminist theory.

Text and Image in Women's Life Writing Apr 29 2021 This book examines the relationship between words and images in various life-writing works produced by nineteenth to twenty-first century American and British women. It addresses the politics of images in women's life writing, contending that the presence or absence of images is often strategic. Including a range of different forms of life writing, chapters draw on traditional (auto)biographies, travel narratives, memoirs, diaries, autofiction, cancer narratives, graphic memoirs, artistic installations, quilts and online performances, as life writing moves from page to screen and other media. The book explores a wide range of women who have crossed the boundary between text and image: painters who have become writers, novelists who have become painters, writers who hesitate between images and words, models who seize the camera, and artists who use the frame as a page.

The Subversive Copy Editor Jan 27 2021 Each year writers and editors submit over three thousand grammar and style questions to the Q&A page at The Chicago Manual of Style Online. Some are arcane, some simply hilarious—and one editor, Carol Fisher Saller, reads every single one of them. All too often she notes a classic author-editor standoff, wherein both parties refuse to compromise on the "rights" and "wrongs" of prose styling: "This author is giving me a fit." "I wish that I could just DEMAND the use of the serial comma at all times." "My author wants his preface to come at the end of the book. This just seems ridiculous to me. I mean, it's not a post-face." In The Subversive Copy Editor, Saller casts aside this adversarial view and suggests new strategies for keeping the peace. Emphasizing habits of carefulness, transparency, and flexibility, she shows copy editors how to build an environment of trust and cooperation. One chapter takes on the difficult author; another speaks to writers themselves. Throughout, the focus is on serving the reader, even if it means breaking "rules" along the way. Saller's own foibles and misadventures provide ample material: "I mess up all the time," she confesses. "It's how I know things." Writers, Saller acknowledges, are only half the challenge, as copy editors can also make trouble for themselves. (Does any other book have an index entry that says "terrorists. See copy editors"?) The book includes helpful sections on e-mail etiquette, work-flow management, prioritizing, and organizing computer files. One chapter even addresses the special concerns of freelance editors. Saller's emphasis on negotiation and flexibility will surprise many copy editors who have absorbed, along with the dos and don'ts of their stylebooks, an attitude that their way is the right way. In encouraging copy editors to banish their ignorance and disorganization, insecurities and compulsions, the Chicago Q&A presents itself as a kind of alter ego to the comparatively staid Manual of Style. In The Subversive Copy Editor, Saller continues her mission with audacity and good humor.

***The World is a Text: Writing About Visual and Popular Culture* Nov 17 2022** Wherever we look today, popular culture greets us with "texts" that make implicit arguments; this book helps students to think and write critically about these texts. *The World Is a Text* teaches critical reading, writing, and argument in the context of pop-culture and visual examples, showing students how to "read" everyday objects and visual texts with basic semiotics. The book shows how texts of all kinds, from a painting to a university building to a pair of sneakers, make complex arguments through their use of signs and symbols, and shows students how to make these arguments in their own essays. This new edition is rich with images, real-world examples, writing and discussion prompts, and examples of academic and student writing. The first part of the book is a rhetoric covering argumentation, research, the writing process, and adapting from high-school to college writing, while the second part explores writing about specific cultural topics. Notes, instruction, and advice about research are woven into the text, with research instruction closely tied to the topic being discussed. New to the updated compact edition are chapters on fashion, sports, and nature and the environment.

***Handbook of Writing and Text Production* Jul 13 2022** Writing matters, and so does research into real-life writing. The shift from an industrial to an information society has increased the importance of writing and text production in education, in everyday life and in more and more professions in the fields of economics and politics, science and technology, culture and media. Through writing, we build up organizations and social networks, develop projects, inform colleagues and customers, and generate the basis for decisions. The quality of writing is decisive for social resonance and professional success. This ubiquitous real-life writing is what the present handbook is about. The de Gruyter Handbook of Writing and Text Production brings together and systematizes state-of-the-art research. The volume contains five sections, focussing on (I) the theory and methodology of writing and text production research, as well as on problem-oriented and problem-solving approaches related to (II) authors, (III) modes and media,

(IV) genres, and (V) domains of writing and text production. Throughout the 21 chapters, exemplary research projects illustrate the theoretical perspectives from globally relevant research spaces and traditions. Both established and future scholars can benefit from the handbook's fresh approach to writing in the context of multimodal, multi-semiotic text production.

Text and Tradition in Performance and Writing Dec 26 2020 "Embedded in modern print culture, biblical scholars have been projecting the assumptions and concepts of print culture onto the texts they interpret. In the ancient world from which those texts originate, however, literacy was confined to only a small number of educated scribes. And, as recent research has shown, even the literate scribes learned texts by repeated recitation, while the nonliterate ordinary people had little if any direct contact with written scrolls. The texts that had taken distinctive form, moreover, were embedded in a broader and deeper cultural repertoire cultivated orally in village communities as well as in scribal circles. Only recently have some scholars struggled to appreciate texts that later became ""biblical"" in their own historical context of oral communication. Exploration of texts in oral performance--whether as scribal teachers' instruction to their protŽgŽs or as prophetic speeches of Jesus of Nazareth or as the performance of a whole Gospel story in a community of Jesus-loyalists--requires interpreters to relinquish their print-cultural assumptions. Widening exploration of texts in oral performance in other fields offers exciting new possibilities for allowing those texts to come alive again in their community contexts as they resonated with the cultural tradition in which they were embedded."

Transforming Talk into Text—Argument Writing, Inquiry, and Discussion, Grades 6-12 Jun 12 2022 Author Thomas McCann invites readers to rethink their approach to teaching writing by capitalizing on students' instinctive desire to talk. Drawing on extensive classroom research, he shows teachers how to craft class discussions that build students' skills of analysis, problem-solving, and argumentation as a means of improving student writing. McCann demonstrates how authentic discussions immerse learners in practices that become important when they write. Chapters feature portraits of teachers at work, including transcripts that reveal patterns of talk across a set of lessons. Interviews with the teachers and samples of student writing afford readers a deeper understanding of process. Students also report on how classroom discussions supported their effort to produce persuasive, argument-driven essays. Book Features: A focus on "the thinking behind the practice," as opposed to a collection of lesson ideas. Connections to important elements from the Common Core State Standards, especially arguments writing. Examples of students at work with examples of the writing that emerges from their discussions. Portraits of skilled teachers as they promote inquiry and sequence and facilitate

discussions. Appendices with problem-based scenarios, interview questions for students and teachers, samples of debatable cases in the news, and more. “In this important book, Tom McCann has given us not only the admonition to change, but the details about what effective change must be and what it looks like, evidence that it works effectively, and details about how to bring it to pass.” —From the Foreword by George Hillocks, Jr., Professor Emeritus, Department of English, University of Chicago. “For a professional book to have an impact on the field, it needs to address a perceived need. Writing arguments for Common Core performance assessments is a HUGE need right now that this book helps address.” —Carol Jago, associate director, California Reading and Literature Project, UCLA.

Paul Auster's Writing Machine May 31 2021 Paul Auster is one of the most acclaimed figures in American literature. Known primarily as a novelist, Auster's films and various collaborations are now gaining more recognition. Evija Trofimova offers a radically different approach to the author's wider body of work, unpacking the fascinating web of relationships between his texts and presenting Auster's canon as a rhizomatic facto-fictional network produced by a set of writing tools. Exploring Auster's literal and figurative use of these tools ? the typewriter, the cigarette, the doppelgänger figure,

the city ? Evija Trofimova discovers Auster's "writing machine", a device that works both as a means to write and as a construct that manifests the emblematic writer-figure. This is a book about assembling texts and textual networks, the writing machines that produce them, and the ways such machines invest them with meaning. Embarking on a scholarly quest that takes her from between the lines of Auster's work to between the streets of his beloved New York and finally to the man himself, Paul Auster's Writing Machine becomes not just a critical investigation but a critical collaboration, raising important questions about the ultimate meaning of Auster's work, and about the relationship between texts, their authors, their readers and their critics.

Supporting Research Writing Aug 02 2021 Supporting Research Writing explores the range of services designed to facilitate academic writing and publication in English by non-native English-speaking (NNES) authors. It analyses the realities of offering services such as education, translation, editing and writing, and then considers the challenges and benefits that result when these boundaries are consciously blurred. It thus provides an opportunity for readers to reflect on their professional roles and the services that will best serve their clients' needs. A recurring theme is, therefore, the interaction between language professional and client-author. The book offers insights into the opportunities and challenges presented by considering ourselves first and foremost as writing support professionals, differing in our primary approach (through teaching, translating, editing, writing, or a combination of those) but with a common goal. This view has major consequences for the training of professionals who support English-language publication by NNES academics and scientists. Supporting Research Writing will therefore be a stimulus to professional development for those who support English-language publication in real-life contexts and an important resource for those entering the profession. Takes a holistic approach to writing support and reveals how it is best conceived as a spectrum of overlapping and interrelated professional activities Stresses the importance of understanding the real-world needs of authors in their quest to publish Provides insights into the approaches used by experienced practitioners across Europe
