[Mrs. Pollifax and the Second Thief](#) Aug 03 2021 The assignment is a snap: Mrs. Pollifax just has to shoot some pictures at a quiet funeral outside Washington and take them to Sicily, where her old friend Farrell -- a former CIA agent turned art dealer -- anxiously awaits them. But like all Mrs. P's assignments, so ostensibly suitable for the CIA's favorite garden club member, this one quickly turns lethal. Her welcoming committee in Palermo includes a most unlikely CIA agent and several unseen enemies. Unfriendly eyes also observe Mrs. P's rendezvous with Farrell in a secluded mountain village and weapons are soon displayed. With mysterious forces hot after them, she and Farrell scurry for safety to a fortified country villa, where the bizarre chatelaine, once a star on Madison Avenue, is almost as unnerving as the dangers she's protecting them from. So, though the sun shines brightly, the food is delicious, and romance is in the air, Mrs. Pollifax is too busy handing out karate chops and playing catch-me-if-you-can with an assassin to enjoy the amenities . . . "Mrs. Pollifax gives Agatha Christie's Miss Marple a rival to reckon with." -- The Toronto Star

It's a book for anyone who finds that doing things the official way is slower, less efficient, and less powerful because Windows Vista was designed from the ground up to avoid confusing novice users. The result is default settings that restrict flexibility, interminable wizards that turn two-step tasks into twelve-step sagas, and the hiding of

powerful and useful programs behind layers of menus and dialog boxes. To unleash the potential of Windows Vista, you need a different approach that blows away Vista's novice features and scorns the standard way of doing things. This book goes beyond the standard-issue techniques sanctioned by Microsoft and parroted in other Windows Vista books. Instead, this book offers shortcuts for boosting your productivity, customizations for making Windows Vista work the way you do, workarounds for known Windows Vista problems, and warnings for avoiding Windows Vista pitfalls. Along the way, you'll learn about all kinds of insider details, undocumented features, powerful tools, and background facts that help put everything into perspective. Learn what's new in Windows Vista Customize Windows Vista startup Troubleshoot software and hardware problems Tune Windows Vista's performance Automate Windows Vista with powerful and flexible scripts Implement Internet security and privacy features Configure and administer a small network Get the most out of Control Panel, group policies, the Registry, Device Manager, and other powerful tools Set up a complete maintenance program to keep Windows Vista running smoothly Discover a complete list of Windows Vista shortcut keys, a detailed look at the Command Prompt, and a batch file primer Master the new desktop search engine and learn how to group, stack, and filter files Understand and work with Windows Vista's User Account Control security feature Get the most out of your Tablet PC Take advantage of new Internet features such as RSS feeds, multiple home pages, and tabbed browsing Paul McFedries is the president of Logophilia Limited, a technical writing company. An Ancient Theory of Religion Aug 23 2020 An Ancient Theory of Religion examines a theory of religion put forward by Euhemerus of Messene (late 4th—early 3rd century BCE) in his lost work Sacred Inscription, and shows not only how and why euhemerism came about but also how it was— and still is—used. By studying the utilization of the theory in different periods—from the Graeco-Roman world to Late Antiquity, and from the Renaissance to the twenty-first century—this book explores the reception of the theory in diverse literary works. In so doing, it also unpacks the different adoptions and misrepresentations of Euhemerus's work according to the diverse agendas of the authors and scholars who have employed his theory. In the process, certain questions are raised: What did Euhemerus actually claim? How has his theory of the origins of belief in gods been used? How can modern scholarship approach and interpret his take on religion? When referring to 'euhemerism,' whose version are we employing? An Ancient Theory of Religion assumes no prior knowledge of euhemerism and will be of interest to scholars working in classical reception, religious studies, and early Christian studies.

And so the question has long remained: Who is Fitzwilliam Darcy? Pamela Aidan's trilogy finally answers that long-standing question, creating a rich parallel story that follows Darcy as he meets and falls in love with Elizabeth Bennet. *Duty and Desire*, the second book in the trilogy, covers the "silent time" of Austen's novel, revealing Darcy's private struggle to overcome his attraction to Elizabeth while fulfilling his roles as landlord, master, brother, and friend. When Darcy pays a visit to an old classmate in Oxford in an attempt to shake Elizabeth from his mind, he is set upon by husband-hunting society ladies and ne'er-do-well friends from his university days, all with designs on him -- some for good and some for ill. He and his sartorial genius of a valet, Fletcher, must match wits with them all, but especially with the curious Lady Sylvania. Irresistibly authentic and entertaining, *Duty and Desire* remains true to the spirit and events of *Pride and Prejudice* while incorporating fascinating new characters, and is sure to dazzle Austen fans and newcomers alike.

Et Tu, Babe Feb 15 2020 In this fiendishly original new novel, Mark Leyner is a leather-blazer-wearing, Piranha 793-driving, narcotic-guzzling monster who has potential rivals eliminated by his bionically enhanced bodyguards, has his internal organs tattooed, and eavesdrops on the erotic fantasies of Victoria's Secret models -- which naturally revolve around him. Leyner's jet-propelled roller derby through the cultures of celebrity, cyberpunk, and rabid egotism is exhilaratingly bizarre, exhaustingly funny -- and you'd better hope it's just fiction.

How Canadians Communicate IV Nov 06 2021 Substantial changes have occurred in the nature of political discourse over the past thirty years. Once, traditional media dominated the political landscape, but in recent years Facebook, Twitter, blogs and Blackberrys have emerged as important tools and platforms for political campaigns. While the Canadian party system has proved surprisingly resilient, the rhythms of political life are now very different. A never-ending 24-hour news cycle has resulted in a never-ending political campaign. The implications of this new political style and its impact on political discourse are issues vigorously debated in this new volume of *How Canadians Communicate*, as is the question on every politician's mind: How can we draw a generation of digital natives into the current political dialogue? With contributions from such diverse figures as Elly Alboim, Richard Davis, Tom Flanagan, David Marshall, and Roger Epp, *How Canadians Communicate IV* is the most comprehensive review of political communication in Canada in over three decades - one that poses questions fundamental to the quality of public life. David Taras holds the Ralph Klein Chair in media studies at Mount Royal University. He served as an expert advisor to the House of Commons Standing Committee on Canadian Heritage and co-edited the first two volumes in the *How Canadians Communicate* series. He is the co-author of *The Last Word: Media Coverage of the Supreme Court of Canada*. Christopher Waddell is director of the School of Journalism and Communication at Carleton University and holds the Carty Chair in business and financial journalism. He was formerly national editor for *The Globe and Mail* and Parliamentary bureau chief for CBC television news.
