[The History and Culture of Iran and Central Asia](#) May 02 2021

This volume examines the major cultural, religious, political, and urban changes that took place in the Iranian world of Inner and Central Asia in the transition from the pre-Islamic to the Islamic periods. One of the major civilizations of the first millennium was that of the Iranian linguistic and cultural world, which stretched from today ' s Iraq to what is now the Xinjiang Autonomous Region of China. No other region of the world underwent such radical transformation, which fundamentally altered the course of world history, as this area did during the centuries of transition from the pre-Islamic to the Islamic period. This transformation included the religious victory of Islam over Buddhism, Nestorian Christianity, and the other religions of the area; the military and political wresting of Inner Asia from the Chinese to the Islamic sphere of primary cultural influence; and the shifting of Central Asia from a culturally and demographically Iranian civilization to a Turkic one. This book contains essays by many of the preeminent scholars working in the fields of archeology, history, linguistics, and literature of both the pre-Islamic and the Islamic-era Iranian world, shedding light on some of the most significant aspects of the major changes that this important portion of the Asian continent underwent during this tumultuous era in its history. This collection of cutting-edge research will be read by scholars of

Middle Eastern, Central Asian, Iranian, and Islamic studies and archaeology. Contributors: D. G. Tor, Frantz Grenet, Nicholas Sims-Williams, Etsuko Kageyama, Yutaka Yoshida, Michael Shenkar, Minoru Inaba, Rocco Rante, Arezou Azad, Sören Stark, Louise Marlow, Gabrielle van den Berg, and Dilnoza Duturaeva.

Iran Apr 20 2020 In this unprecedented book, Hamid Dabashi provides a provocative account of Iran in its current resurrection as a mighty regional power. Through a careful study of contemporary Iranian history in its political, literary, and artistic dimensions, Dabashi decouples the idea of Iran from its colonial linkage to the cliché notion of “ the nation-state, ” and then demonstrates how an “ aesthetic intuition of transcendence ” has enabled it to be re-conceived as a powerful nation. This rebirth has allowed for repressed political and cultural forces to surface, redefining the nation ’ s future beyond its fictive postcolonial borders and autonomous from the state apparatus that wishes but fails to rule it. Iran ’ s sovereignty, Dabashi argues, is inaugurated through an active and open-ended self-awareness of the nation ’ s history and recent political and aesthetic instantiations, as it has been sustained by successive waves of revolutionary prose, poetry, and visual and performing arts performed categorically against the censorial will of the state.

Reconstructed Lives Oct 15 2019 Iranian women tell in their own words what the revolution attempted and how they responded. The Islamic revolution of 1979 transformed all areas of Iranian life. For women, the consequences were extensive and profound, as the state set out to reverse legal and social rights women had won and to dictate many aspects

of women's lives, including what they could study and how they must dress and relate to men. *Reconstructed Lives* presents Iranian women telling in their own words what the revolution attempted and how they responded. Through a series of interviews with professional and working women in Iran—doctors, lawyers, writers, professors, secretaries, businesswomen—Haleh Esfandiari gathers dramatic accounts of what has happened to their lives as women in an Islamic society. She and her informants describe the strategies by which women try to and sometimes succeed in subverting the state's agenda. Esfandiari also provides historical background on the women's movement in Iran. She finds evidence in Iran's experience that even women from "traditional" and working classes do not easily surrender rights or access they have gained to education, career opportunities, and a public role.

[Iran and Palestine](#) Apr 01 2021 Examining the nature of relations between Iran and Palestine, this book investigates the relationship between state and authorities in the Middle East. Analysing the connections of the Iranian revolutionary movements, both the Left and the Islamic camps' perspectives are scrutinized. To provide a historical background to the post-revolutionary period, the genealogy of pro-Palestinian sentiments before 1979 are traced additionally. Demonstrating the pro-Palestinian stance of post-revolutionary Iran, the study focuses on the causes of roots of the ideological outlook and the interest of the state. Despite a growing body of literature on the Iranian Revolution and its impacts on the region, Iran's connection with Palestine have been overlooked. This new volume fills the gap in the literature and enables readers to unpack the history of the two states. This unique and

comprehensive coverage of Iran and Palestine's relationship is a key resource for scholars and students interested in international relations, politics, Islamic and Middle East studies.

Drugs, Deviancy and Democracy in Iran Jun 22 2020 In the aftermath of the Iranian Revolution, the government of the Islamic Republic initiated a stringent anti-drug campaign that included fining addicts, imprisonment, physical punishment and even the death penalty. Despite these measures, drug use was, and is still, commonplace. Based on her most recent fieldwork, Janne Bjerre Christensen explores the mounting problems of drug use in Iran, how treatment became legalized in 1998, how local NGOs offer methadone treatment in Tehran and face continuous political challenges in doing so, and how drug use is critically discussed in Iranian media and cinema. Drugs, Deviancy and Democracy in Iran is thus a unique account of Iran's recent social and political history, drawing important conclusions about the complexity of state power, and the growing impact of civil society, vital for all those interested in Iran's history, politics and society.

Iran and the CIA Jan 22 2023 In the early 1950s, frail septuagenarian prime minister of Iran, Doctor Mohammad Mosaddeq, shook the world - challenging Britain by nationalizing Iran's British-run oil industries. In August 1953 he was overthrown. Revisiting these events with astonishing new evidence, this book challenges the conventionally-held theory of foul play by the CIA.

Europe and Iran Jan 30 2021 The EU's approach to Iran has emerged as one of the few successes of European foreign policy. Still, its role in international negotiations from 2003, as much as its broader approach to Iran, are generally poorly

appreciated by policy-makers in Europe, the United States, and around the world. This book aims to explain the specifics of the EU's approach to Iran, taking into account both the complexity of European foreign policy, in particular within transatlantic relations, and Iran's (aspired) place in the international order. It informs the reader about the special negotiation format that included a number of world powers as well as multilateral bodies such as the International Atomic Energy Agency (IAEA) and the UN Security Council. Furthermore, it provides an outlook on European post-nuclear deal strategies and offers conclusions on the effectiveness of Europe's multilateral approach to foreign policy. By looking at the EU's diplomatic activities towards Iran over more than a decade, the book focuses on Europe's actorness in international politics. This text will be of key interest to scholars, students and practitioners involved or interested in the European Union, Iran, U.S. foreign policy as well as Foreign and Security policy, including sanctions policy, and more broadly to European Politics, Middle East studies and international relations.

Iran and the Deccan Nov 20 2022 In the early 1400s, Iranian elites began migrating to the Deccan plateau of southern India. Lured to the region for many reasons, these poets, traders, statesmen, and artists of all kinds left an indelible mark on the Islamic sultanates that ruled the Deccan until the late seventeenth century. The result was the creation of a robust transregional Persianate network linking such distant cities as Bidar and Shiraz, Bijapur and Isfahan, and Golconda and Mashhad. *Iran and the Deccan* explores the circulation of art, culture, and talent between Iran and the Deccan over a three-hundred-year period. Its interdisciplinary contributions consider

the factors that prompted migration, the physical and intellectual poles of connectivity between the two regions, and processes of adaptation and response. Placing the Deccan at the center of Indo-Persian and early modern global history, Iran and the Deccan reveals how mobility, liminality, and cultural translation nuance the traditional methods and boundaries of the humanities.

Black Wave Dec 09 2021 A New York Times Notable Book of 2020 “ [A] sweeping and authoritative history” (The New York Times Book Review), Black Wave is an unprecedented and

ambitious examination of how the modern Middle East unraveled and why it started with the pivotal year of 1979. Kim Ghattas seamlessly weaves together history, geopolitics, and culture to deliver a gripping read of the largely unexplored story of the rivalry between Saudi Arabia and Iran, born from the sparks of the 1979 Iranian revolution and fueled by American policy. With vivid story-telling, extensive historical research and on-the-ground reporting, Ghattas dispels accepted truths about a region she calls home. She explores how Sunni Saudi Arabia and Shia Iran, once allies and twin pillars of US strategy in the region, became mortal enemies after 1979. She shows how they used and distorted religion in a competition that went well beyond geopolitics. Feeding intolerance, suppressing cultural expression, and encouraging sectarian violence from Egypt to Pakistan, the war for cultural supremacy led to Iran's fatwa against author Salman Rushdie, the assassination of countless intellectuals, the birth of groups like Hezbollah in Lebanon, the September 11th terrorist attacks, and the rise of ISIS. Ghattas introduces us to a riveting cast of characters whose lives were upended by the geopolitical drama over four decades: from the Pakistani television anchor who defied her country's dictator, to the Egyptian novelist thrown in jail for indecent writings all the way to the murder of journalist Jamal Khashoggi in the Saudi consulate in Istanbul in 2018. *Black Wave* is both an intimate and sweeping history of the region and will significantly alter perceptions of the Middle East.

[Israel Vs. Iran](#) Jul 24 2020 The shadow war between Israel and Iran has been raging for more than three decades, ever since the Iranian revolution of 1979 ushered in a

fundamentalist regime whose sworn enemies have consistently included, first and foremost, Israel and the United States. Israel, especially, has borne the brunt of attacks from Iran's two most powerful proxies— Hamas in the Gaza Strip and Hezbollah in Lebanon. Iran's nuclear ambitions raise the stakes immeasurably. Israel vs. Iran evaluates the threat to Israel's security posed by a nuclear Iran, including competing perceptions of the threat, and analyzes Israel's military and diplomatic options. Drawing on in-depth research and invaluable access to the Israeli defense establishment, including interviews with key decision makers, Israeli military correspondent Yaakov Katz and Israeli military historian Yoaz Hendel describe behind-the-scenes Israeli strategic military deliberations and intelligence analysis since the Second Lebanon War of 2006. The authors focus on pivotal military events in this shadow war with Iran, including the Syrian reactor bombing and Operation Cast Lead in the Gaza Strip, as well as assassinations of key Hezbollah operatives, Iranian nuclear scientists, and Syrian officials. Assassinations, computer viruses, and Western sanctions might not be enough to stop Iran, the authors argue. They outline the choice Israel faces: launch a military strike, which could lead to an all-out regional war, or tacitly accept a nuclear Iran, which would lead to a new balance of power in the Middle East. In 2012 Israel appears closer than ever to making a decision.

Iran, the Untold Story Apr 13 2022 A leading Arab journalist provides an inside look at events in Iran, presents portraits of the Shah and Khomeini, and offers insight into the significance of Iran in relation to developments in the Middle East

The Last Shah Jul 16 2022 The surprising story of Iran's

transformation from America's ally in the Middle East into one of its staunchest adversaries "An original interpretation that puts Iranian actors where they belong: at center stage."--Michael Doran, Wall Street Journal "For the clearest view of Iran for the last 100 years, this book is it."--Marvin Zonis, author of *Majestic Failure: The Fall of the Shah* Offering a new view of one of America's most important, infamously strained, and widely misunderstood relationships of the postwar era, this book tells the history of America and Iran from the time the last shah, Mohammad Reza Pahlavi, was placed on the throne in 1941 to the 1979 revolution that brought the present Islamist government to power. This revolution was not, as many believe, the popular overthrow of a powerful and ruthless puppet of the United States; rather, it followed decades of corrosion of Iran's political establishment by an autocratic ruler who demanded fealty but lacked the personal strength to make hard decisions and, ultimately, lost the support of every sector of Iranian society. Esteemed Middle East scholar Ray Takeyh provides new interpretations of many key events--including the 1953 coup against Prime Minister Mohammad Mossadeq and the rise of Ayatollah Ruhollah Khomeini--significantly revising our understanding of America and Iran's complex and difficult history.

Inside Iran Sep 18 2022 U.S. relations with Iran have been fraught for decades, but under the Trump Administration tensions are rising to startling levels. Medea Benjamin, one of the best-known 21st century activists, offers the incredible history of how a probable alliance became a bitter antagonism in this accessible and fascinating story. In 1979, the Iranian Revolution brought a full-scale theocracy to the 80 million

inhabitants of the Middle East's second largest country, with. The rule of the ayatollahs opened the door to Islamic fundamentalism. In the decades since, bitter relations have persisted between the U.S. and Iran. Yet how is it that Iran has become the primary target of American antagonism over nations like Saudi Arabia, whose appalling human rights violations fail to depose it as one of America's closest allies in the Middle East? In the first general-audience book on the subject, Medea Benjamin elucidates the mystery behind this complex relationship, recounting the country's history from the pre-colonial period to its emergence as the one nation Democrats and Republicans alike can unite in denouncing. Benjamin has traveled several times to Iran, and uses her firsthand experiences with politicians, activists, and everyday citizens to provide a deeper understanding of the complexities of Iranian society. Tackling common misconceptions about Iran's system of government, its religiosity, and its citizens' way of life, Benjamin makes short work of the inflammatory rhetoric surrounding U.S.-Iranian relations, and presents a realistic and hopeful case for the two nations' future.

[A Social Revolution](#) May 22 2020 For decades, political observers and pundits have characterized the Islamic Republic of Iran as an ideologically rigid state on the verge of collapse, exclusively connected to a narrow social base. In *A Social Revolution*, Kevan Harris convincingly demonstrates how they are wrong. Previous studies ignore the forceful consequences of three decades of social change following the 1979 revolution. Today, more people in the country are connected to welfare and social policy institutions than to any other form of state organization. In fact, much of Iran ' s current political

turbulence is the result of the success of these social welfare programs, which have created newly educated and mobilized social classes advocating for change. Based on extensive fieldwork conducted in Iran between 2006 and 2011, Harris shows how the revolutionary regime endured through the expansion of health, education, and aid programs that have both embedded the state in everyday life and empowered its challengers. This first serious book on the social policies of the Islamic Republic of Iran opens a new line of inquiry into the study of welfare states in countries where they are often overlooked or ignored.

Iran and the United States Oct 19 2022 Richard Cottam served in the U.S. embassy in Tehran from 1956 to 1958 and was consulted by the Department of State during the 1979 hostage crisis. This book draws upon his expert personal knowledge of Iranian politics to describe the spiraling decline of U.S.-Iranian relations since the cold war and the political consequences of those years U.S. policy, he argues, is flawed by ignorance, inertia, the tenacity of a cold war mentality, a quixotic tilt toward Iraq, and the blatant inconsistency of the Reagan administration's arms-for-hostages scheme that produced the Iran-contra scandal.

Europe and Iran Nov 08 2021 The EU ' s approach to Iran has emerged as one of the few successes of European foreign policy. Still, its role in international negotiations from 2003, as much as its broader approach to Iran, are generally poorly appreciated by policy-makers in Europe, the United States, and around the world. The Iran Primer Dec 21 2022 A comprehensive but concise overview of Iran's politics, economy, military, foreign policy, and nuclear program. The volume chronicles U.S.-Iran relations under six American presidents and probes five options for dealing with Iran. Organized thematically, this book provides top-level briefings by 50 top experts on Iran (both Iranian and Western authors) and is a practical and accessible "go-to" resource for practitioners, policymakers, academics, and students, as well as a fascinating wealth of information for anyone interested in understanding Iran's pivotal role in world politics.

The Secret War with Iran Oct 07 2021 For twenty-six years, Iran has waged an international terrorist war while the intelligence services of the West, led by Mossad and the CIA, have waged a relentless, mostly clandestine counter-jihad in

return. Though Iran has become a quietly looming threat, little has been revealed about this intelligence-based war. Now, Ronen Bergman, Israel's leading reporter and analyst of intelligence affairs, has written a full account of this secret war. He connected the dots of the long history of Iranian backed terrorist attacks, and revealed for the first time many classified operations against the Iranian terrorist network, including details about collaborations between Israel's Mossad and the CIA and FBI; thrilling Mossad operations, the successful recruitment of top insiders of Iranian intelligence, who have disclosed a wealth of information about Iran's nuclear program as well as its terrorist activities; and the use of ultra-sophisticated surveillance equipment to penetrate and damage Iranian targets. From the Iranian proxy Hizbollah's planning of terrorists attacks from apartments in New York City, to Iran's training of an army of work Iraqi insurgents in the techniques of suicide bombing and the making of improvised explosive devises, he showed Iran has steadily waged war against the West.

Confronting Iran Nov 15 2019 In 2002, George W. Bush famously referred to Iran as a member of the "axis of evil." The fierce rhetoric highlights the persistent antagonism between the two nations. The standoff has taken on renewed urgency with election of hard-line conservative Mahmoud Ahmadinejad as Iran's new president and his bold resumption of the country's nuclear program. Will Iran be the next front in America's war on terror? Iran expert Ali Ansari sets the current crisis in the context of a long history of mutual antagonism. Despite the absence of formal diplomatic relations, Iran and the U.S. have loomed large in each other's domestic politics for decades.

From the overthrow of Mosaddeq in 1953 to the hostage crisis in 1979 and, more recently, the Gulf War and the War in Iraq, both Iranian and American politicians have forged narratives about an "evil empire" lying half a world away. This mutual mistrust has militated against détente between the two nations--and may ultimately lead to war. An authoritative account of failed foreign policy, this book will be essential reading for anyone seeking to understand this explosive region.

**The Syrian Conflict** Oct 27 2020 This book explores the global impact of the Syrian conflict, and the roles of Russia, Iran and the US in its wake. It looks closely at origins of political turmoil in the Middle East and North Africa (MENA) region by analysing the growing influence of Russia and Iran - militarily, economically and diplomatically - juxtaposed against US defense and national interests. The book: challenges the conventional scholarship to show how non-democratic states such as Russia, Iran and China exhibit a consistent strategic intent in their foreign-policy-making; underlines the convergence of Syrian foreign policy with Russia's (the USSR before 1989) and Iran's regional outlook post-1979; takes stock of the shifts in the US foreign policy in MENA in light of new realities. Drawing on detailed fieldwork and archival material, including National Security Archival documents, this book is a tour de force in understanding global politics and contemporary history. It will be indispensable to scholars and researchers of politics and international relations, political theory, foreign policy, Middle East studies, and peace and conflict studies.

**Iran, the Green Movement and the USA** Aug 05 2021 Iran, the Green Movement and the USA presents the paradox that the

USA faces in dealing with Iran over its nuclear armament: negotiate, and legitimize Ahmadinejad ' s otherwise troubled presidency; resort to sanctions or military strikes, and altogether destroy the budding civil rights campaign of the Green Movement. Either way, as leading Iranian scholar Hamid Dabashi argues, the Islamic Republic will become even stronger. Featuring a short history of how the USA and Iran came to be in this confrontation, this elegantly written book provides the reader with a dynamic picture of the regional geopolitics and a purposeful guide to how to understand and deal with it.

Target Iran Aug 25 2020 A former United Nations weapons inspector exposes the Bush administration's plans to wage war against Iran, revealing the government's efforts to exaggerate Iran's alleged nuclear weapons program, in an account that also discusses how Iran is seen by the United Kingdom and Israel.

America and Iran Aug 17 2022 "A history of the relationship between Iran and America from the 1700s through the current day"--

Iran Feb 11 2022 The Western media, in particular, has cast Iran variously as an outlaw country or an outcast but seldom as a normal country, as least since the demise of the Shah or Iran. The United States doesn't cotton to countries falling out of its sphere of influence, particularly if they happen to possess substantial oil reserves, as Iran does, and contain important listening posts on Russia. Add to that a fundamentalist Muslim regime, and the result is an outlaw or outcast label. Yet, could Iran perhaps represent the wave of the future for Muslim countries? Does the label itself tell more about the labellers

than about Iran? This book presents papers which present facets of Iran's political activities which might not normally reach Western readers.

The Struggle for Development in Iran Feb 17 2020 This book provides a multidimensional analysis of Iran's struggle for development between 1970 and 2020, focusing on fundamentals, institutions, and socioeconomic trends. The past several decades in Iran have been a period of sluggish and noninclusive economic growth, ill-fated social engineering with an Islamic template, political repression, and extensive environmental degradation. The intellectual discourse surrounding the impediments of growth in Iran has been dominated by an exaggerated notion of the role of ideology, class struggles, imperialism, and historical contingencies, overlooking the profound impacts of institutions and fundamental socioeconomic trends. This book aims to fill this gap using positive economics and data-driven analysis to cover a wide array of topics, such as governance, corruption, macroeconomy, population dynamics, labor, financial systems, energy, water scarcity, and food security. Illustrating clearly the complex interactions among different dimensions of Iran's development, this book will be essential for researchers, policy makers, and journalists.

The Iran Agenda Today Mar 20 2020 Based on frequent, first-hand reporting in Iran and the United States, The Iran Agenda Today explores the turbulent recent history between the two countries and reveals how it has led to a misguided showdown over nuclear technology. Foreign correspondent Reese Erlich notes that all the major U.S. intelligence agencies agree Iran has not had a nuclear weapons program since at least 2003.

He explores why Washington nonetheless continues with saber rattling and provides a detailed critique of mainstream media coverage of Iran. The book further details the popular protests that have rocked Tehran despite repression by the country's Deep State. In addition to covering the political story, Erlich offers insights on Iran's domestic politics, popular culture, and diverse populations over this recent era. His analysis draws on past interviews with high-ranking Iranian officials, the former shah's son, Reza Pahlavi, and Iranian exiles in Los Angeles, as well as the memory of his trip to Tehran with actor Sean Penn. Written in skillful and riveting journalistic prose, *The Iran Agenda Today* provides inside information that academic researchers find hard to obtain.

China and Iran Dec 29 2020 Iran's nuclear aspirations increasingly dominate its relations with the United States and Europe. China remains one of Iran's strongest allies on the Security Council, and also its most likely supplier of technology and assistance, built on decades of close economic and military relations. Iran is enjoying strong new influence in the Middle East and Asia following record oil profits and Shi'i victories in Iraqi parliamentary elections. Like Iran, China fought for decades to increase its self-reliance and geopolitical influence after painful experiences under European colonialism, which spurred nationalist revolutions. *With China and Iran: Ancient Partners in a Post-Imperial World*, John Garver breaks new ground on the relationship between the People's Republic of China and the Islamic Republic of Iran. Grounding his survey in the twin concepts of civilization and power, Garver explores the relationship between these two ancient and proud peoples, each of which consider the other a

peer and a partner in their mutual determination to build a post-Western-dominated Asia. Successive governments of both China and Iran have recognized substantial national capabilities in each other, capabilities that allow the countries to achieve their own national interests through cooperation. These interests have varied - from countering Soviet expansionism to resisting U.S. unilateralism - but the cooperative relationship between the two nations has remained constant. In his compelling analysis, Garver explores the evolution of Sino-Iranian relations through several phases, including Iran under the shah and before the 1979 revolution; from the 1979 revolution to 1989, a year marked both by the end of the Iran-Iraq war and the beginning of conflict in Sino-U.S. relations; and from 1989 to 2004. *China and Iran* includes discussion of the current debates at the International Atomic Energy Agency over Iran's nuclear programs and China's role in assisting these programs and in supporting Iran in international debates. Garver examines China's involvement in Iran's efforts to modernize its military, including China's offer of weapons, capital goods, and engineering services in exchange for Iranian oil, suggesting links between this energy exchange and China's support for Iran in political arenas. In today's political climate, where China is recognized as a rising and increasingly influential global power and Iran as one of the most powerful nations in the Middle East, this book presents a crucial analysis of a topic of utmost importance to scholars and the general public today.

Confronting Iran May 14 2022 Iran refuses to relent in developing nuclear technology, despite U.N. sanctions. Rumors persist that Israel is drawing up plans for military

strikes. Neither the emboldened Iranian president Mahmoud Ahmadinejad nor the embattled President Bush has relented in his war of words. How did we get here? Iran expert Ali Ansari sets the current crisis in the context of a long history of mutual antagonism. From the overthrow of Mosaddeq in 1953 to the hostage crisis in 1979 and, more recently, the Gulf War and the War in Iraq, both Iranian and American politicians have forged conflicting narratives about an “evil empire” lying half a world away—resulting in a mutual mistrust that may ultimately lead to war.

*Bitter Friends, Bosom Enemies* Mar 12 2022 With lucid analysis and engaging storytelling, USA Today senior diplomatic correspondent Barbara Slavin portrays the complex love-hate relationship between Iran and the United States. She takes into account deeply imbedded cultural habits and political goals to illuminate a struggle that promises to remain a headline story over the next decade. In this fascinating look, Slavin provides details of thwarted efforts at reconciliation under both the Clinton and Bush presidencies and opportunities rebuffed by the Bush administration in its belief that invading Iraq would somehow weaken Iran's Islamic government. Yet despite the dire situation in Iraq, the Bush administration appears to be building a case for confrontation with Iran based on the same three issues it used against Saddam Hussein's regime: weapons of mass destruction, support for terrorism, and repression of human rights. The U.S. charges Iran is supporting terrorists inside and outside Iraq and is repressing its own people who, in the words of U.S. officials, "deserve better." Slavin believes the U.S. government may be suffering from the same lack of understanding and foresight

that led it into prolonged warfare in Iraq. One of the few reporters to interview Iranian president, Mahmoud Ahmadinejad, as well as his two predecessors and scores of ordinary Iranians, Slavin gives insight into what the U.S. government may not be taking into account. She portrays Iran as a country that both adores and fears America and has a deeply rooted sense of its own historical and regional importance. Despite government propaganda that portrays the U.S. as the "Great Satan," many Iranians have come to idolize staples of American pop culture while clinging to their own traditions. This is clearly not a relationship to be taken a face value. The interplay between the U.S. and Iran will only grow more complex as Iran moves toward becoming a nuclear power. Distrustful of each other's intentions yet longing at some level to reconcile, neither Tehran nor Washington know how this story will end.

Kurds and the State in Iran Jul 04 2021 In early 1946, Kurds declared an independent republic in north-west Iran. The Mahabad Republic, as it became known, was the first time that the Kurds experienced self-rule in the modern era. Although short-lived, the Republic had a formative influence on the subsequent development of Kurdish nationalist movements in Iran and the wider region. Here, Abbas Vali disputes the conventional view that the Kurdish Republic was the result of a Soviet conspiracy to dismember Iran, a side-effect of the Cold War. Instead he emphasizes the diversity of the internal Iranian and Kurdish factors that led to the formation of the Republic, arguing that the Republic represents the culmination of a new and modern Kurdish national identity. This was an identity which emerged in response to the exclusionary effects of the

political and discursive processes and practices of the construction of a modern Iranian nation-state and national identity since the Constitutional Revolution of 1906, which often excluded and attempted to override a Kurdish one. Vali contends that this process, largely due to the socio-economic and cultural impact of the rule of Pahlavis, in reality forced the Kurdish people of Iran to form and reinforce their own ethno-linguistic and ethno-national community. The expressions of this separate identity can be traced through the formation and dissolution of Kurdish national parties, such as the Kurdistan Democratic Party of Iran (KDPI). 'Kurds and the State in Iran' offers an analysis of the formation and effects of the concepts of the state, the nation, nationalism and ethnic identity, which go beyond current ethnicist and constructivist theories, thus making it essential reading for anyone interested in the Kurds or the development of national and state identities in the Middle East.

The Political Economy of EU Ties with Iraq and Iran Jun 03 2021 This book analyzes the failure of the EU's peace-through-trade policy in Iraq and Iran between 1979 and 2009 from a theoretical and empirical perspective. The author adds to the trade-peace theory debate and provides evidence supporting the need to review the EU's peace-through-trade-policy towards Iraq and Iran, and in general.

The Military in Post-revolutionary Iran Jun 15 2022 Iran's Revolutionary Guard Corps, also known as the 'Sepah', has wielded considerable and increasing power in Iran in recent decades. Established in 1979 as a paramilitary organisation to protect the nascent Islamic regime and counter the untrustworthy Imperial army, the Sepah has evolved into one of

the most powerful political, ideological, military and economic players in Iran over recent years. This book provides a comprehensive overview of the Sepah and its role in Iranian state and society. Contemporary Iran can only be fully understood by an awareness of ongoing in-fighting among regime factions and increasing popular demands for social change - knowing about the Sepah is central to this.

Persian Historiography and Geography Jan 18 2020 The role played by the Persian language in the context of the Islamic world of learning, literature and scholarship, especially in parts of the Muslim lands under Persian cultural influence, has often been overlooked. While what is generally known of Persian writing covers mostly only certain aspects of mystical poetry, such as those by Maulana Rumi, Sa'di or Hafiz, less is

understood about the richness of travel literature, geography or historiography written in this language. Even more astonishing is that the Persian language had virtually been the lingua franca of the educated Muslims in Central Asia and Muslim India as well, and this partly up to the early twentieth century! Even in the Malay world, famous mystics, such as Hamzah Fansuri, used to have a thorough knowledge of Persian.
