Loose-leaf Version for Choices & Connections May 31 2021 Based on decades of teaching experience combined with the latest in research and communication theory, Steve McCornack and Joseph Ortiz's *Choices & Connections* helps students to transform their lives and become more adaptive and versatile communicators by revealing the connections that underlie all communication choices—and by showing how the outcomes students experience are rooted in the communication choices they make. Captivating students from page one, *Choices & Connections* weaves together a variety of topics into a unified view of communication, highlighted by built-in

study tools and a variety of news, pop culture, and real-life examples.

Making Connections Feb 20 2023 Meadow takes us on a Cook's tour of communication technologies across time—the alphabet and moveable type printing, cave drawings and carrier pigeons, telephones, television and, of course, the Internet. In each case, Meadow shows how these (and other devices) are connected to each other, even as they serve to make connections between people. Part One discusses the basics of communications, while Part Two delves into telecommunications before the days of steam and electricity. Part Three offers insight into steam, electricity, and internal combustion energy and how they revolutionized society. Communication is the key to a productive world. For those dazzled by the pace of change in the technology or McLuhan's unorthodox but brilliant insights, Meadow's casual style and pace provide the perfect antidote.

The Gender Communication Connection Sep 22 2020 The authors explore the many ways that gender and communication intersect and affect each other. Every chapter encourages a consideration of how gender attitudes and practices, past and current, influence personal notions of what it means not only to be female and male, but feminine and masculine. The second edition of this student friendly and accessible text is filled with contemporary examples, activities, and exercises to help students put theoretical concepts into practice.

Keep Your Love On Aug 02 2021 Keeping your love on. It's a hard thing to do. Sometimes it's the hardest thing to do. But if you want to build healthy relationships with God and others, learning to keep your love on is non-negotiable. Adults and children alike thrive in healthy relationships where it is safe to love and be loved, to know and be known. Yet for many, relationships are anything but safe, loving, or intimate. They are defined by anxiety, manipulation, control, and conflict. The reason is that most people have never been trained to be powerful enough to keep their love on in the face of mistakes, pain, and fear. **Keep Your Love On** reveals the higher, Jesus-focused standard defined by mature love--love that stays 'on' no matter what. Danny Silk's practical examples and poignant stories will leave you with the power to draw healthy boundaries, communicate in love, and ultimately protect your connections so you can love against all odds. As a result, your relationships will be radically transformed for eternity. When you learn to keep your love on, you become like Jesus.

The Sciences' Media Connection –Public

Communication and its Repercussions May 19 2020

The Yearbook addresses the overriding question: what are the effects of the 'opening up' of science to the media? Theoretical considerations and a host of empirical studies covering different configurations provide an in-depth analysis of the sciences' media connection and its repercussions on science itself. They help to form a sound

judgement on this recent development.

Making the Connections Nov 17 2022 Annotation

Employees often find fatal disconnects between their organization's business strategy and its communication strategythere's no clear link between the information that is sent to them and what they're supposed to understand from it. The role of internal communication, writes Quirke (a UK-based consultant), is "to illuminate the connections between different pieces of information, to shine a light on the web of interdependencies ... to provide the information to do the job, but [also] to paint the bigger picture and tell the fuller story that puts the information into context." His book helps managers understand what a successful business needs from its people, what gets in the way, and the role of communication in helping bridge the gap. Annotation c. Communication May 11 2022 "No man is an island," so the cliché goes. These days, no man could be an island even he wanted to -- the phone, fax, pager, or computer would somehow find his address and "get in touch." These advances in communication are just a technological means of fulfilling a very basic need of all people -- the need for human contact and social interaction. Communication is about connecting, linking, sharing, participating, bonding, coupling, or joining with others, proving that humans cannot exist and survive in isolation. This book provides the basis for understanding how and why relationships develop and dissolve, and how

communication has changed in recent years. This book introduces readers to the field of communication and the connection of communication to their lives, their education, and their careers. Focusing on the notion of "making connections," this book strives to help readers understand the role communication plays in their daily lives and the value of communication skills. Throughout the book, readers see how diversity, ethics, and technology relate to communication and to their lives as a whole. The "making connections" theme is evident within every chapter through the careful weaving of how communication connects to every text concept and discussion. Communication specialists, debaters, speech writers, instructors of speech communication, and anyone interested in this field.

Communicate to Connect Feb 14 2020 By introducing classic, foundational interpersonal communication frameworks and key interpersonal communication theories, *Communicate to Connect: Interpersonal Communication for Today's Relationships* provides students with vital information regarding how humans interact and build, maintain, and dissolve relationships with one another. The book begins with chapters that define communication and introduce verbal communication and nonverbal communication. Additional chapters underscore the importance of listening, present common social roles and expectations related to communication, and provide guidance to increase

message effectiveness and persuasion. Students learn about attachment and communication; secrets, self-disclosure, and privacy; maintaining long-distance relationships; the internet as a means of social support; and relationship dissolution, including the processes of hurt, anger, and forgiveness. Concluding chapters speak to organizational and workplace communication, family relationships, and cultural differences in interpersonal communication. Each chapter features a lab assignment that instructs students to participate in real-world observations and activities that foster connections between theory and application. Addressing topics that resonate with and serve the needs of modern undergraduate students, *Communicate to Connect* is an exemplary resource for foundational courses in interpersonal communication, close relationships, and relational communication. Elizabeth Dorrance Hall, Ph.D. is a communication researcher and social scientist. She is an assistant professor of communication at Michigan State University and a director of the Family Communication and Relationships Lab. Dr. Dorrance Hall holds a Ph.D. in family and interpersonal communication from Purdue University. Her research focuses on difficult conversations and how close relationships evolve over time. Dr. Dorrance Hall has authored numerous articles on interpersonal communication for *Communication Research*, *Health Communication*, *Family Relations*, *Journal of Social and Personal Relationships*, *Journal of*

Family Communication, and Communication Monographs, to name a few.

The Art of Communicating Jan 15 2020 Zen master Thich Nhat Hanh, bestselling author of *Peace is Every Step* and one of the most respected and celebrated religious leaders in the world, delivers a powerful path to happiness through mastering life's most important skill. How do we say what we mean in a way that the other person can really hear? How can we listen with compassion and understanding? Communication fuels the ties that bind, whether in relationships, business, or everyday interactions. Most of us, however, have never been taught the fundamental skills of communication—or how to best represent our true selves. Effective communication is as important to our well-being and happiness as the food we put into our bodies. It can be either healthy (and nourishing) or toxic (and destructive). In this precise and practical guide, Zen master and Buddhist monk Thich Nhat Hanh reveals how to listen mindfully and express your fullest and most authentic self. With examples from his work with couples, families, and international conflicts, *The Art of Communicating* helps us move beyond the perils and frustrations of misrepresentation and misunderstanding to learn the listening and speaking skills that will forever change how we experience and impact the world.

Critical connections : communication for the future.

Aug 14 2022

Connect Relate Motivate Jul 21 2020 Communication has become one of the most puzzling paradoxes of our time. We live in a world that is hyper-connected; more plugged in, tuned in and turned on than ever before. Yet, social science confirms that more and more people feel isolated and disconnected from their communities and families. They feel overworked, underpaid, misunderstood and alone. This book is a fresh approach to tackle modern communication challenges, written for today's time poor reader; easily consumed in one sitting (one flight), or one night! This book is a holistic approach to professional and personal communication that will be a significant support in the boardroom, the living room and also the classroom. Despite the capability to be 'in touch' 24/7, many people are disengaged and disillusioned. Business leaders know the struggle to engage and empower a workforce that clocks in, then checks out. Parents know the challenges to connect with teenagers who text better than they talk! And how do you answer the most challenging question every partner dreads: "If you loved me you would know what's wrong?" These are all painful experiences that this book delivers proactive solutions to connect (and protect) these important relationships through better communication. This is vital if you are a business leader, parent or in a loving relationship. This book is a 'map for leaders' who want to harness the power of communication to influence their projects, their ideas, their teams and clients; for parents

that seek better relationships with their kids and or loved ones. In this book you will discover in seven easy to read chapters: Compelling reasons to get great at communicating. A path to incredible personal growth.

Ignition Mar 17 2020 Ignition is a book of dispatches from the frontlines of communication strategy. Matthew L. Moseley draws on his eclectic life experiences to investigate the link between success and effective communication. Whether he's choreographing a fine dining experience at the top restaurant in America, using rock stars to register voters, helping a national chain save its reputation after a gaffe goes viral, or serving as media liaison at the epic ash-blast send-off for author Hunter S. Thompson, Moseley identifies the principles that guide communication strategies toward their goals. In extensive interviews with a wide variety of experts, including authors, fighter pilots, business leaders, politicians, and astrophysicists, Moseley tests these principles, teases out new, provocative ideas, and anticipates how forming stronger connections will help us address today's greatest challenges. Though it tackles serious subjects, offers an illuminating perspective on the evolution of human discourse, and shares important insights on interpersonal relations, Ignition is also a good, fun read. A broad range of colorful anecdotes gives this book of philosophical wisdom and practical advice the zest of a juicy memoir.

Reasoning, Communication And Connections In Mathematics: Yearbook 2012, Association Of

Mathematics Educators Feb 25 2021 This fourth volume in the series of yearbooks by the Association of Mathematics Educators in Singapore entitled Reasoning, Communication and Connections in Mathematics is unique in that it focuses on a single theme in mathematics education. The objective is to encourage teachers and researchers to advance reasoning, communication and connections in mathematics classrooms. Several renowned international researchers in the field have published their work in this volume. The fifteen chapters of the book illustrate evidence-based practices that school teachers and researchers can experiment with in their own classrooms to bring about meaningful learning outcomes. Three major themes: mathematical tasks, classroom discourse, and connectivity within and beyond mathematics, shape the ideas underpinning reasoning, communication and connections in these chapters. The book makes a significant contribution towards mathematical processes essential for learners of mathematics. It is a good resource for mathematics educators and research students.

Follow, Communicate, Lead Apr 29 2021 Leadership and followership communication are two sides of the same coin; just as sand and water are needed for a beach, leadership and followership are necessary for effective organizational functioning. Because today's organizations include followers who act as leaders, leaders who need to know when to step back and be followers, and people

whose work lives transfer fluidly between leader and follower, this book helps students become knowledgeable about, and capable of, adapting to a wide variety of communication situations. Competent leaders and followers adapt to the context and recognize the consequences for everyone involved. Follow, Communicate, Lead connects theory and practice to illustrate competent communication practices are a direct result of cross-disciplinary theories. Case studies provide real-world examples dealing with culture, diversity and inclusion, ethics, power, and social influence. Discussion questions, self-assessments, and activities further develop readers' competencies and ability to view communicative situations with a new perspective. Follow, Communicate, Lead is ideal for courses in leadership, applied communication, training, and organizational behavior.

Living Nonviolent Communication Apr 17 2020 You're about to have an uncomfortable meeting with your boss. The principal just called about your middle-schooler. You had a fight with your partner and it's an hour before bed. You know your next move will go a long way toward defining your relationships with these individuals. So what do you do? We all find ourselves in situations similar to these and too often resort to the same old patterns of behavior—defending our need to be right, refusing to really listen, speaking cruelly out of anger and frustration, or worse. But there is another way. *Living Nonviolent Communication* gives you practical training in

applying Dr. Marshall Rosenberg's renowned process in the areas he has most often been asked for counsel:
Conflict resolution Working with anger Spiritual practice
Healing and reconciliation Loving relationships Raising children
Nonviolent Communication has flourished for four decades across 35 countries for a simple reason: it works. Now you can learn to activate its healing and transformational potential, with Living Nonviolent Communication.

The Art of Communication Jan 27 2021 Bring nuance, depth, and meaning to every conversation you have The Art of Communication is for anyone who senses that they could be communicating on a deeper level. Perhaps you are a confident communicator but suspect there may be more to the art of conversation that you have not yet been able to access. Or perhaps you feel that your conversations lack depth and meaning and that you'd like to enrich your relationships with others, if only you knew how. This book will address your concerns and show you how to engage wholeheartedly with others. There's more to conversation than just clear, rational thinking. Left-brain rationality is important, of course, but neuroscience increasingly shows that the right-brain skills of creativity, intuition and spontaneity are essential in good communication. In this guide, you'll discover ways of tapping into the full conversational potential that lies dormant within you, adding a level of nuance and watching the result as your relationships blossom. You

may even find that untapped value in the form of new insights, ideas and creative thoughts, emerges from your daily conversations. Access the more nuanced arts of conversation to create strong connections and tangible results Build cross-disciplinary, cross-cultural connections to communicate effectively with people from different backgrounds Activate your whole mind — not just your intellect — to bring creativity and depth to communication Learn to be open-hearted, spontaneous, vulnerable, intuitive, and captivating in every conversation you hold From communication guru and bestselling author Judy Apps, *The Art of Communication* will show you how to breathe life into your relationships and produce powerful new thinking enabling you to transform the world you live in.

Can You Hear Me? Oct 04 2021 Communicating virtually is cool, useful, and becoming more universal every day. But the actual communication is often quite bad. Indeed, everyone agrees that the quality of human connection we feel in virtual meetings, email, and other forms of virtual communication is awful. Worse than boring, virtual communication very often leads to misunderstandings, because it deprives us of the emotional knowledge that helps us understand context. How can we fix this? A key problem is that we are busy trying to replicate the experience of a face-to-face

meeting in the virtual world, assuming the same rules apply. That is a big mistake. We need to shift our focus and energy to a new challenge, unique to the virtual era. As communication expert Nick Morgan argues in this essential book, recent research suggests that we need to learn to consciously deliver a whole set of cues, both verbal and nonverbal, that we used to deliver unconsciously in the previrtual era. Indeed, we need to update all our rules of connection for the virtual sphere, rethinking them from the beginning and avoiding the mistake of assuming that they are inherently similar to face-to-face connections. *Can You Hear Me?* explains and guides you through this important process, describing what the current research reveals about what works and what doesn't in virtual communications, and creating a new set of rules and practical tips for how to connect with people--your team, your audience, your organization--when you can't be physically present. If you work or manage in an organization that has more than one office or customers who aren't nearby, *Can You Hear Me?* is your essential communications manual for twenty-first-century work.--

The Gender Communication Connection Nov 24 2020

The third edition of this classic text helps readers consider the myriad ways gendered attitudes and practices influence communication in our personal and professional interactions. Written in an engaging style, with a wide array of exercises designed to challenge and interest

readers in applying what they learn, the book integrates research with examples from contemporary life related to gender and culture, race, class, and media. Among new topics covered in this edition are multiple genders, gender activism and the #MeToo movement, and challenges of twenty-first-century masculinities and femininities, including expanded coverage of contemporary male issues. Fresh coverage is also afforded to each communication context, particularly gender at work, the legal and political spheres, global cultures, and the digital world, including social media. The book is ideally suited for undergraduate courses in gender and communication within communication studies, sociology, and business departments. Online resources include lecture slides and an instructor's manual.

Making Connections Jun 12 2022 The fourth edition of Making Connections has been updated, expanded, and reorganized to reflect the changing field of relational communication. New essays address emerging topics--including anti-comforting messages, friendship in urban tribes, and discourse-dependent families--while a new section on the "dark side" of communication features articles on such topics as lying and irresolvable conflicts. Three new essays in the technology section reflect current thinking on Internet-based interpersonal relationships; communication norms in an online support group; and how student use of technology challenges existent communication theories. This edition also adds a

complete subject index and is accompanied by an Instructor's Manual. Continuing the successful tradition and framework of previous editions, the fourth edition of *Making Connections*: * Employs the "lenses" of gender, family, and culture to view and make sense of relational communication * Offers a well-rounded discussion of the links between basic communication competencies and relationships * Features a developmental approach in terms of initiating, sustaining, and ending relationships * Reflects direct applications of relational issues within contexts of family, friendship, and technology * Explores issues relating to computer-mediated communication and new technologies in everyday life

Media and Communication in Nigeria Dec 14 2019

Communication is changing rapidly around the world, particularly in Africa, where citizens are embracing digital technologies not only to improve not only interpersonal communication but also the state of their financial well-being. This book investigates these transformations in Nigeria's booming communication industry. The book traces communications in Nigeria back to pre-colonial indigenous communications, through

the development of telecommunication, broadcasting networks, the press, the Nigerian film industry ('Nollywood') and on to the digital era. At a time when Western voices still dominate the academic literature on communication in Africa, this book is noteworthy in drawing almost exclusively on the expertise of Nigerian-based authors, critiquing the discipline from their own lens and providing an important contribution to the decolonisation of communication studies. The authors provide a holistic analysis of the sector, encompassing print journalism, broadcast journalism, public relations, advertising, film, development communication, organisational communication and strategic communication. Analysis of the role of digital technologies is woven throughout the book, concluding with a final section theorising the future of communication studies in Nigeria in the light of the digital media revolution. Robust in its theoretical and methodological underpinnings, this book will be an important reference for researchers of media and communication studies, and those working on Africa specifically.

Working through Surveillance and Technical Communication Nov 12 2019 What is surveillance, and

why should we care? Why are those who use technology susceptible to being both agents and targets of contemporary surveillance practices? *Working Through Surveillance and Technical Communication* addresses these questions, discussing what it means to engage in surveillance, examining why this participation may be problematic, and offering entry points into assessing one's ethical and socially just involvement with surveillance. Further, the book suggests ways to resist both individually and collectively, and it offers pedagogical entry points for those looking to talk about surveillance with others. Led by the central questions, "How are technical communicators also surveillance workers?" and "Why does this matter for technical communication and surveillance scholarship?" the text uses the example of Edward Snowden to illustrate how technical communicators and surveillance workers exist on an often-overlapping range. Sarah Young highlights the potentially discriminatory nature of surveillance and argues that recognizing and evaluating surveillance is increasingly important in a data-driven world.

The Teen's Guide to Face-to-Face Connections in a Screen-to-Screen World Jul 01 2021 What if your phone truly helped you connect with people more than disconnect with those around you? You CAN dare to be relationally different in a screen-to-screen culture. But. . .honestly, I like my phone. So what should I do? You probably enjoy screens but don't want them hurting your

relationships with the people who matter most, right? What if you could improve your face-to-face relationships, develop deeper connections, resolve conflict, and confidently communicate with friends, parents, teachers, roommates, coworkers, potential employers...even the barista at your local coffee shop? What if you paused to think before you posted, avoiding some of the hurt and consequences that almost always lead to regret after? What if you became a master of your own screen-time instead of letting it master you? What if you became more screen-wise? 40 real-life realizations including. . . * Your phone doesn't have an UNSEND button. *Texting is a dumb way to manage conflict. * We all need a digital detox every once in a while. * Sometimes less is more. * Phones are a great tool for connecting with people outside of the room when they don't interfere with the people inside the room * Sometimes the people we love the most are the people we ignored all day. Author and youth culture expert, Jonathan McKee, and his daughter Alyssa McKee, uncover forty random realizations they've discovered over the last five years. Screens provide fun platforms to connect with faraway friends; and sometimes the people we love the most are the people we ignore all day. Jonathan and Alyssa help young adults navigate face-to-face communication in a screen-to-screen world too! Maybe they'll help you navigate face-to-face communication in a screen-to-screen world too!

Connections and Inclusions Sep 15 2022 This book presents different aspects of intercultural communication research as they connect to and intersect with sub-disciplines such as media studies, communication education, international communication, rhetorical studies, gender and sexuality studies, popular culture, and organizational communication. Intercultural communication (IC) scholars in the CSCA region have often been questioned, and sometimes challenged, by scholars who have claimed that the Midwest is not an ideal locale for studying communication across cultures and among people from varying cultural backgrounds. However, over the years, scholars have established that intercultural communication is an important area of scholarship in the Midwest (and beyond), and that the region offers plenty of opportunities for studying the intersections of cultural perspectives in communication, ranging from racial and ethnic discrimination to the adaptation process of international students and from immigrant experiences to issues in queer cultures. Because IC research does not exist in isolation, and it is always connected to larger frameworks or theoretical approaches within communication studies, the contributors in this book address how IC scholarship informs other areas of research and how IC scholars use the concepts and theoretical lenses of IC research to examine issues outside of IC. Although the focus is mainly on IC scholarship within the CSCA region, the

scope of the book extends beyond this regional boundary as well. This book was originally published as a special issue of Communication Studies.

Human Connection at Work; How to use the principles of Nonviolent Communication in a professional way Jun 19 2020 Nowadays people expect to be treated well when they go to the dentist, the supermarket or when they are connecting with their IT-support. If they are not they might turn to someone else the next time they need that service or product. Being professional and staying human might be the biggest competitive advantage of our time. It is said that the cost of attracting a new customer is six times the cost of keeping an old one. This book clarifies how you can be professional and human at the same time. Actually the author claims that it is only when you are truly human that you can be professional. Communication tools for many different kinds of situations. Support in dealing with "difficult people" or challenging dilemmas. Plenty of useful ideas that can be implemented directly. And much more...
