*Pearl in the Brain The Pearl of the Côte*

*A Pearl in the Brain Nov 19 2019 ". . . riveting story about science and faith. . ." --Thomas Lovejoy, Ph.D., Senior Fellow, UN Foundation*

*As a scientist and man of faith, Bruce agonized over his nightmarish diagnosis of a terminal brain tumor. Glioblastoma is the deadliest brain cancer, a death sentence. Faced with likely extinction, Bruce began an uncertain pilgrimage without any helpful guide except for spotty medical articles, heady conversations with specialists, and rampant misinformation. He wrote his book to address this dearth of detail about a killer disease with rising incidence. He tells his story with light humor, hope-filled wonderment, and soul-driven resolve despite the odds of survival. He playfully combines science, spirituality, a Southern upbringing, and world travels as he scales this mountain of challenge. *A Pearl in the Brain* is relevant to healthcare practitioners, academics and scientists, theologians, cancer survivors, and general readers concerned about how lifestyle and*

environment shape our health and spiritual well-being.

*The Most Beautiful Woman in Florence Jun 26 2020 "In the tradition of Tracy Chevalier's Girl with a Pearl Earring, Palombo has married fine art with romantic historical fiction in this lush and sensual interpretation of Medici Florence, artist Sandro Botticelli, and the muse that inspired them all." - Booklist A girl as beautiful as Simonetta Cattaneo never wants for marriage proposals in 15th Century Italy, but she jumps at the chance to marry Marco Vespucci. Marco is young, handsome and well-educated. Not to mention he is one of the powerful Medici family's favored circle. Even before her marriage with Marco is set, Simonetta is swept up into Lorenzo and Giuliano de' Medici's glittering circle of politicians, poets, artists, and philosophers. The men of Florence—most notably the rakish Giuliano de' Medici—become enthralled with her beauty. That she is educated and an ardent reader of poetry makes her more desirable and fashionable still. But it is her*

acquaintance with a young painter, Sandro Botticelli, which strikes her heart most. Botticelli immediately invites Simonetta, newly proclaimed the most beautiful woman in Florence, to pose for him. As Simonetta learns to navigate her marriage, her place in Florentine society, and the politics of beauty and desire, she and Botticelli develop a passionate intimacy, one that leads to her immortalization in his masterpiece, *The Birth of Venus*. Alyssa Palombo's *The Most Beautiful Woman in Florence* vividly captures the dangerous allure of the artist and muse bond with candor and unforgettable passion.

*Beyond Price* Sep 29 2020 Man has been intrigued by the origin of pearls, sensitive to their beauty, & convinced of their medicinal value for at least five millennia. A mixture of folklore & observation preceded the earliest scientific inquiries. Fishing & trade commenced in southern Asia, between India & Sri Lanka & around the Persian Gulf. In Western & Central Europe, Inner Asia & China, & North America, freshwater pearls

were probably known & treasured before those of marine origin. R.A. Donkin combines written sources with the results of archaeological & philological research. A refined nomenclature lends support to other evidence pointing to long familiarity, & etymologically related words for 'pearl'- reflecting former trading connections or colonization. Pearls were prominent among the luxury products which, for many centuries, the West associated with the legendary East & South; conversely, the Chinese looked to the West & South. From the opening of the Age of Discoveries & for the next two & a half centuries marine pearls were high among the objectives of expeditions to the eastern & western Tropics. The often remote centers of demand were affluent & culturally advanced societies where dealers & purchasers exercised fine judgment in matters of shape & color & iridescence, as they continue to do today. *Beyond Price: Pearls & Pearl-Fishing*, organized both chronologically & by region is called by reviewer, James Parsons, "the crowning achievement of a world-class

*scholar....The folklore regarding pearls has created an endlessly imaginative literature, here analyzed meticulously." The book is enhanced with over 100 maps & illustrations.*

*Inside a Pearl Sep 22 2022 Edmund White was forty-three years old when he moved to Paris in 1983. He spoke no French and knew just two people in the entire city, but soon discovered the anxieties and pleasures of mastering a new culture. White fell passionately in love with Paris, its beauty in the half-light and eternal mists; its serenity compared with the New York he had known. Intoxicated and intellectually stimulated by its culture, he became the definitive biographer of Jean Genet, wrote lives of Marcel Proust and Arthur Rimbaud. Frequent trips across the Channel to literary parties in London begot friendships with Julian Barnes, Alan Hollinghurst, Martin Amis and many others. When he left, fifteen years later, to return to the US, he was fluent enough to broadcast on French radio and TV, and as a journalist had made the acquaintance of everyone from Yves St Laurent to Catherine*

*Deneuve to Michel Foucault. He'd also developed a close friendship with an older woman, Marie-Claude, through whom he'd come to a deeper understanding of French life. *A Pearl in the Storm* Nov 24 2022 "In the end," writes Tori McClure, "I know I rowed across the Atlantic to find my heart, but

*in the beginning, I wasn't aware that it was missing." During June 1998, Tori McClure set out to row across the Atlantic Ocean by herself in a twenty-three-foot plywood boat with no motor or sail. Within days she lost all communication with shore, but nevertheless she decided to keep going. Not only did she lose the sound of a friendly voice, she lost updates on the location of the Gulf Stream and on the weather. Unfortunately for Tori, 1998 is still on record as the worst hurricane season in the North Atlantic. In deep solitude and perilous conditions, she was nonetheless determined to prove what one person with a mission can do. When she was finally brought to her knees by a series of violent storms that nearly killed her, she had to signal for help and go home in what felt like complete disgrace. Back in Kentucky, however, Tori's life began to change in unexpected ways. She fell in love. At the age of thirty-five, she embarked on a serious relationship for the first time, making her feel even more vulnerable than sitting alone in a tiny boat in the middle of the*

Atlantic. She went to work for Muhammad Ali, who told her that she did not want to be known as the woman who "almost" rowed across the Atlantic Ocean. And she knew that he was right. In this thrilling story of high adventure and romantic quest, Tori McClure discovers through her favorite way—the hard way—that the most important thing in life is not to prove you are superhuman but to fully to embrace your own humanity. With a wry sense of humor and a strong voice, she gives us a true memoir of an explorer who maps her world with rare emotional honesty.

Joshua Pearl comes from a world that we no longer believe in — a world of fairy tale. He knows that his great love waits for him there, but he is stuck in an unfamiliar time and place — an old-world marshmallow shop in Paris on the eve of World War II. As his memories begin to fade, Joshua seeks out strange objects: tiny fragments of tales that have already

been told, trinkets that might possibly help him prove his own story before his love is lost forever. Sarah Ardizzone and Sam Gordon translate the original French into a work both luminous and layered, enabling Timothée de Fombelle's modern fairy tale to thrum with magic. Brimming with romance and history, mystery and adventure, this ode to the power of memory, storytelling, and love will ensnare any reader's imagination, and every reader's heart.

coloring books each give you a stage in the artistic process: underdrawing and underpainting. Get the best for the coloring you love, or get both and become a master! In this art coloring book: A Warm Welcome to the World of Art Coloring! In 1666, Johannes Vermeer labored in his studio to create some of the greatest compositions in human history, filling them with the best colors available to him. Now, with your pens, pencils, pastels and paints, you have in your pocket shades Vermeer could only dream of, and your own eye for color. Grab your chance to collaborate with him: fill these compositions with your colors and your eye; make them live again, and create amazing artworks that span the centuries. A Colorist's Guide: Using the artist's method of 'hatching' and 'cross-hatching', a pattern of parallel lines shows light shading areas, and a pattern of diamonds shows dark shading areas - 'light on lines, dark on diamonds'. until you have filled the frame with color - every stroke is part of your journey with great art, and your hand has traced the same contours of genius that Vermeer's did in 1666. Few have such a connection to great composition, so pick some great colors and make some great art! 36

*This volume will mark the first time Johannes Vermeer's iconic painting will be seen in the Southeast. The painting headlines the exhibition, which highlights the artistic genius of Dutch Golden Age painters, including Vermeer, Rembrandt van Rijn, Frans Hals and Jan Steen, through the presentation of more than 35 exceptional works. Through landscapes and portraits, this book will explore the idea that Dutch artists more readily embraced paintings of everyday subjects than their southern European contemporaries, focusing on capturing commonplace scenes of daily life. Dutch artists not only recorded representations of the domestic interior, still lifes and boisterous crowds, but often imbued these scenes with moral undertones and humorous, sarcastic wit. ArtCurious May 06 2021 A wildly entertaining and surprisingly educational dive into art history as you've never seen it before, from the host of the beloved ArtCurious podcast We're all familiar with the works of Claude Monet, thanks in no small part to the ubiquitous reproductions of his water lilies on umbrellas, handbags, scarves, and dorm-room posters. But did you also know that Monet and his cohort were trailblazing rebels whose works were originally deemed unbelievably ugly and vulgar? And while you probably know the tale of Vincent van Gogh's suicide, you may not be aware that there's pretty compelling evidence that the artist

didn't die by his own hand but was accidentally killed--or even murdered. Or how about the fact that one of Andy Warhol's most enduring legacies involves Caroline Kennedy's moldy birthday cake and a collection of toenail clippings? ArtCurious is a colorful look at the world of art history, revealing some of the strangest, funniest, and most fascinating stories behind the world's great artists and masterpieces. Through these and other incredible, weird, and wonderful tales, ArtCurious presents an engaging look at why art history is, and continues to be, a riveting and relevant world to explore.
