Case for Christ Student Ed Padded Jan 14 2022 Who Was Jesus? A good man? A lunatic? God? There's little question that he actually lived. But miracles? Rising from the dead? Some of the stories you hear about him sound like just that--stories. A reasonable person would never believe them, let alone the claim that he's the only way to God! But a reasonable person would also make sure that he or she understood the facts before jumping to conclusions. That's why Lee Strobel--an award-winning legal journalist with a knack for asking tough questions--decided to investigate Jesus for himself. An atheist, Strobel felt certain his findings would bring Christianity's claims about Jesus tumbling down like a house of cards. He was in for the surprise of his life. Join him as he retraces his journey from skepticism to faith. You'll consult expert testimony as you sift through the truths that history, science, psychiatry, literature, and religion reveal. Like Strobel, you'll be amazed at the evidence--how much there is, how strong it is, and what it says. The facts are in. What will your verdict be in The Case for Christ?

Gods at War Student Edition Sep 22 2022 In this student edition of *Gods at War*, Kyle Idleman, bestselling author of *Not a Fan*, shares the powerful next step in becoming a completely committed follower of Jesus: recognizing and letting God defeat the gods at war within us--the false gods battling to rule our hearts.

Writing and Rhetoric Book 1: Fable Jan 26 2023 The *Writing & Rhetoric* series method employs fluent reading, careful listening, models for imitation, and progressive steps. It assumes that students learn the best by reading excellent, whole-story examples of literature and by growing their skills through imitation. Each exercise is intended to impart a skill (or tool) that can be employed in all kinds of writing and speaking. The exercises are arranged from simple to more complex. What's more, the exercises are cumulative, meaning that later exercises incorporate the skills acquired preceding exercises. This series is a step-by-step apprenticeship in the art of writing and rhetoric. *Fable*, the first book in the *Writing & Rhetoric* series, teaches students the practice of close reading and comprehension, summarizing a story aloud and in writing, and amplification of a story through description and dialogue. Students learn how to identify different kinds of stories; determine the beginning, middle, and end of stories; recognize point of view; and see analogous situations, among other essential tools. The *Writing & Rhetoric* series recovers a proven method of teaching writing, using fables to teach beginning writers the craft of writing well.

Principles of Comparative Politics Feb 21 2020 Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.

The Circle Maker Aug 29 2020 With over one million copies sold, New York Times bestseller *The Circle Maker* is a must-read for revolutionizing your prayer life. Get ready to experience new breakthroughs, knowing that bold prayers honor God and God honors bold prayers. Do you ever sense that there's far more to prayer than what you're experiencing? Are you praying over your impossible dreams and greatest fears? Do you feel like something is holding you back in your prayer life? It's time you learned from the legend of Honi the Circle Maker. When his land was drought-stricken in ancient times, Honi ha-M'agel drew a circle in the sand, stepped inside it, and wouldn't budge until God answered his petition for rain. Honi's story transformed author Mark Batterson's own experience with prayer and inspired him to document his journey to praying more powerful prayers in *The Circle Maker*. Sharing inspiring stories from modern-day circle makers as well as his own experiences, Mark imparts the timeless wisdom and encouragement you need to: Discern God's will for your life Uncover your heart's hidden desires Pursue God-sized dreams Connect with God in fresh ways Deepen your faith and your relationship with prayer Draw prayer circles around your family, your community, your challenges, and your dreams This updated and expanded edition of *The Circle Maker* also includes new insights about the ways that God answers prayer along with stories that add convincing proof to the reality that God is able to do exceedingly far greater than all we could ask or imagine. Learn for yourself that drawing prayer circles around our dreams isn't just a way that we accomplish great things for God--it's a way that God accomplishes great things in us.

Computer Age Statistical Inference, Student Edition Oct 31 2020 The twenty-first century has seen a breathtaking expansion of statistical methodology, both in scope and influence. 'Data science' and 'machine learning' have become familiar terms in the news, as statistical methods are brought to bear upon the enormous data sets of modern science and commerce. How did we get here? And where are we going? How does it all fit together? Now in paperback and fortified with exercises, this book delivers a concentrated course in modern statistical thinking. Beginning with classical inferential theories - Bayesian, frequentist, Fisherian - individual chapters take up a series of influential topics: survival analysis, logistic regression, empirical Bayes, the jackknife and bootstrap, random forests, neural networks, Markov Chain Monte Carlo, inference after model selection, and dozens more. The distinctly modern approach integrates methodology and algorithms with statistical inference. Each chapter ends with class-tested exercises, and the book concludes with speculation on the future direction of statistics and data science.

AHA Feb 15 2022 We've all had "aha!" moments in our lives, times when a sudden revelation surprises us with insight. According to pastor and bestselling author Kyle Idleman, we can experience this same kind of "aha!" in our spiritual lives.

With everyday examples and trademark testimonies, Idleman draws on Scripture to reveal how three key elements can draw us closer to God and change our lives for good. Awakening to the reality of our true spiritual condition, we see ourselves and our need for a Savior with renewed honesty. This realization leads to action, obeying God's commands and following the example set by Christ. As we see in the transformation of the prodigal son, the result is a life-changing, destiny-altering collision—an AHA moment that leads us home to our loving Father.
