The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873) When asked to compare the practice of medicine today to that of a hundred years ago, most people will respond with a story of therapeutic revolution: back then we had few effective remedies, now we have more (and more powerful) tools to fight disease. In this version of history, medicine was made modern--and effectual--by medicines. The aim of Therapeutic Revolutions is to challenge the linearity of this historical narrative, provide a thicker explanation of the process of therapeutic transformation, and explore the complex relationships between medicines and social change. Working on three continents and touching upon the lived experiences of patients and physicians, consumers and providers, marketers and regulators, the contributors to this volume together reveal the tensions between universal claims of therapeutic knowledge and the specificity of local sites in which they are put into practice, asking, collectively: what is revolutionary about therapeutics? Lee Robert Jackson's ability to detect spoken lies by the odor emitting from the speaker brings a rush of federal agents to Farmers Mill in an effort to hire the young farmer or to prevent him from being used against their agencies. Seedy characters mingle with FBI agents and CIA operatives in a battle of wits. Fear of lie detecting creates conspiracies from the White House to Congress. Bureaucrats fear the orderly function of their activities hangs in the balance. Jackson must earn money to regain Four Oaks, Lucy Crabtree's family farm before the fiery redhead will agree to marry him. CIA's beautiful McCoy twins set a trap for him as Sherry, the judge's daughter initiates a campaign of her own to acquire Four Oaks for herself. In this humorous collection of stories about incidents that occurred in and around gas stations, the author captures moments in time that tells the American story about our fascination and love for gas stations. With the advent of the horseless carriage at the beginning of the 20th century, the mass production of the Model T, and the hunger of the American public for this new form of transportation, gas stations sprung up all over the country to satisfy the thirst of these new contraptions. With the end of World War II came an unprecedented demand by the American public for new automobiles, gas stations to service them, and highway systems to accommodate this craze.

Americans are a mobile society who love their vehicles, and the broad expanse of our great nation demanded high performance, luxury, and looks for their vehicles. The automobile liberated the average American, and our country would never be the same. As the reader turns the pages of this book, it won't be long before he or she is reminiscing about his or her own experiences in and around that great American Establishment, the gas station, and that's what the author intended for this book to be all about. It also is a tribute to the men and women who fought in World War II and preserved the freedoms that we enjoy today in this great country. So what are you waiting for America? Crank her up, and let's get started on this journey back in time. This volume considers how media firms, as well as entire industries, exist and persist over time despite what often seems to be intense competition for such resources as audiences and advertisers. Addressing competition within and among media organizations and industries, including broadcasting, cable, and the Internet, author John W. Dimmick studies the media industries through the niche theory lens, developed by bioecologists to explain competition and coexistence. He examines the targets of the different media--audience, advertisers, money--and how they compete, using examples from a variety of studies. Each chapter incorporates relevant economic constructs into the analytic framework. This approach includes the use of economics of scale to explain selection and firm mortality in newspapers and movie theaters; the application of the transaction costs concept to explicate the rise of advertising agencies; the employment of the strategic group concept in analyzing the niche breadth strategy; and the measurement of gratifications-utilities. A comprehensive overview of the determinants of media competition and coexistence, *Media Competition and Coexistence: The Theory of the Niche* offers unique insights for scholars, students, researchers, and practitioners in media economics, management, and business.

Poor Donut is feeling anxious. School is about to start again, and Donut can't stop all sorts of worries from filling her round donut head. She's tired of her friends and family saying, "Don't worry!" As if it's that easy! Can her new friend, Cookie, help her find ways to manage her anxiety? This book starts with the foundations of business success: the development of a business philosophy that works for you, and the strategic application of that philosophy in all areas of your endeavor.

th th Mars, the Red Planet, fourth planet from the Sun, forever linked with 19 and 20 Century fantasy of a bellicose, intelligent Martian civilization. The romance and excitement of that fiction remains today, even as technologically sophisticated -botic orbiters, landers, and rovers seek to unveil Mars' secrets; but so far, they have yet to find evidence of life. The aura of excitement, though, is justified for another reason: Mars is a very special place. It is the only planetary surface in the Solar System where humans, once free from the bounds of Earth, might hope to establish habitable, self-sufficient colonies. Endowed with an insatiable drive, focused motivation, and a keen sense of -ploration and adventure, humans will undergo the extremes of physical hardship and danger to push the envelope, to do what has not yet been done. Because of their very nature, there is little doubt that humans will in fact conquer Mars. But even earth-bound extremes, such those experienced by the early polar explorers, may seem like a walk in the park compared to future experiences on Mars.

Race, place, and identity in a changing urban America Over the last five decades, South Los Angeles has undergone a remarkable demographic transition. In *South Central Dreams*, eminent scholars Pierrette Hondagneu-Sotelo and Manuel Pastor follow its transformation from a historically Black neighborhood into a predominantly Latino one, providing a fresh, inside look at the fascinating—and constantly changing—relationships between these two racial and ethnic groups in California.

Drawing on almost two hundred interviews and statistical data, Hondagneu-Sotelo and Pastor explore the experiences of first- and second-generation Latino residents, their long-time Black neighbors, and local civic leaders seeking to build coalitions. Acknowledging early tensions between Black and Brown communities, they show how Latino immigrants settled into a new country and a new neighborhood, finding various ways to co-exist, cooperate, and, most recently, demonstrate Black-Brown solidarity at a time when both racial and ethnic communities have come under threat. Hondagneu-Sotelo and Pastor show how Latino and Black residents have practiced, and adapted innovative strategies of belonging in a historically Black context, ultimately crafting a new route to place-based identity and political representation. South Central Dreams illuminates how racial and ethnic demographic shifts—as well as the search for identity and belonging—are dramatically shaping American cities and neighborhoods around the country. Often regarded as the first golden era of television, the 1950s was a decade when many classic programs—from *I Love Lucy* and *Gunsmoke* to *The Honeymooners* and *Perry Mason*, among others—made their debuts. Even after these shows departed the airwaves, they lived on in syndication, entertaining several generations of viewers. Devoted and casual fans alike can probably remember basic facts about these shows—like the names of *Lucy* and *Ricky's* neighbors or the town where Marshall Matt Dillon kept the law. But more elusive facts, like the location of the most successful defense attorney in Los Angeles (Suite 904 of the Brent Building), might be harder to recall. In *Television Series of the 1950s: Essential Facts and Quirky Details*, Vincent Terrace presents readers with a cornucopia of information about 100 programs from the decade. Did you know, for example, that the middle initial of *Dobie Gillis'* friend Maynard G. Krebs, stood for Walter? Or that *Ralph Kramden's* electric bill came to only 39 cents a month? Or that on *I Love Lucy*, *Ricky* originally performed at Manhattan's *Tropicana Club*? These are but a few of the hundreds of fun and intriguing trivia facts contained within this volume. Shows from all four networks (ABC, CBS, NBC, and DuMont)—as well as select syndicated programs—are represented here. This is not a book of opinions or essays about specific television programs, but a treasure trove of the facts associated with each of these programs. Readers will discover a wealth of fascinating information that, for the most part, cannot be found anywhere else. In some cases, the factual data detailed herein is the only such documentation that exists currently on bygone shows of the era. *Television Series of the 1950s* is the ideal reference for fans of this decade and anyone looking to stump even the most knowledgeable trivia expert. Ever hear of a butt splice? A cover? An iron mother? A biscuit? These were terms used in the heyday of vinyl records, from 1949 to the mid-1980s. This colorful and almost forgotten language was once used by record producers, label owners, disc jockeys, jukebox operators, record distributors, and others in the music industry. Their language is collected in this dictionary. Each entry offers both an explanation of a term's meaning as well as its context and use in the history of the record business. A top crime journalist reveals precisely how the world-shattering murder of John Lennon happened—and why In *Let Me Take You Down*, Jack Jones penetrates the borderline world of dangerous fantasy in which Mark David Chapman stalked and killed Lennon: Mark David Chapman rose early on the morning of December 8 to make final preparations. . . . Chapman had neatly arranged and left behind a curious assortment of personal items on top of the hotel dresser. In an orderly semicircle, he had laid out his passport, an eight-track tape of the music of Todd Rundgren, his little Bible, open to *The Gospel According to John* (Lennon). He left a letter from a former YMCA supervisor at Fort Chaffee, Arkansas, where five years earlier, he had worked with refugees from the Vietnam War. Beside the letter were two photographs of himself surrounded by laughing Vietnamese children. At the center of the arrangement of personal effects, he had placed the small *Wizard of Oz* poster of Dorothy and the Cowardly Lion. "I woke up knowing, somehow, that when I left that room, that was the last time I would see the room again," Chapman recalled. "I truly felt it in my bones. I don't know how. I had

never seen John Lennon up to that point. I only knew that he was in the Dakota. But I somehow knew that it was it, this was the day. So I laid out on the dresser at the hotel room . . . just a tableau of everything that was important in my life. So it would say, 'Look, this is me. Probably, this is the real me. This is my past and I'm going, gone to another place.' "I practiced what it was going to look like when police officers came into the room. It was like I was going through a door and I knew I was going to go through a door, the poet's door, William Blake's door, Jim Morrison's door. . . . I was leaving what I was, going into a future of uncertainty." Praise for *Let Me Take You Down* "Jack Jones has written a beautiful book, rare in its attention to the social context giving rise to stalkers and assassins of celebrities . . . celebrity worship is ambivalent—admiration shares the altar with envy. When the worshipped disappoints, a 'nobody' can become a 'somebody' by killing the pop culture idol. *Let Me Take You Down* is both fascinating and brilliant."—Ladd Wheeler, Professor of Psychology, University of Rochester, Former President of the Society for Personality and Social Psychology

Modern thought is characterized by a dichotomy of meaningful culture and unmeaning nature. *Signs in the Dust* uses medieval semiotics to develop a new theory of nature and culture that resists this familiar picture of things. Through readings of Thomas Aquinas, Nicholas of Cusa, and John Poinsett (John of St. Thomas), it offers a semiotic analysis of human culture in both its anthropological breadth as an enterprise of creaturely sign-making, and its theological height as a finite participation in the Trinity, which can be understood as an absolute 'cultural nature'. *Signs in the Dust* then extends this account of human culture backwards into the natural depth of biological and physical nature. It puts the biosemiotics of its medieval sources, along with Félix Ravaisson's philosophy of habit, into dialogue with the Extended Evolutionary Synthesis that is emerging in contemporary biology, to show how all living things participate in semiosis, so that that a cultural dimension is present through the whole order of nature and the whole of natural history. It also retrieves Aquinas' doctrine of intentions in the medium to show how signification can be attributed in a diminished way to even inanimate nature, with the ontological implication that being as such should be reconceived in semiotic terms. The phenomena of human culture are therefore to be understood not as breaks with a meaningless nature, but instead as heightenings and deepenings of natural movements of meaning that long precede and far exceed us. Against the modern divorce of nature and culture, *Signs in the Dust* argues that culture is natural and nature is cultural, through and through. 'A really great read, fascinating, moving' Adrian Chiles

The End to End record is the longest place-to-place cycling record in Britain. It is a daunting 842 miles and for the men and women who attempt to break the record, there can be no second place, only the binary outcome of total success or failure. Paul Jones decided to ride from Land's End to John O' Groats to try to understand the relentless physical and mental challenges involved. *End to End* is a captivating and beautifully written narrative. A lyrical account of the journey sits alongside meetings with amazing cyclists; people like Eileen Sheridan; who covered the distance in under three days in 1954, or current men's record holder Michael Broadwith who did it in a scarcely believable 43 hours. *End to End* is a portrayal of hope and ambition, of what happens when things go wrong and how hard it is to make them right. It is about courage, obsession and joy, but above all else, it is a compelling exploration of why journeys matter for all of us. 'A brilliant book, a triple trip: one on the road, one in History and one into the author's mind. Cycling is about all that' Paul Fournel 'Jones's funny and affectionate book is a celebration of "the fellowship of the road"' Spectator 'A truly excellent book . . . Paul Jones's *End To End* is a wonderful, sometimes frenetic and deeply honest book by a man bursting with passion for cycling, its cultures and lore, and people who do extraordinary things' BikeRadar

This book rediscovers and re-evaluates the work of the Welsh dramatist J. O. Francis (1882-1954) and his contribution to the development of Welsh drama in the twentieth century. More than a prize-winning dramatist, whose plays were performed all over the world, Francis can also be described as one of the founding fathers of modern Welsh drama,

whose work has helped establish theatrical realism on the Welsh stage. His creative non-fiction for the popular press and for radio gives a unique perspective on how Wales was seen through the eyes of a perceptive London-Welsh observer. Using much previously unpublished material, this volume is an excellent introduction to one of Wales's foremost dramatists, and is innovative in the way that it creates a picture of the amateur dramatic scene of south Wales (1920-40) based on sound statistical analysis of available evidence. It situates Francis's work in its cultural context and brings this exciting period in Welsh cultural history to life in its introduction to a new audience. The Concise Dictionary of Popular Culture covers the theories, media forms, fads, celebrities and icons, genres, and terms of popular culture. From Afropop and Anime to Oprah Winfrey and the X-Files, the book provides more than just accessible definitions. Each of the more than 800 entries is cross-referenced with other entries to highlight points of connection, a thematic index allows readers to see common elements between disparate ideas, and more than 70 black and white photos bring entries to life. The first of three volumes charting the history of the Modernist Magazine in Britain, North America, and Europe, this collection offers the first comprehensive study of the wide and varied range of 'little magazines' which were so instrumental in introducing the new writing and ideas that came to constitute literary and artistic modernism in the UK and Ireland. In thirty-seven chapters covering over eighty magazines expert contributors investigate the inner dynamics and economic and intellectual conditions that governed the life of these fugitive but vibrant publications. We learn of the role of editors and sponsors, the relation of the arts to contemporary philosophy and politics, the effects of war and economic depression and of the survival in hard times of radical ideas and a belief in innovation. The chapters are arranged according to historical themes with accompanying contextual introductions, and include studies of the New Age, Blast, the Egoist and the Criterion, New Writing, New Verse, and Scrutiny as well as of lesser known magazines such as the Evergreen, Coterie, the Bermondsey Book, the Mask, Welsh Review, the Modern Scot, and the Bell. To return to the pages of these magazines returns us a world where the material constraints of costs and anxieties over censorship and declining readerships ran alongside the excitement of a new poem or manifesto. This collection therefore confirms the value of magazine culture to the field of modernist studies; it provides a rich and hitherto under-examined resource which both brings to light the debate and dialogue out of which modernism evolved and helps us recover the vitality and potential of that earlier discussion. Show Boat: Performing Race in an American Musical tells the full story of the making and remaking of the most important musical in Broadway history. Drawing on exhaustive archival research and including much new information from early draft scripts and scores, this book reveals how Oscar Hammerstein II and Jerome Kern created Show Boat in the crucible of the Jazz Age to fit the talents of the show's original 1927 cast. After showing how major figures such as Paul Robeson and Helen Morgan defined the content of the show, the book goes on to detail how Show Boat was altered by later directors, choreographers, and performers up to the end of the twentieth century. All the major New York productions are covered, as are five important London productions and four Hollywood versions. Again and again, the story of Show Boat circles back to the power of performers to remake the show, winning appreciative audiences for over seven decades. Unlike most Broadway musicals, Show Boat put black and white performers side by side. This book is the first to take Show Boat's innovative interracial cast as the defining feature of the show. From its beginnings, Show Boat juxtaposed the talents of black and white performers and mixed the conventions of white-cast operetta and the black-cast musical. Bringing black and white onto the same stage -- revealing the mixed-race roots of musical comedy -- Show Boat stimulated creative artists and performers to renegotiate the color line as expressed in the American musical. This tremendous longevity allowed Show Boat to enter a creative dialogue with the full span of Broadway history. Show Boat's voyage through the twentieth century offers a vantage point on more than just the Broadway musical. It tells a complex tale of interracial encounter performed in popular music and dance on the national stage during a century of profound transformations.
