Excerpt from The Chinese Government: A Manual of Chinese Titles, Categorically Arranged and Explained, With an Appendix The object with which the present work has been undertaken is sufficiently expressed in its Title to leave little to be said in explanation of its intended scope. A happily increasing interest in Chinese studies, and the necessity which is becoming more and more widely felt for an enlarged appreciation of the modes of action adhered to by the Chinese government, justify the belief that every new contribution to the means of

reference will meet with welcome; whilst, in the present instance, the labour of which the results are embodied in the ensuing pages has been stimulated by an obvious requirement of the public service. The urgent need of a key to the designations in use, in both Chinese and English, for the titles of public functionaries, which might be accepted by translators as a common rule, was represented several years ago by Sir Walter Medhurst, at that time Her Britannic Majesty's Consul at Shanghai, in an official communication addressed to Her Majesty's Minister; and the writer, who had long contemplated the preparation of some such work, owes to this circumstance the immediate inducement which has hastened the fulfilment of his design. As in many other tasks of a like description, however, the plan originally conceived soon betrayed the necessity of development in a degree unlooked for at the outset; and a variety of circumstances, besides, have intervened to delay its execution for a considerable length of time. A period of comparative leisure having allowed the design to be once more taken in hand, it has now been carried to a conclusion on a scale the tendency of which has been continually toward enlargement. A cursory

inspection of the ensuing pages will suffice to shew that two main objects have been held in view in the course of their preparation. Whilst it has been sought, in the first place. Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy. Written in an extended dictionary format, the Manual for Teaching and Learning Chinese as a Foreign Language aims to cover all key terms related to teaching Chinese as a foreign language. Each section contains an introduction with language-specific information, and identifies students and teachers' common questions, including the capacity of Chinese as a morphologically unmarked language to indicate categories such as tense and mood. Many entries listed in this manual come with an explanation, a commentary, and rich examples. The Manual for Teaching and Learning Chinese as a Foreign Language appeals to both Chinese as a foreign language (CFL) teachers and students, as well as being the ideal reference for researchers conducting

comparative studies of the Chinese and English languages. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This is the eBook version of the third edition (October 2016) of the Clinical Manual of Chinese Herbal Medicines. The content is identical except for the use of color in the eVersion. The content describes the actions, indications, dosages and potential combinations of over 330 medicines. Since the first edition, published in 2000, the number of medicines available in the marketplace has expanded considerably. New companies have entered the market, and some previously available medicines have disappeared. Patent medicines are, for many practitioners, the cornerstone of herbal medicine practice. The author believes that patent medicines, carefully and correctly applied, can be as effective as raw herb

decoctions for many common conditions. In addition they have numerous advantages, not the least of which are improved compliance, relatively low cost to the patient, and a high degree of quality control. The Clinical Manual of Chinese Herbal Patent Medicines is the most up to date text on what is actually available in the market and what is good and of good quality. It is an essential addition to the desk and bookshelf of all serious practitioners and students of Chinese medicine. In addition to the government registered medicines available in Australia, the details a number of classical prescriptions currently available only in the US and Europe. One of the nicest features of the text is its use of small icons in the left margin to indicate use information. Each formula is discussed in terms of its TCM Actions, Biomedical actions, Indications, Composition, Combinations, Dose and Method of Administration, and Cautions and Contraindications. A specially nice feature are the line drawings of persons illustrating elements of the patterns. These are often expressive of the adittudinal and psychological characteristics of those matching the pattern indicated. This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work

is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. We appreciate your understanding of the imperfections in the preservation process, and hope you enjoy this valuable book. ++++ The below data was compiled from various identification fields in the bibliographic record of this title.
