A Portrait of the Artist as a Young Man by James Joyce from Coterie Classics All Coterie Classics have been formatted for ereaders and devices and include a bonus link to the free audio book. "I will tell you what I will do and what I will not do. I will not serve that in which I no longer believe, whether it calls itself my home, my fatherland, or my church: and I will try to express myself in some mode of life or art as freely as I can and as wholly as I can, using for my defense the only arms I allow myself to use -- silence, exile, and cunning." — James Joyce, A Portrait of the Artist as a Young Man A Portrait of the Artist as a Young Man is a coming of age novel set in Dublin by James Joyce. Over one hundred original photographs from the monastery are featured in Portraits of Grace; each captivating image is accompanied by brief snippets of inspirational words to spark reflection and inner thought. Behrens uses many examples from modern life, including the complications of travel, people's burgeoning interest in self-help books, time, love, stories from the news and his own varied and unique personal experiences to weave brief reflections and essays into something that, over time, develops its own quiet insistence. He urges us to find the startling in the mundane, silence and meditation in the noise, and mercy in our anger. In short, he urges us to find the peaceful, loving God in our otherwise hectic, busy, and oftentimes all too self-involved lives. De Luxe in full colors edition, printed on glossy heavy stock paper. The book is also available in ECONOMY EDITION at a fraction of the cost of the deluxe edition. Spirit Paintings and Art from the Afterlife: The world's first book on the Greatest Spirit Artists and Medium Painters of all Time. Published by Times Square Press and the American Federation of Certified Psychics and Mediums, New York. Everything you need to know about psychic artists, their world, their spirit portraits, their techniques, their styles, and how they communicate with the Spirit world. An in-depth study and analysis of this extraordinary, yet not fully explored mediumistic-psychic phenomenon. This book is a gem, and

an essential reference and instruction tool to all those who are interested in the occult, psychic art, and most unusual spiritual way to communicate with the afterlife. The vision experiences of one man -- a Dakota chief and healer -- would profoundly affect the lives of four generations of the Deloria family. That man was the author's great-grandfather. In this book America's foremost Native American writer and scholar tells of the moving struggle of his family to preserve integrity, sacredness, and a sense of purpose in a time when their way of life was under assault by the juggernaut of U.S. westward expansion. The series of portraits in this book, which include Pussy Riot member Yekaterina Samutsevic and many other Moscow citizens, were created by a machine: a facial recognition system recently developed in Moscow for public security and border control surveillance. The result is more akin to a digital life mask than a photograph; a three-dimensional facsimile of the face that can be easily rotated and closely scrutinised. What is significant about this camera is that it is designed to make portraits without the co-operation of the subject; four lenses operating in tandem to generate a full frontal image of the face, ostensibly looking directly into the camera, even if the subject himself is unaware of being photographed.00The system was designed for facial recognition purposes in crowded areas such as subway stations, railroad stations, stadiums, concert halls or other public areas but also for photographing people who would normally resist being photographed. Indeed any subject encountering this type of camera is rendered passive, because no matter which direction he or she looks, the face is always rendered looking forward and stripped bare of shadows, make-up, disguises or even poise. Excerpt from *The Spirit of the Age, or Contemporary Portraits*, Vol. 1 As if a man were author of himself, And owned no other kin. He is like a solitary peak, all access to which is cut off not more by elevation than distance. He is seated On a lofty eminence, cloud capt, or reflecting the last rays of setting suns; and in his poetical moods, reminds us of the fabled Titans, retired to a ridgy steep, play. Reproduced here are 80 hand-toned portraits of individuals who are striving to uphold their cultural diversity and traditions in countries where basic human rights are threatened - from Ethiopia and Kenya to Tibet, and from Mexico to Indonesia. This book is published in association with Amnesty International to mark the 50th anniversary of the Universal Declaration of Human Rights, a document adopted by the United Nations in 1948 which outlines fundamental rights for all people.

Excerpt from *Natty, a Spirit: His Portrait and His Life* The taste and judgment of the artist revolted at the thought of attempting to make harmony between a black dog and a bright spirit. Success was more than he dared anticipate. Natty would not let him follow his first impulse, which was to make the dog a mere film nor would he yield to the second wish, and let' the pet be brown. Nothing but Leo as he is would do; and Leo is black.

Rembrandt's Nose ISBN 1-933045-44-2 / 978-1-933045-44-3 Hardcover, / pgs // U.S. CDN To be set / Nonfiction and Criticism

If the sitter is the lead actor of a performance, for in essence that is what a portrait is, then the nose is his understudy on the stage of the face. The nose stands in the center, the focal point of our gaze if not the exact center, and demands that we notice it. It's a peacockish actor: too obvious, too egotistical, too histrionic. It upstages the rest of the face and would make us forget that its posturing is mere vanity and vacuity compared to the eloquence of the eyes and lips.

Emily Carr, often called Canada's Van Gogh, was a post-impressionist explorer, artist and writer. In *Artist Emily Carr and the Spirit of the Land* Phyllis Marie Jensen draws on analytical psychology and the theories of feminism and social constructionism for insights into Carr's life in the late Victorian period and early twentieth century. Presented in two parts, the book introduces Carr's émigré English family and childhood on the "edge of nowhere" and her art education in San Francisco, London and Paris. Travels in the wilderness introduced her to the totem art of the Pacific Northwest coast at a time Aboriginal art was undervalued and believed to be disappearing. Carr vowed to document it before turning to spirited landscapes of forest, sea and sky. The second part of the book presents a Jungian portrait of Carr, including typology, psychological complexes, and archetypal features of personality. An examination the individuation process and Carr's embracement of transcendental philosophy reveals the richness of her personality and artistic genius.

*Artist Emily Carr and the Spirit of the Land* provides captivating reading for analytical psychologists, academics and students of Jungian studies, art history, health, gender and women's studies. Photographer Edward Moody runs a booming business capturing the images of the spirits of the departed in his portraits. He lures grieving widows and mourning mothers into his studio with promises of catching the ghosts of their deceased loved ones with his camera. Despite the whispers around town that Moody is a fraud of the basest kind, no one has been able to expose him, and word of his gift has spread, earning him money, fame, and a growing list of illustrious clients. One day, while developing the negative from a sitting to capture the spirit of the young son of an abolitionist senator, Moody is shocked to see a different spectral figure develop before his eyes. Instead of the staged image of the boy he was expecting, the camera has seemingly captured the spirit of a beautiful young woman. Is it possible that the spirit photographer caught a real ghost? When Moody recognizes the woman in the photograph as the daughter of an escaped slave he knew long ago, he is compelled to travel from Boston to the Louisiana bayous to resolve their unfinished business—and perhaps save his soul. But more than one person is out to stop him . . .

With dramatic twists and redolent of the mood of the Southern Gothic, *The Spirit Photographer* conjures the Reconstruction era South, replete with fugitive hunters, voodoo healers, and other dangers lurking in the swamp. Jon Michael Varese's deftly plotted first novel is an intense tale of death and betrayal that shows us how undeniably the ghosts of the past remain with us, and how resolutely they refuse to be quieted. Is the price of eternal youth worth a man's soul? The exceptionally handsome Dorian Gray is a model—and the muse—for a young artist, Basil Hallward. Through Basil, Dorian meets Lord Henry Wotton, who values only the pleasurable things in life with no regard for morality. He makes Dorian realize that one day his famed beauty will fade, and he will be left with nothing. Dorian decides to sell his soul so that a portrait of him will age in his place. As he indulges in every vice and selfish whim, his portrait grows increasingly hideous. But will he learn the true cost of his corruption in time to change his ways? This unabridged edition of British playwright Oscar Wilde's only novel, first published in 1891, begins with his famous preface, in which he justifies his artistic philosophy. Beginning in the mid-1990s, Louisiana-born photographer Debbie Fleming Caffery lived and worked on the grounds of the Catholic church in a small village in northeastern Mexico using a tortilla shack as her studio. In addition to the religious life of the town, she turned her lens on the nearby cantina that occasionally served as a brothel. *The Spirit and the Flesh* explores the themes of grace, redemption, sin and forgiveness that Caffery encountered in this community--of which she has said, I felt incredibly comfortable in a culture rich in celebrations of religious feasts, with strong, independent, highly emotional people, much like the people I grew up with in southwest Louisiana. The brothel brought new elements into my work: secrets, sensual

needs, desire and, often, unexpected love. Debbie Fleming Caffery has been making photographs of the people and culture of her native Louisiana for more than 30 years; this is her fourth book. Those who discover malt whisky quickly learn that the malts made on the Isle of Islay are some of the wildest and most characterful in the malt-whisky spectrum. In PEAT SMOKE AND SPIRIT, Islay's fascinating story is uncovered: from its history and stories of the many shipwrecks which litter its shores, to intimate descriptions of the beautiful wildlife, landscape and topography of the island. Interwoven through these different narrative strands comes the story of the whiskies themselves, traced from a distant past of bothies and illegal stills to present-day legality and prosperity. The flavour of each spirit is analysed and the differences between them teased out, as are the stories of the notable men and women who have played such an integral part in their creation. PEAT SMOKE AND SPIRIT is the last word on Islay and its whiskies. A stunning new book that chronicles the extraordinarily rich jazz life of Pittsburgh through interview and photography. The hardback print features Pittsburgh's current jazz legends and emerging artists while focusing a lens on the current Pittsburgh jazz landscape. A tour of Harlem combines photographs with interviews to profile a community in transition, as money pours in to revitalize a once decaying cityscape, a situation that threatens the homes and livelihoods of long-time residents. The Trueba family embodies strong feelings. This family saga starts at the beginning of the 20th century and continues through the assassination of Allende in 1973. For more than 40 years, Sally Mann (b. 1951) has made experimental, elegiac, and hauntingly beautiful photographs that explore the overarching themes of existence: memory, desire, death, the bonds of family, and nature's magisterial indifference to human endeavor. What unites this broad body of work--portraits, still lifes, landscapes, and other studies--is that it is all "bred of a place," the American South. Mann, who is a native of Lexington, Virginia, uses her deep love of her homeland and her knowledge of its historically fraught heritage to ask powerful, provocative questions--about history, identity, race, and religion--that reverberate across geographic and national boundaries. Organized into

five sections--Family, The Land, Last Measure, Abide with Me, and What Remains--and including many works not previously exhibited or published, Sally Mann: A Thousand Crossings is a sweeping overview of Mann's artistic achievements. This is the ECONOMY EDITION. The book is also available in deluxe edition, printed on glossy heavy stock paper. This groundbreaking work uncovers the role played by black people in the emergence of the Bah'i faith in North America. Drawing on a wide range of sources including personal essays, letters, and journals, it offers a fascinating glimpse into the lives of some extraordinary individuals. The publicity given to the recent attacks on Psychic Photography has been out of all proportion to their scientific value as evidence. When Sir Arthur Conan Doyle returned to Great Britain, after his successful tour in America, the controversy was in full swing. With characteristic promptitude he immediately decided to meet these negative attacks by a positive counter-attack, and this volume is the outcome of that decision. We have used the term Spirit Photography on the title-page as being the popular name by which these phenomena are known. This does not imply that either Sir Arthur or I imagine that everything supernormal must be of spirit origin. There is, undoubtedly, a broad borderland where these photographic effects may be produced from forces contained within ourselves. This merges into those higher phenomena of which many cases are here described. Those desiring fuller information on this subject are referred to Photo graphing the Invisible, by James Coates.
