The book opens with a brief analysis of the SJD degree, and the author's angst in deciding to obtain one, which required going back to law school at age 72. Once he's enrolled, the reader goes to class with Bruce, meeting fellow students (decades younger), law professors (also younger), and suffering along with him as he struggles with studying and taking law examinations again. Romp with him through tax, banking, constitutional, and other law subjects. Discover how returning to law school invigorated his law practice and enhanced his professional writing. He is followed through the dissertation process, delayed due to some personal tribulations. The reader is with him at his law school graduation and the after-party at his home, where the partygoers write things about him. Learn how this experience changed his life and his hopes that others will find the courage to pursue a life dream. LAW SCHOOL, Learn to Think Like a Lawyer - Hello, my name is Shane Irvine! And I want to be your law professor. I am both the author and the narrator of this audiobook titled, Law School. Now, let me give you a hypothetical. On one hand you have a statement made in a criminal law class at Yale University. The statement is that, "First degree murder is the killing of one human being by another with malice aforethought." On the other hand, you have a statement made by a drunken beachcomber on the beach who also proclaims that, "First degree murder is the killing of one human being by another with malice aforethought." The statement is that, "First degree murder is the killing of one human being by another with malice aforethought." Okay, which of these claims has more truth and justice in it. The statement made in Yale School of Law or the statement made by the drunken beachcomber? Obviously, the statement is the same. The information coming from Yale University can be the same as the bellowings of a drunken beachcomber. That's because the information is generic. Yes, the legal information at Yale University Law School is basically just generic information. This series of classes that I provide, cover the breadth requirement courses necessary in law school to earn a Juris Doctor degree. Nothing is watered down except maybe the latin. The information is just as difficult to comprehend in this audiobook as it is at Yale University. Upon completion of this series of coursework, you will probably have more questions than answers. Don't worry... That's common. It's the nature of the study of law to

spark thought. Each person is going to have a different mind set. I present the basic information necessary for you to form the questions. It's therefore, up to you to find your own answers. After all, that's what lawyers, traditional or otherwise, do, they provide differing schools of thought, they question everything, and they resolve to explain the unexplainable. That's the basic objective of being able to think like a lawyer - To be able to create a framework for thinking and ultimately an order for applying that framework. The curriculum for Law School includes Contracts, Tort Law, and Criminal Law, Criminal Procedure, Evidence, Civil Procedure, Family Law, Property law, Constitutional Law, Corporate Law, Wills, Trusts and Probate. These are the basic courses necessary to earn a juris doctor degree. I suggest you repeatedly listen to the material over and over. I also suggest that you purchase the four-volume text of the audiobook, found on Amazon, and follow along. The combination of listening and reading along will further help hold your attention as it all sort of sinks in and you will eventually find yourself thinking like a lawyer. However, unlike having that prestigious Yale University law school diploma on the wall, hypothetically, you will have that equivlent education plus the \$150,000 you would have paid in tuition at good ole Boola, Boola. Is a career in law right for you? Thinking of attending law school? Where should you apply? The verdict is in: This comprehensive guide has the answers to all your questions. Fulfilling a Dream By: Bruce R. Hopkins Bruce R. Hopkins was a successful nonprofit lawyer, author of several books, a law professor, and a popular speaker. So what could possibly make him want to complete a doctorate of juridical science? Simple - it was his dream. In 2012 he took his first class for his new degree. He was 72. Fulfilling a Dream: The Ultimate Law Degree is the record of Hopkins' new adventures in law school and completing his dissertation. Sprinting through legal history, Hopkins shares his expertise in tax law, tax procedure, banking and constitutional law, and more, and his reassurances that even seasoned lawyers can find legal writing obtuse, mind-boggling, and downright weird. Part memoir, part legal study guide, part playful instructions on what to do - and not do - while pursuing a third law degree, Fulfilling a Dream is a smart and hilarious take on pursuing your dreams, no matter the fear. Has it been your dream to become a paralegal or lawyer? Perhaps you have a desire to obtain a degree or further your education in one of the many law or law-related fields. Yet due to your schedule or circumstances, you simply cannot attend a residential school full time. Well this guide is your answer. It contains over 400 schools offering Distance Learning in such programs. Also included in this Guide are sections covering Designations, Paralegal Exams, Admission to Law School, Studying Law, Qualifying for the Bar, Bar Associations, Law Societies, and much more. The Schools are located through-out the World and their programs can be completed with little or no residency Using CRT, this book demonstrates how law can make Black lives, and the lives of other racially marginalized groups, matter. A lawyer with over thirty years of experience in general practice has created a guideline for law graduates, detailing how to start practicing in seventeen different areas of the law, from adoptions to workers' compensation. The book first provides a diagram for what is needed to begin a practice, from office supplies to computer software to insurance. A self-diagnosis is then offered to help the reader choose a practice area that suits his or her personality. The book then gives an overview of seventeen practice areas, with a summary of what each practice area involves and how to begin each from scratch, even working from home if necessary. This book was written as a guide for those with a law degree and no job, but is equally valuable for those who have a job but want to make a change, and for those who want to launch their own practices. It is also a good review of the practical side of choosing a practice area, for law graduates and law students alike. As thirty years of general practice experience condensed into one easily readable volume, it is a valuable blueprint for any young lawyer trying to decide on his or her area of practice, and how to get there. Studying Law introduces students to the fundamental legal skills that they will need to successfully study the subject, such as case analysis, legislative interpretation, problem solving and essay writing, and to the core Law subjects themselves and the distinctions between them. "In this new, 6th edition of a law career classic, lawyers are introduced to a unique five-part model for career satisfaction. It is based on a well-established principle that the better the fit between your career identity and your job, the greater your long-term satisfaction"--Page 4 of cover. This book offers a critical and insightful study of various doctoral programs in law, focusing on the English-speaking world. That the structures of doctoral degree programs in law differ between the United States and much of the Commonwealth are an issue that requires no debate. What is missing in the discourse, however, is a narrative on how these programs are structured and how they compare. This book attempts to fill that gap. A key objective of the study is to provide an international and comparative analysis of the efficacy of the American- and British-styled models of law doctorates. In so doing, it provides a conceptual and theoretical framework for the development of effective doctoral programs in law, contending that the defining characteristic of a doctorate is that it recognizes an independent contribution to the subject rather than the completion of taught coursework, however, advanced. The book goes on to examine the concept of a higher doctorate in law as a possible means of strengthening the concept of a law doctorate in legal academia. This book was written against the backdrop of the recently adopted Global Convention on the Recognition of Qualifications concerning higher education. It was adopted by the UNESCO General Conference in Paris on November 25, 2019, making it the first United Nations treaty on higher education with a global scope. The target audience of the book includes scholars in higher education; scholars in legal education; law school deans and administrators; law professors and students; Ministries of Higher Education in countries around the globe; accrediting agencies for doctoral studies; bar admission and legal education societies;

and UNESCO and other international organizations. Tells how to decide when and if to pursue a different career, and suggests how to take advantage of one's legal skills in other professions. Confused by cases? Stuck on statutes? Or just unsure where to start with writing, research or revision? The Insider's Guide to Legal Skills will show you what you need to succeed, applying skills in their real-world context and helping you get to grips with legal method and thinking. Making use of problem-based learning and examples throughout, this practical and accessible guide will provide you with a clear guide to skills within the law degree and how to make the most of them in assessment, but also help you to see their importance to a future legal career. Designed for LLB/GDL students who want a clear overview of what a law degree is all about, the book has been built on the skills curriculum, and is a suitable text for Legal Skills, Methods and Reasoning courses as well as a general introduction to law, or pre-reading for those considering a law degree. Trust Me I've Got a Law Degree Journal. A funny lawyer gift for an attorney who finished law school and passed the bar exam. Cool lawyer humor notebook that makes a great law school graduation present. 100 page blank lined book. TODAY I MUST REFLECT ON MY DEAR MOTHER THELMA MAE KNIGHT. MY MOTHER TAUGHT ME TO READ. WHEN I FOUND OUT THAT CHICAGO STATE HAD PARTNERED WITH A LAW SCHOOL I WAS HAPPY. THE LEADERS AT CHICAGO STATE CARE DEEPLY ABOUT THE STUDENT POPULATION. THIS BOOK IS A TRIBUTE TO THAT FACT. Written by Harvard-trained ex-law firm partner Liz Brown, Life After Law: Finding Work You Love with the J.D. You Have provides specific, realistic, and honest advice on alternative careers for lawyers. Unlike generic career guides, Life After Law shows lawyers how to reframe their legal experience to their competitive advantage, no matter how long they have been in or out of practice, to find work they truly love. Brown herself moved from a high-powered partnership into an alternative career and draws from this experience, as well as that of dozens of former practicing attorneys, in the book. She acknowledges that changing careers is hard much harder than it was for most lawyers to get their first legal job after law school but it can ultimately be more fulfilling for many than a life in law. Life After Law offers an alternative framework and valuable analytic tools for potential careers to help launch lawyers into new fields and make them attractive hires for non-legal employers. The book presents academic education in European countries and USA and special requirements, education and professional exams giving the right to perform legal professions. Each part is a guide through internal regulations leading to legal professions. The reader can see the differences and similarities in the European systems of presented countries. Three Degrees of Law has been acclaimed by professors nationally, not merely as a book for attorneys and law students. The concise guide focuses on how to be a happy and successful professional. Students will appreciate candid advice from highly regarded attorney Harlan York on how to determine if law practice is for them, and why law school has great value, even if they never "practice" law. Investment in legal education has lifelong benefit in a type of thought process. That training carries over to many fields, not just law. York - who Former World Chess Champ Garry Kasparov calls a "street fighter" - explains that contribution to law school is not merely financial. Devotion, particularly in one practice area, needs to occur. Many attorneys have jobs they hate, not due to external factors, but because of attitude. One of the biggest mistakes lawyers make is improperly measuring the bottom line. They calculate the short term. Law is a cross-country run. You climb mountains and fly downhill at breakneck speed. Great runners win, like Olympic Gold Medalist Peter Rono, who praises York. Also, Law Review does not always result in success. Enthusiasm is crucial while certain habits hurt advancement. Three Degrees of Law spells out secrets for success and enjoying law. York also details how women frequently become better attorneys than men while defeating sexism. As for the belief that a Juris Doctor predisposes one to working long days with little joy, York rejects this as myth. He explains how to find genuine passion for law. A vocational approach with concern for clients will allow you to build a career you love and will sustain you for life. Harvard Law School pioneered educational ideas, including professional legal education within a university, Socratic questioning and case analysis, and the admission and training of students based on academic merit. On the Battlefield of Merit offers a candid account of a unique legal institution during its first century of influence. Lawyers have left a major mark on the startup ecosystem, but perhaps not as you'd imagine. Their biggest mark is as Founders. In their new book Founder, JD, authors Eric Koester and Raffi Garnighian examine more than 400 startup founders who have also earned a law degree in order to uncover the surprising impact of their contributions across some of the largest ventures,

funds and companies in the startup ecosystem. Throughout their research, they uncover a treasure trove of stories from some of the most successful lawyers-turned-founders and share an effective framework for how lawyers and law students can leverage their legal skills, experiences and connections to make their own

similar leap into the startup world. As Founders, JDs themselves, Koester and Garnighan share real world insights from other successful Founders, JDs including: * removing the stigma lawyers often face when entering the business world, * leveraging the power of thinking like a lawyer, and * unlocking the keys to making one's startup a success in ventures inside and outside the legal profession
