POWER Nov 17 2019 Power: Police Officer  
Wellness, Ethics, and Resilience collectively  
presents the numerous psychic wounds  
experienced by peace officers in the line of  
duty, including compassion fatigue, moral  
injury, PTSD, operational stress injury,  
organizational and operational stress, and  
loss. Authors describe the negative  
repercussions of these psychic wounds in law  
enforcement decision-making, job performance,  
job satisfaction, and families. The book  
encompasses evidence-based strategies to  
assist law enforcement agencies in developing  
policy programs to promote wellness for their  
personnel. The evidence-based techniques  
presented allow officers to get a more

tangible and better understanding of the techniques so that they apply those techniques when on and off-duty. With forewords authored by Dr. John Violanti (Distinguished Police Research Professor) and Dr. Tracie Keese, Vice President of the Center of Policing Equity, this book is an excellent resource for police professionals, police wellness coordinators, early career researchers, mental health professionals who provide services to law enforcement officers and their families, and graduate students in psychology, forensic psychology, and criminal justice. Platinum Award Winner 2019, Homeland Security Awards - American Security Today Provides reader with evidence-based strategies to promote officer wellness Covers compassion fatigue, moral injury, PTSD, operational stress, and more Written by established scholars and professionals from a law enforcement context
