There is space to draw a picture on every page and write a short story beneath the picture. Using the autism journal can help with other educational interventions often used which include applied behavior analysis (ABA), developmental models, structured teaching, speech and language therapy, social skills therapy, and occupational therapy. In Part One the author attacks the myth that there is only one correct way to speak by clearing away the blocks that can make language inaccessible. Part Two, a series of language and text exercises, connects the voice to the shape and quality of individual words and phrases. Drawing on the author's time spent coaching in

Finally, new language exercises provide readers with unmediated access to this new research, allowing them to practice and master the language and words that drive the modern world.
