With business advice from an expert entrepreneur, learn how to identify and leverage the key factors that will bring sustainability and success to your startup. Kathleen Kelly Janus, a lecturer at the Stanford University Program on Social Entrepreneurship and the founder of the successful social enterprise Spark, set out to investigate what makes a startup succeed or fail. She surveyed more than 200 high-performing social entrepreneurs and interviewed dozens of founders. Social Startup Success shares her findings for the legions of entrepreneurs working for social good, revealing how the best organizations get over the revenue hump. How do social ventures scale to over \$2 million, Janus's clear benchmark for a social enterprise's sustainability? Janus, tapping into strong connections to the Silicon Valley world where many of these ventures are started or and/or funded, reveals insights from key figures such as DonorsChoose founder Charles Best, charity:water's Scott Harrison, Reshma Saujani of Girls Who Code and many others. Social Startup Success will be social entrepreneurship's essential playbook; the first definitive guide to solving the problem of scale. 24 Steps to Success! Disciplined Entrepreneurship will change the way you think about starting a company. Many believe that entrepreneurship cannot be taught, but great entrepreneurs aren't born with something special - they simply make great products. This book will show you how to create a successful startup through developing an innovative product. It breaks down the necessary processes into an integrated, comprehensive, and proven 24-step framework that any industrious person can learn and apply. You will learn: Why the "F" word - focus - is crucial to a startup's success Common obstacles that entrepreneurs face - and how to overcome them How to use innovation to stand out in the crowd - it's not just about technology Whether you're a first-time or repeat entrepreneur, Disciplined Entrepreneurship gives you the tools you need to improve your odds of making a product people want. Author Bill Aulet is the managing director of the Martin Trust Center for MIT Entrepreneurship as well as a senior lecturer at the MIT Sloan School of Management. From the creator of Product Launch Formula: A new edition of the #1 New York Times best-selling guide that's redefined online marketing and helped countless entrepreneurs make millions. The revised and updated edition of the #1 New York Times bestseller Launch will build your business - fast. Whether you've already got an online business or you're itching to start one, this is a recipe for getting more traction and a fast start. Think about it: What if you could launch like Apple or the big Hollywood studios? What if your prospects eagerly counted down the days until they could buy your product? And you could do it no matter how humble your business or budget? Since 1996, Jeff Walker has been creating hugely successful online launches. After bootstrapping his first Internet business from his basement, he quickly developed a process for launching new products and businesses with unprecedented success. And once he started teaching his formula to other entrepreneurs, the results were simply breathtaking. Tiny, home-based businesses started doing launches that brought in tens of thousands, hundreds of thousands, and even millions of dollars. Whether you have an existing business or you're starting from scratch, this is how you start fast. This formula is how you engineer massive success. Now the question is this: Do you want to start slow, and fade away from there? Or are you ready for a launch that will change the future of your business and your life? Most startups fail. But many of those failures are preventable. The Lean Startup is a new approach being adopted across the

globe, changing the way companies are built and new products are launched. Eric Ries defines a startup as an organization dedicated to creating something new under conditions of extreme uncertainty. This is just as true for one person in a garage or a group of seasoned professionals in a Fortune 500 boardroom. What they have in common is a mission to penetrate that fog of uncertainty to discover a successful path to a sustainable business. The Lean Startup approach fosters companies that are both more capital efficient and that leverage human creativity more effectively. Inspired by lessons from lean manufacturing, it relies on “validated learning,” rapid scientific experimentation, as well as a number of counter-intuitive practices that shorten product development cycles, measure actual progress without resorting to vanity metrics, and learn what customers really want. It enables a company to shift directions with agility, altering plans inch by inch, minute by minute. Rather than wasting time creating elaborate business plans, The Lean Startup offers entrepreneurs—in companies of all sizes—a way to test their vision continuously, to adapt and adjust before it's too late. Ries provides a scientific approach to creating and managing successful startups in an age when companies need to innovate more than ever. For undergraduate courses in Entrepreneurship and New Venture Creation. Inspirational and informative—introduce students to the process of entrepreneurial success. Make a lasting impact by launching new initiatives, inspiring others, and championing innovative approaches with this from-the-trenches guide by trusted executive mentor, entrepreneur, and leadership expert Joel Peterson. Many leaders see their roles as presidents/managers, with a primary focus on keeping results consistent with past performance and on budget. These kinds of leaders make important contributions but rarely leave a mark on the businesses they serve. For those wanting to make a lasting impact, new skills are required. Joel Peterson calls these higher-level leaders “entrepreneurial leaders,” and they create durable enterprises that deliver on their promise. After three careers and demanding roles as CFO, CEO, chairman, lead director, adjunct professor, founder, author, entrepreneur and investor, Joel Peterson is often sought as a mentor and coach by leaders and aspiring leaders. He has worked with all types of leaders and considers the entrepreneurial leader to be the highest level of influence. In Entrepreneurial Leadership, Peterson lays out a path to achieving this summit with a series of leadership maps organized around the four essential basecamps: Establishing Trust Creating a Sense of Mission Building a Cohesive Team Executing and Delivering Results These core philosophies, while easy to summarize, can be extremely difficult to implement. This book of maps and mindsets is aimed at those who hope to lead others, help them achieve their best, break new barriers, change the status quo, create a legacy, develop a brand, and enjoy a life-altering experience. Let Entrepreneurial Leadership guide you on your journey. Many questions asked by entrepreneurs compiled into a simple FAQ based short read. This book is much-needed and long overdue.... The value of What's Stopping You? is that it effectively debunks the false premises that too often preclude acts of business start up. What's Stopping You? is an encouraging, instructive, and eloquently written book that would be a valuable addition to any aspiring entrepreneur's bookshelf.” Jeffrey G. Covin , Samuel and Pauline Glaubinger Professor of Entrepreneurship, Kelley School of Business, Indiana University, Bloomington, Indiana “Over the years I have observed many seemingly great business opportunities never get off the ground. Quite often, what holds these aspiring entrepreneurs back are common misconceptions about the difficulties and risks of starting a new business. In What's Stopping You?, Professors Barringer and Ireland systematically break down the myths that hold many entrepreneurs back from pursuing their dreams.” Jeffrey R. Cornwall , The Jack C. Massey Chair in Entrepreneurship, Belmont University, Nashville, Tennessee “Barringer and Ireland simultaneously demystify start-up misconceptions and empower readers to explore their own opportunity with renewed passion. Many prospective entrepreneurs feel trapped by myths, the authors carefully detail the myth's fallacies and encourage the reader to see beyond start-up stereotypes. Future and experienced entrepreneurs have much to learn from What's Stopping You?” Sarah Schupp , Founder/CEO, University Parent Media, Boulder, Colorado “Creating your own business from scratch can be a mental, emotional, and financial roller coaster ride. Bruce Barringer and Duane Ireland's book provides a ‘voice of reason’ and helps give you the confidence to realize you can do it. They recognize that starting a business is hard work, but that it is attainable—and that you should celebrate your accomplishments every step of the way.” Jan Stephenson Kelly , Cofounder/CEO, Spark Craft Studios, Cambridge, MA Business Plan Software Follow Your Dream! So why haven't you done it yet? If you're like most nonfiction authors, fears are holding you back. Sound familiar? Is my idea good enough? How do I structure a book? What exactly are the steps to write it? How do I stay motivated? What if I actually finish it, and it's bad? Worst of all: what if I publish it, and no one cares? How do I know if I'm even doing the right things? The truth is, writing a book can be scary and overwhelming—but it doesn't have to be. There's a way to know you're on the right path and taking the right steps. How? By using a method that's been validated with thousands of other Authors just like you. In fact, it's the same exact

process used to produce dozens of big bestsellers—including David Goggins’s Can’t Hurt Me, Tiffany Haddish’s The Last Black Unicorn, and Joey Coleman’s Never Lose a Customer Again. The Scribe Method is the tested and proven process that will help you navigate the entire book-writing process from start to finish—the right way. Written by 4x New York Times Bestselling Author Tucker Max and publishing expert Zach Obront, you’ll learn the step-by-step method that has helped over 1,500 authors write and publish their books. Now a Wall Street Journal Bestseller itself, The Scribe Method is specifically designed for business leaders, personal development gurus, entrepreneurs, and any expert in their field who has accumulated years of hard-won knowledge and wants to put it out into the world. Brand New’s revolutionary innovation process is a proven road map you can put to work immediately to create successful new products, services, and business models. Written by leading innovation practitioners, and the coauthor of the bestseller Customers for Life, the authors of this tightly focused, highly entertaining book have nailed the issue perfectly when it comes to successfully introducing anything new. Research shows people like new products and services. Indeed they go out of their way to try to find them. Yet companies are truly terrible at providing new products and services that meet these customers’ needs. Why are companies so bad at giving customers what they want? Because they lack a simple proven process that makes sure innovation occurs efficiently time after time. No one knows this better than Mike Maddock and his team at Maddock Douglas, the Agency of Innovation,™ which has worked closely with more than a quarter of Fortune 100. To solve the innovation paradox, Maddock explains the process his team has used to help the world’s best companies and shows you how to Find needs and opportunity in the marketplace Come up with significant market insights Create compelling communication (using the actual words your customers use) to convince people to try your new creation What has worked for some of the world’s most successful companies, when it comes to innovation, will work for you. Start putting the lessons of Brand New to work for you...before the competition does. "Finally a textbook about entrepreneurship written by those who have actually done it rather than just studied it." -W. Don Stull, Texas Tech University The majority of new businesses don’t survive their first year. Launching Successful Ventures teaches students the nuts and bolts of creating new ventures while helping them avoid the common pitfalls that often lead to failure. Entrepreneurial exercises, case studies, step-by-step guidelines, and in-depth coverage of important financial topics such as managing cash flow, equity capital, and debt and investment capital are designed to help students build sustainable, lucrative ventures. Authored by successful serial entrepreneurs and award-winning researchers Michael Fountain and Tom Zimmerer, this new text provides a concise, practical guide for students seeking to develop high-growth ventures. If you want your startup to succeed, you need to understand why startups fail. “Whether you’re a first-time founder or looking to bring innovation into a corporate environment, Why Startups Fail is essential reading.”—Eric Ries, founder and CEO, LTSE, and New York Times bestselling author of The Lean Startup and The Startup Way Why do startups fail? That question caught Harvard Business School professor Tom Eisenmann by surprise when he realized he couldn’t answer it. So he launched a multiyear research project to find out. In Why Startups Fail, Eisenmann reveals his findings: six distinct patterns that account for the vast majority of startup failures. • Bad Bedfellows. Startup success is thought to rest largely on the founder’s talents and instincts. But the wrong team, investors, or partners can sink a venture just as quickly. • False Starts. In following the oft-cited advice to “fail fast” and to “launch before you’re ready,” founders risk wasting time and capital on the wrong solutions. • False Promises. Success with early adopters can be misleading and give founders unwarranted confidence to expand. • Speed Traps. Despite the pressure to “get big fast,” hypergrowth can spell disaster for even the most promising ventures. • Help Wanted. Rapidly scaling startups need lots of capital and talent, but they can make mistakes that leave them suddenly in short supply of both. • Cascading Miracles. Silicon Valley exhorts entrepreneurs to dream big. But the bigger the vision, the more things that can go wrong. Drawing on fascinating stories of ventures that failed to fulfill their early

promise—from a home-furnishings retailer to a concierge dog-walking service, from a dating app to the inventor of a sophisticated social robot, from a fashion brand to a startup deploying a vast network of charging stations for electric vehicles—Eisenmann offers frameworks for detecting when a venture is vulnerable to these patterns, along with a wealth of strategies and tactics for avoiding them. A must-read for founders at any stage of their entrepreneurial journey, Why Startups Fail is not merely a guide to preventing failure but also a roadmap charting the path to startup success. If Owen Chase can't find a way to turn his company around in the next nine days, he'll be forced to shut it down and lay off all of his employees. He has incurred substantial debt and his marriage is on shaky ground. Through pure happenstance, Owen finds himself pondering this problem while advancing steadily as a contestant at the World Series of Poker. His Las Vegas path quickly introduces him to Samantha, a beautiful and mysterious mentor with a revolutionary approach to entrepreneurship. Sam is a fountain of knowledge that may save his company, but her sexual advances might prove too much for Owen's struggling marriage. All In Startup is more than just a novel about eschewing temptation and fighting to save a company. It is a lifeline for entrepreneurs who are thinking about launching a new idea or for those who have already started but can't seem to generate the traction they were expecting. Entrepreneurs who achieve success in the new economy do so using a new "scientific method" of innovation. All In Startup demonstrates why four counterintuitive principles separate successful entrepreneurs from the wannapreneurs who bounce from idea to idea, unable to generate real revenue. You will likely get only one opportunity in your life to go "all in" on an idea: to quit your job, talk your spouse into letting you drain the savings account, and follow your dream. All In Startup will prepare you for that "all in" moment and make sure that you push your chips into the middle only when the odds are in your favor. This book holds the keys to significantly de-risking your idea so that your success appears almost lucky. Join Owen and Sam for this one-of-a-kind journey that will set you on the right path for when it's your turn to put everything on the line. THE ULTIMATE BEGINNER'S GUIDE TO STARTING A BUSINESS!
