Give new life to your MGB! With the aid of nearly 1,400 illustrations, and a text aimed at the do-it-yourselfer, this information-packed volume provides detailed, step-by-step information on everything you need to renovate your MGB body, interior, upholstery, engine, and electrical components. Contains complete and detailed information on how to build a Heritage MGB, and tells how to buy an MGB, MGC or MGB V8 and the pitfalls to avoid. The finest MGB restoration book published to date. This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history. The essential guide to the Jaguar X-Type - the first 'baby' Jaguar ever produced. The X-Type catered for an entirely new market for Jaguar, and proved highly successful. Covering all the models from this period, this guide provides you with all the procedures necessary to ensure the car you are looking at is actually what it appears to be. Close study and careful inspection are vital with the X-Type, and this guide identifies some of the pitfalls to avoid, helps you decide on exactly how and where to buy, and shows how to get the best possible car you can for your money. This is the only title available on the X-Type models - the ultimate pocket guide to read, digest and keep with you at all times. Consumer guides & advice. This book covers British car electrical systems from 1950 to 1980. Particular emphasis is placed on the Lucas, Smith and SU components that were ubiquitous in British cars of the period. Each major system is given its own chapter, providing theory, component parts and full system operating explanations. Modifications are suggested for those wishing to bring performance and reliability up to more modern standards. Fault-finding charts, cross referenced to the appropriate pages in the book, are provided throughout. Haynes disassembles every subject vehicle and documents every step with thorough instructions and clear photos. Haynes repair manuals are used by the pros, but written for the do-it-yourselfer. A reference for anyone considering a restoration of one of these classic luxury saloon cars, this book covers the Series 1, 2 and 3 XJ6 models built between 1969 and 1986. This manual shows you how to strip down, rebuild and tune an XK engine; repair and modify suspension; renovate interior trim; strip down and rebuild mechanical components; and repair and replace bodywork. Illustrated with more than 900 photographs and diagrams, it also explains what to look for when buying a used XJ6. The book covers:

- Model heritage and development
- What to look for when buying a project vehicle and the pitfalls to avoid
- How to renovate bodywork and chassis, including the renewal of major panels and repainting
- Repairing and renewing interior trim and fitting accessories
- How to give new life to mechanical and electrical components, including XK engine overhaul
