Now in paperback, this book covers Chrysler's incredible series of muscle cars. In 1955 Chrysler introduced the first of its famed 300 "letter series" cars. The company designed a stylish, sporty car, stuffed in one of its potent Hemi engines, and gave birth to the American muscle car. The C-300's combination of style and performance put the Mopar brand ahead of its competitors in the postwar performance race. When the Detroit performance wars began in earnest during the 1960s, Chrysler was well positioned to build the most outrageous, bodacious cars of an outrageous, bodacious era, cars like the famed Charger, Hemi Cuda, Road Runner, Superbird, and Challenger T/A. These cars dominated the dragstrips as well as the NASCAR ovals, and with color combinations guaranteed to burn out the corneas of your eyes if you stared at them directly, they ruled the streets of America; they ruled not just the streets, but the drive ins and parking lots. Nothing was cooler than Mopar muscle. Over the years these legendary Mopar muscle cars were the fastest, baddest assed, most outrageous machines to rip up American pavement. "This lavishly produced book is definitely a feast for all fans of this line of cars: the photography (by David Newhardt) is absolutely stunning. Not only are the pictures big, and of the highest quality, but the thought that has gone into their composition is plain for all to see. It could be argued that given the striking nature of these cars, and the wonderful backdrops, it would be hard to go wrong, but Newhardt went the extra mile here, and it shows. The story is also very comprehensive, listing all of the cars from the line, and taking time to tell the story in a well-researched, yet caring way. It is obvious that Robert Genat knows the subject well and loves it even more. . . . This book is a must-have for all lovers of American muscle, and thanks to the sheer depth of its coverage and drop-dead-gorgeous photography, the asking price of £34.99 is something of a bargain." - Classic Car Weekly (UK) 250-425cc 3-, 4- & 6-Wheel models: Scrambler, Trail Blazer, Trail Boss, Cyclone, Big Boss, Xplorer, Sport, Sportsman and Magnum With a Haynes manual, you can do it yourself...from simple maintenance to basic repairs. Hemi Muscle 70 Years is the complete illustrated story of the legendary engine and the cars it powered. Author Darwin Holmstrom explores how Chrysler's Hemi engine became the number one choice for drag racers and stock car racers across the country, campaigned to great success by drivers like Richard Petty, Don Garlits, David Pearson, Sox and Martin, and more. In 1950, Chrysler debuted a potent high-performance overhead-valve V-8 engine. Originally called the FirePower, it would soon be better known by the name "Hemi." Intended to power Chrysler's luxury cars, the Hemi found a higher calling: humiliating its competitor on the street and at the race track. On top of learning how the Hemi engine came to be, you'll also see how the Hemi remained the engine to beat on the street, stuffed into some of the most desirable performance cars in automotive history: the 'Cuda, Road Runner, Charger, GTX, and Challenger, to name a few. The Hemi made such a lasting impact that Chrysler revived it as the top engine for the twenty-first century Challenger and Charger. Today, Hemi is a household name, known to enthusiasts and consumers alike, often imitated, never duplicated. Having found its way into both sports cars and luxury cars, you'll often hear: "Hey, has that thing got a Hemi in it?" This book answers "yes" ...and offers the full exciting story!
