Originally published in 1973. The volume is divided into four sections: The introduction places the position of the Buddhist Tantras within Mahayana Buddhism and recalls their early literary history, especially the Guhyasamahatantra; the section also covers Buddhist Genesis and the Tantric tradition. The foundations of the Buddhist Tantras are discussed and the Tantric presentation of divinity; the preparation of disciples and the meaning of initiation; symbolism of the mandala-palace Tantric ritual and the twilight language. This section explores the Tantric teachings of the inner Zodiac and the fivefold ritual symbolism of passion. The bibliographical research contains an analysis of the Tantric section of the Kanjur exegesis and a selected Western Bibliography of the Buddhist Tantras with comments. The social security of a person in the modern world can only be ensured by a purposeful policy and actions of the state and society aimed at achieving it. This requires favorable socio-economic conditions and creating an effective personal security system protecting property and citizens. Human social security can be threatened by phenomena and processes that lead to drastic changes in the life of society and dangerous deformations that entail severe social consequences for the individual, social groups, and institutions. Regulating Human Rights, Social Security, and Socio-Economic Structures in a Global Perspective discusses the global regulation of human rights, social security, and socio-economic structures in an era of acute challenges and crises. It presents comprehensive research on political structures and the conflicts within causing challenges to individual identity and insecurity. Covering topics such as legal-socio studies, digital authoritarianism, and regional security, this premier reference source is an essential resource for government officials, politicians, geopolitical experts, economists, non-profit organizations, human rights advocates, libraries, students, researchers, and academicians. The now-classic exploration of the role of women and the feminine in Buddhist Tantra The crowning cultural achievement of medieval India, Tantric Buddhism is known in the West primarily for the sexual practices of its adherents, who strive to transform erotic passion into spiritual bliss. Historians of religion have long held that this attempted enlightenment was for men only, and that women in the movement were at best marginal and

subordinated and at worst degraded and exploited. In *Passionate Enlightenment*, Miranda Shaw argues to the contrary and presents extensive evidence of the outspoken and independent female founders of the Tantric movement and their creative role in shaping its distinctive vision of gender relations and sacred sexuality. Including a new preface by the author, this Princeton Classics edition makes an essential work available for new audiences. Using a commentary on the influential text, the *Mañjuśrī-nāmasaṃgīti*, 'The Chanting of the Names of Mañjuśrī', this book deals with Buddhist tantric meditation practice and its doctrinal context in early-medieval India. The commentary was written by the 8th-9th century Indian tantric scholar Vilāsavajra, and the book contains a translation of the first five chapters. The translation is extensively annotated, and accompanied by introductions as well as a critical edition of the Sanskrit text based on eight Sanskrit manuscripts and two blockprint editions of the commentary's Tibetan translation. The commentary interprets its root text within an elaborate framework of tantric visualisation and meditation that is based on an expanded form of the Buddhist Yoga Tantra mandala, the *Vajradhātu-maṇḍala*. At its heart is the figure of Mañjuśrī, no longer the familiar bodhisattva of wisdom, but now the embodiment of the awakened non-dual gnosis that underlies all Buddhas as well their activity in the cosmos. The book contributes to our understanding of the history of Indian tantric Buddhism in a period of significant change and innovation. With its extensively annotated translation and lengthy introductions the book is designed to appeal not only to professional scholars and research students but also to contemporary Buddhists. Papers presented at a session of a conference held at the University of Newcastle, New South Wales, Australia, in August 1988. Among the many spiritual traditions born and developed in India, Tantra has been the most difficult to define. Almost everything about it its major characteristics, its sources, its relationships to other religions, even its practices are debated among scholars. This study of the Indo-Tibetan ritual of rendering religious objects sacred concerns one of the fundamental Buddhist tantric processes of transformation into a chosen tantric Buddha. It provides a general discussion of the ritual as well as detailed analyses of each ritual step in the composite present-day consecration. The tradition known as the Path with the Result, or Lamdre, is the most important tantric system of meditation practice and theory in the Sakya school of Tibetan Buddhism. This volume contains an unprecedented compilation of eleven vital works from different periods in the history of the Path with the Result in India and Tibet, including the Vajra Lines of the great Indian adept Virupa (ca. seventh-eighth centuries), the basic text of the tradition. The

collection also includes six writings by Jamyang Khyentse Wangchuk (1524-68) and an instruction manual composed by the Fifth Dalai Lama (1617-62). None of the works in this book have ever been published before in any European language, and most of these writings traditionally have been considered secret. The present translation, an important new volume of the Library of Tibetan Classics, has been made with the personal approval and encouragement of His Holiness Sakya Trizin, head of the Sakya tradition. Students of the Lamdre will rejoice at the availability and lucidity of this major translation of key Sakya texts. Study on Pratyabhijñākārikā, a basic text of the Kashmir Saivites by Utpala, fl. 900-950, Saivite saint. Tantra in Practice is the eight volume of Princeton Readings in Religions and the first substantial anthology of Tantric works ever to appear in English. The thirty-nine contributors, drawn from around the world, are leading scholars of Tantra. Each contributor has provided a translation of a key work, in most cases translated here for the first time. Each chapter in the volume begins with an introduction in which the translator discusses the history and influence of the work, identifying points of particular difficulty or interest. David White has provided a general introduction to the volume that serves as an ideal guide to the riches contained between the covers of this book. He has organized the volume thematically, providing fascinating juxtapositions of works from different regions, periods, and traditions. Two additional tables of contents are provided, organizing the works by tradition and by country of origin. The range of works represented here is remarkable, spanning the continent of Asia and the traditions of Hinduism, Buddhism, Jainism and Islam over more than a millennium. With the publication this volume, the long disparaged and neglected Tantric traditions of Asia receive the attention they so rightly deserve. This is a groundbreaking work. The following text belongs to the Supreme Yogatantra of Tibetan Buddhism. It dates back to the 11th century . It was created by a team of Tibetan and Indian scholars around Drokmi and Gayadhara. Drokmi is known as Lotsava Shakya Yeshe. This is Eye of the World from Sanskrit. Texts of this kind are very precious and rare. I am very thankful that this text felt in my hands. In our courses that have been set up over the years in our group around Khen Rinpoche Pema Samten we have reached the point where we can begin the meditation of the Completion stage. Users of this text should have experience with the Supreme Yogatantra. Then the meditation of the text can be extremely beneficial. Beginners in Buddhism should practice the basic practice first. The essence of this book is tantra, which in Sanskrit means "to weave," as in to interweave your thread of life with that of others to create a tapestry, an integrated whole that serves a purpose or tells a story. The essence of tantra is to use everything you have to transform yourself from an unhappy limited mortal to one who is in contact with what we call the eternal and infinite. Tantric practices date back to the Hindu religion and probably have roots further back in time than that. This is ancient tantra, not the modern neotantra that has no relationship to true tantra. True tantric techniques can be used to supplement any religious or non-religious practices. Tantra is famous, possibly infamous, for its sexual practices, and we will cover those in this book. But tantra extends far beyond the sexual arena and can encompass all aspects of life. The term Western Tantra as a specific practice is the universal aspect of the traditional forms of tantra practiced in the Eastern religions, stripped of its Eastern cultural trappings and reframed and repopulated with the cultural foundations of the Western nations. Why reframe tantra? Eastern tantra is tailored to the Eastern nations which have different histories, mindsets, and traditions that seem very foreign and unrealistic to Westerners. Stories of flying statues, magic jewels and such make us question other concepts which may be true. This book adapts Eastern tantra for use in the West by those of any faith, or those with none. Published in conjunction with a 2003 exhibition co-organized by the Columbus Museum of Art and the Los Angeles County Museum of Art, this hefty, oversize (10x13 catalogue features approximately 160 powerful masterpieces of Indian, Nepalese, Tibetan, Chinese, and Mongolian art produced over the pa Like Becoming the Compassion Buddha, this is another of Lama Yeshe's examinations of key Tantric deity practices in the Tibetan Buddhist tradition. Common to all four traditions of Tibetan Buddhism, the practice of Vajrasattva is used to purify obstacles to spiritual development, negative karma, and illness. Lama Yeshe, the inspirational teacher who strongly influenced the development of Buddhism in the West,

found that the practice of Vajrasattva brought dramatic results for his Western students. *Becoming Vajrasattva* is a complete guide to this purification practice, providing instruction on the method, commentary on the traditional texts, and insight into tantra. Also included is an entire section of complete retreat instructions?required reading for anyone undertaking a meditation retreat in the Tibetan tradition. *Tantric Revisionings* presents stimulating new perspectives on Hindu and Buddhist religion, particularly their Tantric versions, in India, Tibet or in modern Western societies. Geoffrey Samuel adopts an historically and textually informed anthropological approach, seeking to locate and understand religion in its social and cultural context. The question of the relation between 'popular' (folk, domestic, village, 'shamanic') religion and elite (literary, textual, monastic) religion forms a recurring theme through these studies. Six chapters have not been previously published; the previously published studies included are in publications which are difficult to locate outside major specialist libraries.
