The first part of the book describes the basic requirements and constraints of a bead crochet pattern and explains what makes designing in this medium so tricky. The authors present their new design framework and offer insight on how best to approach design choices and issues unique to bead crochet. The second part presents a series of bead crochet design challenges informed by colorful bits of mathematics, including topology, graph theory, knot theory, tessellations, and wallpaper groups. Each chapter in this section

begins with a design puzzle accompanied by an introduction to the mathematical idea that inspired it. The authors then discuss what made the challenge difficult, present some of their solutions, and describe the thinking and ideas behind their approach. The final part contains nearly 100 original bead crochet patterns, including solutions to all the design challenges. This part also provides a tutorial on the fundamentals of bead crochet technique. Behind the deceptively simple and uniform arrangement of beads is a subtle geometry that produces compelling design challenges and fascinating mathematical structures. In color throughout, *Crafting Conundrums* gives both math enthusiasts and crafters an innovative approach to creating bead crochet patterns while addressing a variety of mathematically inspired design questions. "Jewelry as art is America's most provocative current art form. This is jewelry that must be evaluated, like fine art, for its ideas, inventions, intuitions, and content rather than for its precious materials or conformity to tradition. Yet it is art that can be worn, and as such has a unique advantage over all other mediums in its direct contact with the body, giving it an engaging intimacy." "Since World War II, the field of art jewelry has bloomed prodigiously, thanks to the talents of a richly diverse group of practitioners who have explored the range of the art and the possibilities of the craft. Here, Susan Grant Lewin profiles 54 of the best artist/jewelers among a growing number who speak to jewelry's history and traditions as well as addressing contemporary conceptual and cultural issues." "These 54 jewelers are showcased here with individual profiles,

illustrated with several examples of their work, all reproduced in full color. A much-needed overview of this exciting new area, *One of a Kind: American Art Jewelry Today* discusses the definition of art jewelry, presents a history of the studio jewelry movement in America tracing the developments that have led up to the current period, and explores art jewelry's bonds with contemporary sculpture." "Two forewords open the book: one by noted art critic Barbara Rose, who looks at the historical context of jewelry by artists and jewelry in art, and the other by Jack Lenor Larsen, America's foremost artist/artisan/designer. There are also essays by Suzanne Ramljak, editor-in-chief of *Sculpture* magazine, and art historian Toni Greenbaum. A glossary, bibliography, and index complete the book."--BOOK JACKET.
