*The Business of Words Aug 26 2020 The Business of Words examines the practices of 'high-end' language workers or wordsmiths where we find words being professionally designed, institutionally managed, and, inevitably, objectified for status and profit. Aligned with existing work on language and political economy in critical sociolinguistics and discourse studies, the volume offers a novel, complementary insight into the relatively elite practices of language workers such as advertisers, dialect coaches, publishers, judges, translators, public relations officers, fine artists, journalists, and linguists themselves. In fact, the book considers what academics might learn about language from other wordsmiths, opening a space for 'dialogue' between those researching language and those who also stake a claim to linguistic expertise and a way with words. Bringing together an array of leading international scholars from the cognate fields of discourse studies, sociolinguistics, and linguistic anthropology, this book is an essential resource for researchers, advanced undergraduate, and postgraduate students of English language, linguistics and applied linguistics, communication and media studies, and anthropology.*

*30 Days to a More Powerful Business Vocabulary Oct 20 2022 "...A LEARNING EXPERIENCE THAT CAN*

*CHANGE YOUR LIFE FOREVER.” -BRIAN TRACY The author of the best-selling 30 Days to a More Powerful Vocabulary, Dan Strutzel, now puts his focus on communicating successfully in the business world! Business is just like any sector or topic, with its own language, customs, codes, and terminologies. Different aspects of business can have their own distinctive terminology, which can also overlap. In 30 Days to a More Powerful Business Vocabulary, Dan presents over 500 words and short expressions from a variety of different business categories. Each section introduces approximately 25 words. Each of the words are initially presented in a story or conversation, so you can experience the correct context in which the words are used. Dan then discusses each word or phrase and its definition. Finally, he reinforces the word and its meaning with another example in a sentence. And of course, Dan has you make all of the words a part of your permanent vocabulary by using his “30-day learning program” based on well-known super-learning principles. There are four sections on banking and finance, four on marketing, and four on negotiation. Other sections focus on sales, entrepreneurship, human resources, e-business, leadership, and an all-new section on remote learning! The book’s intention is to be entertaining, informative, and inspiring. As the world changes, language changes with it—and both are changing very fast. With 30 Days to a More Powerful Business Vocabulary, you’ll keep pace with those changes and watch your career benefit as a result!*

*30 Days to a More Powerful Vocabulary May 23 2020 A Bigger Vocabulary = A Brighter Future Words. They’re the foundation of nearly everything of value in our world. They have the power to create and the power to destroy. The power to inspire and to terrify. The power to enlighten and also to obscure. And, more specifically for you, they have the power to attract wealth and success and guarantee your brighter future. This is not hyperbole - it is based on rock-solid research. Studies show that those people with large vocabularies are smarter, wealthier, and happier than the average person - and substantially so. And here’s the best news of all: a large vocabulary is not tied to your social status, your genes, or even your education level. It is a skill that can be learned - and it takes only 30 days. In this cutting-edge program, 30 Days to a More Powerful Vocabulary, personal development expert and English enthusiast Dan Strutzel will instruct, enlighten, and inspire you with a concentrated 30-day program that will teach you over 500 words. But, more than teaching you these words, the uniquely designed program will ensure that these words become a habit-knit part of your life - and with minimal effort on your part. Best of all, research shows that learning new words has an exponential effect on the size of your vocabulary - since learning one word naturally produces an association between two to three more words. Here’s just a sampling of what you’ll learn: The 10 myths about building a dynamic vocabulary The secret behind the exponential effect of vocabulary building A 30-day program designed to maximize learning and comprehension of over 500 words The words you need to know about money and financial issues The words you need to know about persuading others The words you need to know about marriage, parenting, and other relationships The words you need to know about science The words you need to know to be a great conversationalist Why building a large, dynamic vocabulary is even more valuable in the digital age And much more!*
