of the Year for Nonfiction "...an essential and engaging look at recent disability history."— Buzzfeed One of the most influential disability rights activists in US history tells her personal story of fighting for the right to receive an education, have a job, and just be human. A story of fighting to belong in a world that wasn't built for all of us and of one woman's activism—from the streets of Brooklyn and San Francisco to inside the halls of Washington—Being Heumann recounts Judy Heumann's lifelong battle to achieve respect, acceptance, and inclusion in society. Paralyzed from polio at eighteen

months, Judy's struggle for equality began early in life. From fighting to attend grade school after being described as a "fire hazard" to later winning a lawsuit against the New York City school system for denying her a teacher's license because of her paralysis, Judy's actions set a precedent that fundamentally improved rights for disabled people. As a young woman, Judy rolled her wheelchair through the doors of the US Department of Health, Education, and Welfare in San Francisco as a leader of the Section 504 Sit-In, the longest takeover of a governmental

building in US history. Working with a community of over 150 disabled activists and allies, Judy successfully pressured the Carter administration to implement protections for disabled peoples' rights, sparking a national movement and leading to the creation of the Americans with Disabilities Act. Candid, intimate, and irreverent, Judy Heumann's memoir about resistance to exclusion invites readers to imagine and make real a world in which we all belong. 50 Best Short Hikes San Diego highlights enough diverse routes in Southern California's showpiece city for a

The Mexican and Chicana/o residents of San Diego have a long, complicated, and rich history that has been largely ignored. This collection of essays shows how the Spanish-speaking people of this border city have created their own cultural spaces. Sensitive to issues of gender—and paying special attention to political, economic, and cultural figures and events—the contributors explore what is

unique about San Diego's Mexican American history. In chronologically ordered chapters, scholars discuss how Mexican and Chicana/o people have resisted and accommodated the increasingly Anglo-oriented culture of the region. The book's early chapters recount the historical origins of San Diego and its development through the mid-nineteenth century, describe the "American colonization" that followed, and include examples of Latino resistance that span the twentieth century—from early workers' strikes to the United Farm Workers movement of the 1960s. Later

chapters trace the Chicana/o Movement in the community and in the arts; the struggle against the gentrification of the barrio; and the growth of community organizing (especially around immigrants' rights) from the perspective of a community organizer. To tell this sweeping story, the contributors use a variety of approaches. Testimonios retell individual lives, ethnographies relate the stories of communities, and historical narratives uncover what has previously been ignored or discounted. The result is a unique portrait of a marginalized

population that has played an important but neglected role in the development of a major American border city. This national bestseller chronicles one man's 650-mile trek on foot from San Diego to San Francisco—sure to appeal to readers of naturalist works like Edward Abbey's *Desert Solitaire*, Paul Thoreau's *On the Plain of Snakes*, and Mark Kenyon's *That Wild Country*. In 1769, an expedition led by Gaspar de Portolá sketched a route that would become, in part, the famous El Camino Real. It laid the foundation for the Golden State we know today, a place that remains as mythical

and captivating as any in the world. Despite having grown up in California, Nick Neely realized how little he knew about its history. So he set off to learn it bodily, with just a backpack and a tent, trekking through stretches of California both lonely and urban. For twelve weeks, following the journal of expedition missionary Father Juan Crespi, Neely kept pace with the ghosts of the Portola expedition—nearly 250 years later. Weaving natural and human history, Alta California relives Neely's adventure, while telling a story of Native cultures and the Spanish

missions that soon devastated them, and exploring the evolution of California and its landscape. The result is a collage of historical and contemporary California, of lyricism and pedestrian serendipity, and of the biggest issues facing California today—water, agriculture, oil and gas, immigration, and development—all of it one step at a time. "Rich in little-known history . . . Up the Santa Barbara and San Luis Obispo county coasts, then inland into the Salinas Valley to Monterey Bay. Somewhere along here, the owl moons and woodpeckers do something you

might not have thought possible in 2019: they make you fall, or re-fall, in love with California, ungrudgingly, wildfires and insane housing prices and all . . . What a journey, you think. What a state."
—San Francisco Chronicle

The first time -- plus pertinent information on their backgrounds and future lives (including those who continued on in July of 1769 with Gaspar de Portola, seeking the port of Monterey). A stunning sunset in Cardiff, to a winter swell in Del Mar, to the glamorous roof top views of a city in bloom, these images inspire the viewer to take a break. Look around. Life is good right here in our beautiful city, San Diego. Sunset Cliffs Park meanders along a mile and a half of San Diego's

coastline, beckoning tourists and locals alike. These stunning cliffs inspired Albert Spalding, sportsman and visionary, to create a park in 1915 for all to enjoy. In the century since, many have left their mark, including the powerful Pacific Ocean. John Mills, an enterprising land baron, restored the original park, only to have it fall into neglect during the Depression and World War II. It became a popular spot for pioneering surfers and divers in the postwar boom, and the park's colorful landscape attracted artists and children. Join author Kathy Blavatt as she relates the many

transformations of this beloved park and looks to its future. Coloring Book, San Diego, Sunshine, California, Hobbies, Fun Easy-to-read text introduces the sights of San Diego, through a full day of sightseeing. The Plan of San Diego, a rebellion proposed in 1915 to overthrow the U.S. government in the Southwest and establish a Hispanic republic in its stead, remains one of the most tantalizing documents of the Mexican Revolution. The plan called for an insurrection of Mexicans, Mexican Americans, and African Americans in support of the Mexican Revolution and the waging of a

genocidal war against Anglos. The resulting violence approached a race war and has usually been portrayed as a Hispanic struggle for liberation brutally crushed by the Texas Rangers, among others. The Plan de San Diego: Tejano Rebellion, Mexican Intrigue, based on newly available archival documents, is a revisionist interpretation focusing on both south Texas and Mexico. Charles H. Harris III and Louis R. Sadler argue convincingly that the insurrection in Texas was made possible by support from Mexico when it suited the regime of President Venustiano Carranza, who co-opted and

manipulated the plan and its supporters for his own political and diplomatic purposes in support of the Mexican Revolution. The study examines the papers of Augustine Garza, a leading promoter of the plan, as well as recently released and hitherto unexamined archival material from the Federal Bureau of Investigation documenting the day-to-day events of the conflict. Dogs and their humans are enjoying a great proliferation of dog-friendly hotels and restaurants making it more pleasurable than ever to travel and enjoy recreational time together. A touching story about Japanese American children who

corresponded with their beloved librarian while they were imprisoned in World War II internment camps. When Executive Order 9066 is enacted after the attack at Pearl Harbor, children's librarian Clara Breed's young Japanese American patrons are to be sent to prison camp. Before they are moved, Breed asks the children to write her letters and gives them books to take with them. Through the three years of their internment, the children correspond with Miss Breed, sharing their stories, providing feedback on books, and creating a record of their

experiences. Using excerpts from children's letters held at the Japanese American National Museum, author Cynthia Grady presents a difficult subject with honesty and hope.
