Myth, Truth, and Narrative in Herodotus May 18 2022 Herodotus, the 'Father of History', is infamously known for having employed elements more akin to mythological tales than to unvarnished 'truth' in translating his historical research into narrative form. While these narratives provide valuable source material, he could not have surmised the hostile reception his work would receive in later generations. This mythical aspect of the Histories led many successors, most notoriously Plutarch, to blame Herodotus for spinning far-fetched lies, and to set him apart as an untrustworthy historian. Echoes of the same criticism resounded in twentieth-century scholarship, which found it difficult to reconcile Herodotus' ambition to write historical stories 'as they really happened' with the choices he made in shaping their form. This volume brings together 13 original articles written by specialists in the fields of ancient Greek literature and history. Each article seeks to review, re-establish, and rehabilitate the origins, forms, and functions of the Histories' mythological elements. These contributions throw new light on Herodotus' talents as a narrator, underline his versatility in shaping his work, and reveal how he was inspired by and constantly engaged with his intellectual milieu. The Herodotus who emerges is a Herculean figure, dealing with a vast quantity of material, struggling with it as with the Hydra's many-growing heads, and ultimately rising with consummate skill to the organisational and presentational challenges it posed. The volume ultimately concludes that far from being unrelated to the 'historical' aspects of Herodotus' text, the 'mythic' elements prove vital to his presentation of history.

Herodotus in the Long Nineteenth Century Dec 13 2021 Explores the many different ways in which Herodotus' Histories were read and

understood during a momentous period of world history.

The Geographical System of Herodotus, Examined and Explained, by a Comparison with Those of Other Ancient Authors and with Modern Geography Etc Jul 08 2021

The nine books of the History of Herodotus, tr. from the text of T. Gaisford, with notes and a summary by P.E. Laurent Jan 02 2021

The Historian's Craft in the Age of Herodotus Mar 04 2021 The origins and development of Greek historiography cannot be properly understood unless early historical writings are situated in the framework of late archaic and early classical Greek culture and society.

Contextualization opens up new perspectives on the subject in *The Historian's Craft in the Age of Herodotus*. At the same time, such writings offer significant insights into how works of Herodotus reflect the attitude of fifth-century Greeks towards the transmission and manipulation of knowledge about the past. Essays by an international range of experts explore all aspects of the topic and, at the same time, make a thought-provoking contribution to the ongoing debates concerning literacy and oral culture.

Sophocles: The Trachiniae (1st ed. 1892) Nov 19 2019

[Black Doves Speak](#) Feb 27 2023 In Greek thought, barbaroi are utterers of unintelligible or inarticulate sounds. What importance does the text of Herodotus's Histories attribute to language as a criterion of ethnic identity? The answer to this question illuminates the empirical foundations of Herodotus's pluralistic worldview. The first translator of cultures also translates, describes, and evaluates foreign speech to a degree unparalleled by other Greek ancient authors. For Herodotus, language is an area of interesting but surprisingly unproblematic

difference, which he offers to his audience as a model for coming to terms in a neutral way with other, more emotionally charged, cultural differences.

Herodotus and Imperial Greek Literature Feb 03 2021 "Herodotus and Imperial Greek Literature is the first monograph devoted to the reception of Herodotus among Imperial Greek writers. Using a broad reception model and focused largely on texts outside of historiography proper, this book analyzes the entanglements of criticism and imitation in select works by Dionysius of Halicarnassus, Plutarch, Dio of Prusa, Lucian, and Pausanias. It offers a new angle on Herodotus's intellectual afterlife, channeled through evocations both explicit and implicit in literary criticism, the moral essay, public oration, satire and periegetic literature. Herodotus and Imperial Greek Literature shifts focus from reputation only - what ancient authors explicitly had to say about Herodotus - toward the kinetic interrelation between Herodotus's reputation and his active reworking across genre and mode. It demonstrates how Herodotus was strategically construed and often implicitly summoned - as fabulist, classicist, moralizer, and evasive intellectual - and how such Herodotean presences played to the wider purposes of Imperial writers. Herodotus became a touchstone for writers concerned with a nimbus of questions that the Histories first helped to articulate. Imperial Greeks found Herodotus useful in puzzling through questions of authorial persona, mimesis, the relationship between aesthetic and ethical criticism, the self, and the contingent definitions of Hellenism under Rome. Ultimately, Herodotus and Imperial Greek Literature widens an incomplete reception history and reads bi-focally, examining how attention to the presence of Herodotus in various texts unveils new layers of meaning in those works, while also showing how ancient receptions offer insight into the Histories"--

[The Plays and Fragments](#) Dec 21 2019

Thucydides and Herodotus Jan 14 2022 This edited collection looks at two of the most important ancient Greek historians living in the 5th Century BCE who are considered to be the founders of the western tradition of historiography. Thucydides and Herodotus examines the

relevant relationship between these historians which is considered, especially nowadays, by historians and philologists to be more significant than previously realized. The volume includes an introduction by the editors which addresses our changing view of how the historians relate to one another, and twelve papers written by leading experts in the field of ancient history and philology. Nine of the papers discuss either comprehensive issues pertaining to the historians' relationship or their common themes and practices, while three further papers discuss the ancient reception of Herodotus and Thucydides and investigate the historians' debt to Homer.

The Advent of Pluralism May 26 2020 In this study of the relationship between a modern philosophical idea and an ancient historical moment, Lauren Apfel explores how the notion of pluralism, made famous by Isaiah Berlin, features in the Classical Greek world and, more specifically, in the thought of three of its most prominent figures: Protagoras, Herodotus, and Sophocles.

[Interpreting Herodotus](#) Jun 19 2022 Charles W. Fornara's Herodotus: An Interpretative Essay (Oxford, 1971) was a landmark publication in the study of the great Greek historian. Well-known in particular for its main thesis that the Histories should be read against the background of the Atheno-Peloponnesian Wars during which it was written, its insight and penetrating discussion extend to a range of other issues, from the relative unity of Herodotus' work and the relationship between his ethnographies and historical narrative, to the themes and motifs that criss-cross the Histories and how 'history became moral and Herodotus didactic'. Interpreting Herodotus brings together a team of leading Herodotean scholars to look afresh at the themes of Fornara's seminal Essay in the light of the explosion of scholarship on the Histories in the intervening years, focusing particularly on how we can interpret Herodotus' work in terms of the context in which he wrote. What does it mean to talk of the unity of the Histories, or Herodotus' 'moral' purpose? How can we reconstruct the context in which the Histories were written and published? And in what sense might the Histories constitute a 'warning' for his own, or for subsequent, generations? In developing and

interrogating Fornara's influential ideas for a new generation of scholars, the volume not only asserts their enduring value to scholarship, but also offers a wealth of insights and new perspectives on the 'Father of History' that attests to the vibrancy and diversity of contemporary engagement with Herodotus.

[The Geographical System of Herodotus](#) Jun 07 2021

The Cambridge Companion to Herodotus Sep 10 2021 Herodotus' Histories is the first major surviving prose work from antiquity. Its range of interests is immense, covering the whole of the known world and much beyond, and it culminates in a detailed account of the Persian Wars of the early fifth century BC. Moreover, research has shown that Herodotus is a sophisticated and at times even ironic narrator, and a pioneer and serious practitioner of historical research at a time when the Greeks' traditions about their past were still the fluid transmissions and memories of a largely oral society. This Companion provides a series of accessible chapters, written by distinguished scholars, illuminating many aspects of Herodotus' work: his skill in language and his narrative art; his intellectual preconceptions; his working methods and techniques; his attitude towards nature and the gods; his attitude towards foreign cultures and peoples; and his view of human life and human history.

Herodotus: Volume 2 Dec 25 2022 This second volume's selected essays look at the principles of Herodotus' research concerning the physical world in the light of traditional myth and the science of his times, and deal with the connections between travelling and storytelling, culture and gender, Hellenic and barbarian religions, and memory and ethnicity.

Herodotus in the Anthropocene Feb 15 2022 We are living in the age of the Anthropocene, in which human activities are recognized for effecting potentially catastrophic environmental change. In this book, Joel Alden Schlosser argues that our current state of affairs calls for a creative political response, and he finds inspiration in an unexpected source: the ancient writings of the Greek historian Herodotus. Focusing on the Histories, written in the fifth century BCE, Schlosser identifies a cluster of concepts that allow us to better grasp the dynamic complexity

of a world in flux. Schlosser shows that the Histories, which chronicle the interactions among the Greek city-states and their neighbors that culminated in the Persian Wars, illuminate a telling paradox: at those times when humans appear capable of exerting more influence than ever before, they must also assert collective agency to avoid their own downfall. Here, success depends on nomoi, or the culture, customs, and laws that organize human communities and make them adaptable through cooperation. Nomoi arise through sustained contact between humans and their surroundings and function best when practiced willingly and with the support of strong commitments to the equality of all participants. Thus, nomoi are the very substance of political agency and, ultimately, the key to freedom and ecological survival because they guide communities to work together to respond to challenges. An ingenious contribution to political theory, political philosophy, and ecology, Herodotus in the Anthropocene reminds us that the best perspective on the present can often be gained through the lens of the past.

[A Companion to Ethnicity in the Ancient Mediterranean](#) Sep 29 2020 A Companion to Ethnicity in the Ancient Mediterranean presents a comprehensive collection of essays contributed by Classical Studies scholars that explore questions relating to ethnicity in the ancient Mediterranean world. Covers topics of ethnicity in civilizations ranging from ancient Egypt and Israel, to Greece and Rome, and into Late Antiquity Features cutting-edge research on ethnicity relating to Philistine, Etruscan, and Phoenician identities Reveals the explicit relationships between ancient and modern ethnicities Introduces an interpretation of ethnicity as an active component of social identity Represents a fundamental questioning of formally accepted and fixed categories in the field

The Mirror of Herodotus Oct 31 2020 "The best book to come out on Herodotus in years."--G. E. R. Lloyd, King's College Cambridge

[Sophocles: The Trachiniae \(1st ed. 1908\)](#) Feb 21 2020

Herodotus: Volume 1 Apr 17 2022 A collection of scholarship on Herodotus. Vol. 1 discusses his historical method, sources, narrative art,

literary antecedents, intellectual background, and political ideology. Vol. 2 focuses on his description of foreign lands and peoples and the theoretical issues it raises, including the extent to which the ethnographic portrayals conform to a conventional Greek construct of barbarian 'otherness' or derive from direct contact with native sources.

Myth, Truth, and Narrative in Herodotus Jul 28 2020 This volume brings together 13 original articles which review, re-establish, and rehabilitate the origins, forms, and functions of the mythological elements that are found in the narratives of Herodotus' Histories.

The Geographical System of Herodotus Examined and Explained Aug 09 2021

Herodotus: Histories Book I Nov 24 2022 In the Histories, which could loosely be translated as 'Investigations' or 'Researches,' Herodotus tells how the Persian Empire began, grew, and then met defeat in Greece in his parents' generation. Book 1 begins that story. It introduces both the world in which the Persian imperial war machine began to operate and then expanded, and Herodotus' own procedures in undertaking the ambitious task he has set himself. This edition helps intermediate and advanced students to read the book in the original Greek and will also be of interest to advanced scholars. The Commentary provides information about dialect, grammatical forms, syntax, and other properties of his language. In addition, the Introduction and the Commentary engage in literary interpretation and explore Herodotus' value as a historian, his immense curiosity, and the attention he devotes to the customs, beliefs, concrete realities, and myths of other cultures.

The Master of Signs Sep 22 2022 In Herodotus's Histories, almost anything is capable of being invested with meaning--human speech, gifts, markings, and even the human body. This book represents an unprecedented examination of signs and their interpreters, as well as the terminology Herodotus uses to describe sign transmission, reception, and decoding.

Herodotus and the Question Why Aug 21 2022 In the 5th century BCE, Herodotus wrote the first known history to break from the tradition of Homeric storytelling, basing his text on empirical observations and

arranging them systematically. Herodotus and the Question Why offers a comprehensive examination of the methods behind the Histories and the challenge of documenting human experiences, from the Persian Wars to cultural traditions. In lively, accessible prose, Christopher Pelling explores such elements as reconstructing the mentalities of storyteller and audience alike; distinctions between the human and the divine; and the evolving concepts of freedom, democracy, and individualism. Pelling traces the similarities between Herodotus's approach to physical phenomena (Why does the Nile flood?) and landmark events (Why did Xerxes invade Greece? And why did the Greeks win?), delivering a fascinating look at the explanatory process itself. The cultural forces that shaped Herodotus's thinking left a lasting legacy for us, making Herodotus and the Question Why especially relevant as we try to record and narrate the stories of our time and to fully understand them.

Sophocles: The Trachiniae Jan 22 2020

Herodotus May 06 2021

Herodotus and the Philosophy of Empire Jun 26 2020 Merry.--Elliot Bartky "The Review of Politics"

The Spectator Oct 19 2019 A weekly review of politics, literature, theology, and art.

Telling Wonders Dec 01 2020 A sharp analysis of how Herodotus' narrative participates in the rhetoric of shaping public attitudes about the present

Apollonius Rhodius, Herodotus and Historiography Jul 20 2022 Argues that Herodotus is key to understanding genre and the relationship between past and present in Apollonius of Rhodes' Argonautica.

The Ashgate Research Companion to Federalism Apr 05 2021 This comprehensive research companion examines the theory, practice and historical development of the principle of federalism from the ancient period to the contemporary world. The scope and range of the volume is unparalleled; it will provide the reader with a firm understanding of federalism as issues of federalism promise to play an ever more important role in shaping our world.

The Ancient History of Herodotus Mar 24 2020

Herodotus - narrator, scientist, historian Oct 11 2021 Recently the importance for Herodotus' work of contemporary medical and sophistic thought and techniques of argument has been widely recognised, as long had been his dependence on and difference from earlier geographical and ethnographic writing. This volume focuses on the place of these interests in his investigatory techniques and sets them alongside his many narrative skills, from superficially traditional battle narrative and reworking of Greek or non-Greek traditions that border on myth to the structuring of narrative by highlighting the life of objects, and addresses such fundamental issues as how he chooses between competing explanations and how far he valued truth. The book tackles many of the basic issues that confront any attempt to understand Herodotus' work.

Herodotus and Religion in the Persian Wars Oct 23 2022 The two great Persian invasions of Greece, in 490 and 480-79 B.C., both repulsed by the Greeks, provide our best opportunity for understanding the interplay of religion and history in ancient Greece. Using the Histories of Herodotus as well as other historical and archaeological sources, Jon Mikalson shows how the Greeks practiced their religion at this pivotal moment in their history. In the period of the invasions and the years immediately after, the Greeks--internationally, state by state, and sometimes individually--turned to their deities, using religious practices to influence, understand, and commemorate events that were threatening their very existence. Greeks prayed and sacrificed; made and fulfilled vows to the gods; consulted oracles; interpreted omens and dreams; created cults, sanctuaries, and festivals; and offered dozens of dedications to their gods and heroes--all in relation to known historical events. By portraying the human situations and historical circumstances in which Greeks practiced their religion, Mikalson advances our knowledge of the role of religion in fifth-century Greece and reveals a religious dimension of the Persian Wars that has been previously overlooked.

Larcher's Notes on Herodotus: Melpomene Mar 16 2022

Herodotus: Histories Book I Jan 26 2023 An indispensable tool for teaching and reading Herodotus' first book in Greek, discussing both language and literary interpretation.

Herodotus and His World Aug 29 2020 This collection of essays illuminates Herodotus and the world in which he wrote.

Herodotus and Greek History (Routledge Revivals) Apr 24 2020 Herodotus has shaped our knowledge of life, religion, war and politics in ancient Greece immeasurably, as well as being one of the most entertaining of all Classical Greek authors: fascinating, perceptive, accessible and not at all pretentious. Herodotus and Greek History, first published in 1982, examines the themes and preoccupations which form the basis for Herodotus' style of history. The Athenian nobility, important protagonists in the context of what we know of his sources; the human and divine forces, which Herodotus understood as influencing the course of history; and the concepts of character and motivation are all discussed. Herodotus' treatment of religious belief and oracles, politics and war, and his portrayal of certain prominent individuals are specifically investigated. The final chapter situates Herodotus in his historical context. John Hart's lucid, well-informed and lively discussion of Herodotus will be value to A-level candidates, school teachers, undergraduates, lecturers and curious non-classicists alike.

Ethnicity and Identity in Herodotus Nov 12 2021 Herodotus is the epochal authority who inaugurated the European and Western consciousness of collective identity, whether in an awareness of other societies and of the nature of cultural variation itself or in the fashioning of Greek self-awareness - and necessarily that of later civilizations influenced by the ancient Greeks - which was perpetually in dialogue and tension with other ways of living in groups. In this book, 14 contributors explore ethnicity - the very self-understanding of belonging to a separate body of human beings - and how it evolves and consolidates (or ethnogenesis). This inquiry is focussed through the lens of Herodotus as our earliest master of ethnography, in this instance not only as the stylized portrayal of other societies, but also as an exegesis on how ethnocultural differentiation may affect the lives, and even the very existence, of one's own people. Ethnicity and Identity in Herodotus is one facet of a project that intends to bring Portuguese and English-speaking scholars of antiquity into closer cooperation. It has united a cross-section

of North American classicists with a distinguished cohort of Portuguese and Brazilian experts on Greek literature and history writing in English.
