Ever since humans became self-aware, we have struggled to find the meaning of life. The price we paid for becoming intelligent was to become painfully ignorant of the difference between good and evil. Adi, a 10-year-old boy, works together with two old philosophers as they try to unravel the prophecy of a promised King. With insatiable curiosity, Adi must work with the wise men as they rationalize with each other on why and how humans became intelligent. Together they attempt to answer some of the most profound questions related to existence. Does evolution end with human beings or is there an 'Overman' who can reach evolution's pinnacle? Will this Overman be able to define values for humankind? Centuries later a young boy promises his mother that he will always uphold the love that she has taught him. It is a promise that drowns him in the nectar of the gods. Krish grows up to be an engineer and joins a team of scientists as they try to create artificial consciousness in a machine. Krish soon realizes that he has a bigger fight on his hands. A fight to preserve love in a desolate world. His quest for true love ultimately leads him down a path where he comes face to face with a fearsome snake delivering a kiss of death. Humans have come a long way by questioning the nature of objects around us and pushing the limits of our intelligence, but it's now time that we ask the greatest question yet: when does intelligence transcend to become consciousness? For Maya, history is like a dream, and her dreams are like a history of her life and how it relates to others. Effortlessly defying and calling into question time and space, Maya inhabits fantastical realities filled with shamans, romantic longing, a daughter's struggles, and a flying dragon. Lyrically flowing between Maya's multiple realities, The Original Dream is the story of a young independent Indonesian woman trying to break free from cultural and social conventions while also searching for her place among family and friends. With guidance from her parents, coworkers, and sister, along with a newborn filled with the wisdom of elders, Maya navigates her perceptions, looking for answers to unknown questions. Whether soaring through the nighttime sky, caring for her nephew, or tending to guests at the hotel where she works, she tries to delineate the difference between dreams and reality and if such a difference even matters. Sun Yung Shin leads her readers into the underworld, a witchy Garden of Eden where death blooms in many forms. From an extended image of baby-as-exit-wound to her now-extinct Korean zodiac animal, the tiger, personal and environmental losses form the backdrop against which Sun Yung Shin examines questions of identity, evolution, and violence in The Wet Hex. Using archival materials from her own childhood immigration process—or was it the beginning of an exile?—Shin explores the ways that lives are weighed and bartered, and reflects on the pain of separation permeating the lives of so many Korean adoptees. Smashing the hierarchies of god and man, heaven and hell in favor of shamanic wisdom, The Wet Hex brings us into the sublime moments of birthed experience—the beautiful and terrible all in one. Confronting trauma behind the transnational adoption system—now back in print Many adoptees are required to become people that they were never meant to be. While transracial adoption tends to be considered benevolent, it often exacts a heavy emotional, cultural, and economic toll on those who directly experience it. Outsiders Within is a landmark publication that carefully explores this most intimate aspect of globalization through essays, fiction, poetry, and art. Moving beyond personal narrative, transracially adopted writers from around the world tackle difficult questions about how to survive the racist and ethnocentric worlds they inhabit, what connects the countries relinquishing their children to the countries importing them, why poor families of color have their children removed rather than supported—about who, ultimately, they are. In their inquiry, the contributors unseat conventional understandings of adoption politics, reframing the controversy as a debate that encompasses human rights, peace, and reproductive justice. This volume delves into Ireland's forgotten history bringing to light some of the most colorful characters and intriguing episodes of the country's long history. Ireland is approximately the size of the state of Indiana, yet this small country boasts an extensive, rich, and fascinating history. Ireland's Forgotten Past is an alternative history that covers 13,000 years in 36 stories that are often left out of history books. Among the characters in these absorbing accounts are a pair of ill-fated prehistoric chieftains, a psychopathic Viking, a gallant Norman knight, a dazzling English traitor, an ingenious tailor, an outstanding war-horse, a brothel queen, an insanely prolific sculptor, and a randy prince. This volume offers a succinct account of the Stone Age and Bronze Age, as well as insights into the Bell-Beakers, the Romans, and the Knights Templar. Historian Turtle Bunbury writes a gently off-beat take on monumental events like the Wars of the Roses, the Tudor Conquest and the Battle of the Boyne, as well as the Home Rule campaign and the Great War. Ireland's Forgotten Past adds color to the existing histories of the country by focusing on the unique characters and intriguing events. This volume will delight anyone interested in the rich untold history of Ireland. In this provocative book, sixteen of Minnesota's best writers provide a range of perspectives on what it is like to live as a person of color in one of the whitest states in the nation. They give readers a splendid gift: the gift of touching another human being's inner reality, behind masks and veils and politeness. They bring us generously into experiences that we must understand if we are to come together in real relationships. Minnesota communities struggle with some of the nation's worst racial disparities. As its authors confront and consider the realities that lie beneath the numbers, this book provides an important tool to those who want to be part of closing those gaps. With contributions by: Taiyon J. Coleman, Heid E. Erdrich, Venessa Fuentes, Shannon Gibney, David Grant, Carolyn Holbrook, IBé, Andrea Jenkins, Robert Karimi, JaeRan Kim, Sherry Quan Lee, David Mura, Bao Phi, Rodrigo Sanchez-Chavarria, Diane Wilson, Kao Kalia Yang Jean-Antoine Houdon (1741-1826) has long been recognized as the greatest European portrait sculptor of the late eighteenth century, flourishing during both the American and French Revolutions as well as during the Directoire and Empire in France. Whether sculpting a head of state, an intellectual, or a young child, Houdon had an uncanny ability to capture the essence of his subject with a characteristic pose or expression. Yet until now, Houdon's exquisite sculptures have never been the subject of a major exhibition. This lavish exhibition catalogue will immediately take its rightful place as the definitive work on Houdon. With more than one hundred color plates and two hundred black and white halftones, Jean-Antoine Houdon: Sculptor of the Enlightenment illustrates every stage of the sculptor's fascinating career, from his early portrayals of Louis XVI and Marie Antoinette to his stunning portraits of American patriots such as George Washington, the Marquis de Lafayette, John Paul Jones, Benjamin Franklin, and Thomas Jefferson. Indeed the images we hold dear of legendary Enlightenment figures like Diderot, Rousseau, d'Alembert, and Voltaire are based on works by Houdon. More than mere representations, these sculptures provide us fascinating, intimate glimpses into the very core of who these figures were. Houdon's genius animated even his less illustrious subjects, like his portraits of his family and friends, and filled his sculptures of children with delicacy and freshness. Accompanying the images of Houdon's masterworks are four insightful essays that discuss Houdon's views on art (based in part on a newly discovered manuscript written by the artist) as well as his prominence in the highly varied cultures of eighteenth-century France, Germany, and Russia. From aristocrats to revolutionaries, actors to philosophers, Houdon's amazingly vivid portraits constitute the visual record of the Enlightenment and capture the true spirit of a remarkable age. Jean-Antoine Houdon finally gives these gorgeous works their due. The hilarious, take-no-prisoners novel about a cynical, sex-obsessed teenager's pining love for an intelligent girl—the basis for the major motion picture starring Michael Cera. Youth in Revolt is the journals of Nick Twisp, California's most precocious diarist, whose ongoing struggles to make sense out of high school, deal with his divorced parents, and lose his virginity result in his transformation from an unassuming fourteen-year-old to a modern youth in open revolt. As his family splinters, worlds collide, and the police block all routes out of town, Nick must cope with economic deprivation, homelessness, the gulag of the public schools, a competitive type-A father, murderous canines, and an inconvenient hair trigger on his erectile response—all while vying ardently for the affections of the beautiful Sheeni Saunders, teenage goddess, and ultimate intellectual goad. "Food can be a unifier and a healer, bringing people together across generations and cultures. Sharing a meal often leads to sharing stories and deepening our understanding of each other and our respective histories and practices, global and local. Newcomers to Minnesota bring their own culinary traditions and may re-create food memories at home, introduce new friends and neighbors to their favorite dishes, and explore comforting flavors and experiences of hospitality at local restaurants, community gatherings, and spiritual ceremonies. They adapt to different growing seasons and regional selections available at corner stores and farmers markets. And generations may communicate through the language of food in addition to a mix of spoken languages old and new. All of these experiences yield stories worth sharing around Minnesota cook fires, circles, and tables. Can there still be anything new to say about the erotic, sexy play, and desire? YES,

because what drives each of us to any sexual fixation—from feet or fat to latex or ponyplay—may hold mysteries, but can never be inexplicable. YES, because even the most seemingly unusual kinks and fetishes, like trample and crush, cannibal play, quicksand and male pregnancy, derive from such universal themes as power and transformation. YES, because when some taboos crumble, others emerge, with often surprising, delightful, and even disturbing consequences for our psyches and libidos. YES, because as human culture evolves, we newly discover sexual excitement and fulfillment from scenarios (such as car accidents) and objects (like gas masks and medical equipment) that never existed before. YES, because wherever there is darkness, secrecy, and silence, what's most essential is light, revelation, and ever better communication. Focusing on the anthropological consequences of the disappearing of materiality and sensory embodiment, *On Insignificance* highlights some of the most perturbing patterns of insignificance that have seeped into our everyday lives. Seeking to explain the semiotic causes of feelings of meaninglessness, Leone posits that caring for the singularities of the world is the most viable way to resist the alienating effects of the digital bureaucratization of meaning. The book will be of interest to scholars of anthropology, cultural studies, semiotics, aesthetics, communication studies, and social theory. With *The Chronicles of Thomas Covenant*, Stephen R. Donaldson changed the face of fantasy fiction forever. In *The Mirror of Her Dreams*, the astonishing first novel in the two-volume *Mordant's Need* series, Donaldson shows us a world of wondrous beauty and seductive illusion, where mirrors hold the deadliest of magics and nothing is what it seems. . . . The daughter of rich but neglectful parents, Terisa Morgan lives alone in a New York City apartment, a young woman who has grown to doubt her own existence. Surrounded by the flat reassurance of mirrors, she leads an unfulfilled life—until the night a strange man named Geraden comes crashing through one of her mirrors, on a quest to find a champion to save his kingdom of Mordant from a pervasive evil that threatens the land. Terisa is no champion. She wields neither magic nor power. And yet, much to her own surprise, when Geraden begs her to come back with him, she agrees. Now, in a culture where women are little more than the playthings of powerful men, in a castle honeycombed with secret passages and clever traps, in a kingdom threatened from without and within by enemies able to appear and vanish out of thin air, Terisa must become more than the pale reflection of a person. For the way back to Earth is closed to her. And the enemies of Mordant will stop at nothing to see her dead. Batchelor coins the term "chromophobia"—A fear of corruption or contamination through color—in a meditation on color in western culture. Batchelor analyzes the history of, and the motivations behind, chromophobia, from its beginnings through examples of nineteenth-century literature, twentieth-century architecture and film to Pop art, minimalism and the art and architecture of the present day. He argues that there is a tradition of resistance to colour in the West, exemplified by many attempts to purge color from art, literature and architecture. Batchelor seeks to analyze the motivations behind chromophobia, considering the work of writers and philosophers who have used color as a significant motif, and offering new interpretations of familiar texts and works of art.
