Edging into forty-something,
Karen and Pam found
themselves in a state of stuck.
They had checked off many of
their major life goals—career,

husband, children, friends—but
they'd lost momentum. After
griping over drinks one night,
they came up with a plan to
face their fears, rediscover
their interests, try new things,
and renew their relationships.
They challenged themselves to
try one new thing every week
for a year—from test-driving a
Maserati to target practice at a
shooting range to ballroom
dance lessons—and to blog
about their journeys. They
quickly realized it was harder
than they ever imagined but
came through it with a sense of
clarity and purpose that has
them itching to share the
possibilities with the millions of
middle-aged women out there
who feel the same way about
one or many areas of their
lives. Getting "unstuck" doesn't
have to mean running a
marathon, traveling the world,
or ending a relationship with
your partner. Through their
experiences and a good dose of
no-nonsense advice, Karen and
Pam show readers how
achieving small goals can give
you a renewed sense of
accomplishment and how you
can keep growing, learning,
and moving forward at any age.
Interspersed with personal
stories is expert advice from
doctors, psychiatrists, artists,
and even a poker diva (who
also happens to be a Fortune
500 executive). Modern Women
is a celebration of influential
and inspiring women who have

changed the world through
their lives, work and actions.
From suffragettes to scientists,
activists to artists, politicians
to pilots and writers to riot
grrrls, the women included
have all paved the way for
gender equality in their own
indomitable way. Find out
about extraordinary women
including writer and teacher
Maya Angelou, computer
scientist Ada Lovelace,
abolitionist Harriet Tubman,
film star Katharine Hepburn
and pioneering musician Björk.
Their lives also enable bigger
stories to be told: the suffrage
movement with Sophia Duleep
Singh; the civil rights struggle
and Audre Lorde; advances in
science made by Rosalind
Franklin; the push for artistic
freedom in the work of Frida
Kahlo and Louise Bourgeois;
and the importance of equality

Ngozi Adichie. Experience True

of View Has Christianity kept
women trapped in the stone
age? In many ways, yes; but
this is not by Gods design. As
society offers women
opportunities to explore outer-
space and govern nations, the
church often stifles and limits
them. The tide is changing,
though. Amber Picotas Gods
Feminist Movement is a new
covenant manifesto calling

women to embrace their true identity in Christ and fulfill their destiny as revolutionaries who shape the course of history with the Kingdom of God. There is a powerful new feminist movement emerging in the body of Christ. Its not politically driven and its not being championed by an uprising of angry man-haters. Based on an intense study of Scripture, factoring in historical and contextual hermeneutics and original languages, Picota shares a practical, non-legalistic, and non-traditional (yet deeply Biblical) look at topics that women commonly face, such as: Dating and Modesty Female Leaders in the Church Submission in Marriage Beauty and Self-Image Celebrate the power and beauty of womanhood. God has given you permission to change the world by being you! Break off religious traditions that keep women trapped in old school legalism and move beyond Christian clichés that minimize a woman's true position in Christ! Women in Art boxed set includes Coco Chanel, Frida Kahlo and Audrey Hepburn Edited by Nina Tassler, the chairman of CBS Entertainment, a collection of original essays from notable, highly accomplished women in politics, academia, athletics, the arts, and business offering advice for raising a new generation of empowered girls. Young women are bombarded these days with advice from every direction telling them to lean in, marry smart, thrive, or not even to try to have it all. So where to begin? And whom

should they listen to? Nina Tassler is, by any standard, a trailblazer. She holds one of the highest positions at CBS Corp., one of the world's most prominent media companies; she serves on the boards of prominent institutions; and she's a devoted wife and mother. It's hard to imagine a better role model for a young woman. But while attending a volleyball tournament with her daughter, Nina was forced to face her own limitations. Olympic gold medalist Misty May-Treanor was scheduled to speak and the girls were all so excited to hear what she would have to say—not just as an icon of the sport that they all loved, but as a woman. Nina realized that the absence of sports from her own girlhood meant that she didn't always know how to talk to her daughter about what it means to be a female athlete, or about how women could succeed in the often male-dominated field of sports. Nina realized that her perspective on what feminism means—on what being a woman means—is singular, and informed by her own journey...and that perhaps other women—other mothers—had their own unique ways of talking about these issues with their own girls. And so *What I Told My Daughter* was born: a kaleidoscope of talented, successful women from all walks of life—from celebrities to business executives, academics to law enforcement to philanthropic and humanitarian leaders including Geena Davis, Brooke Shields, Norah O'Donnell, First Lady Laura Bush, Pat Benatar,

Gloria Estefan, Christine Baranski, Sheila Bair, Peggy Orenstein, and Gloria Allred—share anecdotes about the stories they've told their own daughters to instill in them the belief that they are capable of doing whatever they set their mind to, and that even as they struggle to find their own way, they are far from alone. “You’ll meet suffragettes who did jujitsu, women warriors who wore lipstick into battle and queens who put women in their rightful places—positions of power.” —Ms. Based on Mackenzi Lee’s popular weekly Twitter series of the same name, *Bygone Badass BROADS* features fifty-two remarkable and forgotten trailblazing women from all over the world. With tales of heroism and cunning, in-depth bios and witty storytelling, *Bygone Badass BROADS* gives new life to these historic female pioneers. Starting in the fifth century BC and continuing to the present, the book takes a closer look at bold and inspiring women who dared to step outside the traditional gender roles of their time. Coupled with riveting illustrations and Lee’s humorous and conversational storytelling style, this book is an outright celebration of the badass women who paved the way for the rest of us. “The author of the first novel, warriors and rulers, scientists and war heroes. History abounds with tales of trailblazing women long forgotten—especially those who were nonwhite, non-Western, or not straight. Take a look at a dozen of the women

in Bygone Badass Broads so you can begin to see what you missed in history class.” —The Boston Globe “Shar[es] the stories of fifty-two women in history who changed the game forever—even though you’ve probably never heard of them . . . If you’re looking for some inspiration this , you Women’s History Month just got it—fifty-two times over.” —Bustle “Lee admirably fulfills her stated goal of promoting lesser-known subjects who are awesome, accompanied by brightly colored, full-page artwork.” —School Library Journal

many gifts—big and little blessings such as a visit from a friend, a call from your sister, the laughter of your children, a setting sun, or crumbs on the floor. These fleeting moments and everyday happenings can seem insignificant, but when you behold them with intention and thank God for making them possible, you’ll find yourself in regular conversation with Jesus, the lifeblood of your deep connection with God. This fifty-two-week devotional blends spiritual insights, authentic vulnerability, and wise guidance for women of every age who want to have a heart fully awakened to God’s presence and the beautiful bouquet of blessings he’s put in your life. With stories, challenges, and insights into scripture, each reflection is designed to draw you deeper into awareness of Christ’s love and the love he is calling you to share with the world. Wilson Hussem also offers practical ways to choose to love—visiting the elderly, calling your mom, or pausing to pray for a special intention—that are simple enough for even the busiest lifestyle. How and when you use the devotional is completely flexible: You can start on any day of the week and return to it as often as you need to. Each week’s focus is designed to draw you deeper into the heart of God by learning to love Jesus, others, and yourself more fully. A New York Times Notable Book of 2012 Rachel Carson loved the ocean and wrote three books

about its mysteries. But it was with her fourth book, *Silent Spring*, that this unassuming biologist transformed our relationship with the natural world. *Silent Spring* was a chilling indictment of DDT and other pesticides that until then had been hailed as safe and wondrously effective. It was Carson who sifted through all the evidence, documenting with alarming clarity the collateral damage to fish, birds, and other wildlife; revealing the effects of these new chemicals to be lasting, widespread, and lethal. *Silent Spring* shocked the public and forced the government to take action, despite a withering attack on Carson from the chemicals industry. It awakened the world to the heedless contamination of the environment and eventually led to the establishment of the EPA and to the banning of DDT. By drawing frightening parallels between dangerous chemicals and the then-pervasive fallout from nuclear testing, Carson opened a fault line between the gentle ideal of conservation and the more urgent new concept of environmentalism. Elegantly written and meticulously researched, *On a Farther Shore* reveals a shy yet passionate woman more at home in the natural world than in the literary one that embraced her. William Souder also writes sensitively of Carson's romantic friendship with Dorothy Freeman, and of Carson's death from cancer in 1964. This extraordinary new biography captures the essence of one of the great reformers of the twentieth century. You're

profiles of history's brightest female scientists. "Rachel Swaby's no-nonsense and needed Headstrong dynamically profiles historically overlooked female visionaries in science, technology, engineering, and math."—Elle In 2013, the *New York Times* published an obituary for Yvonne Brill. It began: "She made a mean beef stroganoff, followed her husband from job to job, and took eight years off from work to raise three children." It wasn't until the second paragraph that readers discovered why the *Times* had devoted several hundred words to her life: Brill was a brilliant rocket scientist who invented a propulsion system to keep communications satellites in orbit, and had recently been awarded the National Medal of Technology and Innovation. Among the questions the obituary—and consequent outcry—prompted were, Who are the role models for today's female scientists, and where can we find the stories that cast them in their true light? Headstrong delivers a powerful, global, and engaging response. Covering Nobel Prize winners and major innovators, as well as lesser-known but hugely significant scientists who influence our every day, Rachel Swaby's vibrant profiles span centuries of courageous thinkers and illustrate how each one's ideas developed, from their first moment of scientific engagement through the research and discovery for which they're best known. 'An inspiring gift for teenagers with a conscience' - Independent 'We're not the future. We're doing it right now.' Young people are uniting across the world to create change, have their voices heard and stand up for what they believe in. In this bold and brilliantly inspiring book, Lauren Sharkey profiles the powerful stories and achievements of 52 young women who are working to improve the lives of people across the globe. Some are active in feminist issues like period poverty or political problems such as police brutality and LGBTQ+ rights; while others are working in science, conservation and diversity. Yet whether it be Twitter campaigns or life-saving apps, their great ideas are all changing the world as we know it. Illustrated by Manjit Thapp, this is a must-have for young women who would like to dare to make a difference and become empowered to be the change. Can women have meaningful careers in tech? Are diversity efforts in Silicon Valley failing? Should women avoid working for technology companies? Alana Karen was annoyed every time she saw the latest headline questioning women's survival in tech. She pictured a

new graduate deciding on her career and only having one-sided articles to help make her decision. She saw colleagues roll their eyes at books about C-level women in tech and heard jokes about how inaccessible those stories sounded. She wondered how women could feel like they belonged if they didn't see themselves reflected in the media. Inspired by women she knows in tech—women with diverse backgrounds, education, and ambitions—she wrote *The Adventures of Women in Tech* to fill that gap. A twenty-year tech company veteran and leader, Alana Karen brilliantly and systematically replaces what we think we know about women in tech with more than eighty women's stories of what it's honestly like to join, lead, and thrive in today's top technology companies. *The Adventures of Women in Tech* delves into why we join tech, the challenges we face, and the skills and support we need to succeed and stay in an often challenging environment. In twelve chapters filled with intimate stories, insights, and advice from women working in technology companies and start-ups, Alana Karen demonstrates that we all belong in tech. Discusses the stories of successful women, the persons who influenced them and how they go on to influence other women's lives. An unstinting account of the experiences of women soldiers in today's army relates the author's decision to enlist, her relationship with a Palestinian boyfriend, her witness to the

events of September 11 as portrayed on Arabic television, and her deployment to Iraq. Reprint. Rachel Swaby and Kit Fox present *Mighty Moe*, the untold true story of runner Maureen Wilton, whose world record-breaking marathon time at age 13 was met first with misogyny and controversy, but ultimately with triumph. Fifty-two years ago, a girl known as *Mighty Moe* broke the women's world marathon record at a small race in Toronto. This was an era when girls and women were discouraged from the sport and the longest track event at the Olympics for women was 25.6 miles shorter than a marathon. Thirteen-year-old *Moe's* world-beating victory was greeted with chauvinistic disapproval and accusations of cheating—as were many of her achievements in the sport she had excelled at from the age of ten. Within less than two years, the controversy took its toll and Maureen quit running. Here is the untold story of *Mighty Moe's* tenacity and triumph in the face of adversity as a young athlete—and of a grown-up Maureen finding her way back to the sport decades later. This inspiring biography for readers and racers of all ages showcases the truly groundbreaking achievements of an unassuming, amazing young athlete. *Mighty Moe* includes an introduction by Kathrine Switzer, the first woman to officially register and run in the Boston Marathon (and Maureen's only fellow female competitor at the 1967 record-setting race), and an afterword by Des Linden, the

first-place finisher of the 11,628 women who raced the 2018 Boston Marathon. *Excellent Women* is probably the most famous of Barbara Pym's novels. The acclaim a few years ago for this early comic novel, which was hailed by Lord David Cecil as one of 'the finest examples of high comedy to have appeared in England during the past seventy-five years,' helped launch the rediscovery of the author's entire work. Mildred Lathbury is a clergyman's daughter and a spinster in the England of the 1950s, one of those 'excellent women' who tend to get involved in other people's lives - such as those of her new neighbor, Rockingham, and the vicar next door. This is Barbara Pym's world at its funniest. "The object of this essay is to explain as clearly as I am able, the grounds of an opinion which I have held from the very earliest period when I had formed any opinions at all on social or political matters, and which, instead of being weakened or modified, has been constantly growing stronger by the progress of reflection and the experience of life: That the principle which regulates the existing social relations between the two sexes- the legal subordination of one sex to the other- is wrong in itself, and now one of the chief hindrances to human improvement ; and that is ought to be replaced by a principle of perfect equality, admitting no power or privilege on the one side, nor disability on the other."--Page 1 *The groundbreaking New York*

Times bestseller, *Women in Science* by Rachel Ignatofsky, comes to the youngest readers in board format! Highlighting notable women's contributions to STEM, this board book edition features simpler text and Rachel Ignatofsky's signature illustrations reimagined for young readers to introduce the perfect role models to grow up with while inspiring a love of science. The collection includes diverse women across various scientific fields, time periods, and geographic locations. The perfect gift for every curious budding scientist!

As smart as Medoff's critique of corporate inanity is, it's tempered by compassion for these people, who are ultimately tender with each other, too. . . . Medoff finds plenty of hurt—but strains

A leader who wields power with grace and discretion, she has earned the devotion and loyalty of her staff. No one admires Rosa more than her doting lieutenant Leo Smalls, a benefits vice president whose whole world is Ellery.
